NUCLEAR REGULATORY COMMISSION

Draft NUREG: Issuance, Availability

The U. S. Nuclear Regulatory Commission (NRC) has published a draft report entitled "Analysis of Spent Fuel Heatup Following Loss of Water in a Spent Fuel Pool" (NUREG/CR-6441). The report describes a methodology for predicting the spent fuel heatup in the event of loss of water in the spent fuel pool. The methodology has been formulated and implemented within a computer code called SHARP (Spent-fuel Heatup: Analytical Response Program). The code modeling framework, including the mathematical models and solution methods are described in the draft NUREG/CR-6441. NUREG/CR-6441 has incorporated a users' manual for the SHARP code and it discusses how to compute the results of the spent fuel heatup characteristics using representative design parameters and fuel loading assumptions. The SHARP code is intended to provide NRC a method for analyzing the safety of spent fuel in the pool for post shutdown conditions. This situation may occur when a licensee requests relief from regulatory requirements during the decommissioning process at their nuclear reactor facility.

NUREG/CR-6441 has been prepared for the NRC by Brookhaven National Laboratory (BNL) and is now available for review and comment. Copies of draft report may be obtained from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20013-7082. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia 22161. A copy is also available for inspection and/or copying for a fee in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC. The software for the SHARP code can be obtained by contacting Kia L. Jackson, Mail Stop T-9 F31, U.S. Nuclear Regulatory Commission, Washington, DC 20555; Phone (301) 415-6250; E-mail: klj@nrc.gov. For additional information, please contact the NRC program manager, George J. Mencinsky, Mail Stop T-9 F31, U.S. Nuclear Regulatory

Commission, Washington, DC 20555; Phone (301) 415-6206; E-mail: gjm@nrc.gov.

Comments on the draft report should be sent to the Chief, Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Mail Stop P-223, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Copies of the comments received may be examined at the NRC Public Document Room at 2120 L Street, NW. (Lower Level), Washington, DC. Comments will be most helpful if they are received by August 3, 1998.

Dated at Rockville, Maryland, this 28th day of April, 1998.

For the Nuclear Regulatory Commission.
