

EPA cautions persons using EPA's recommendations to use them only for the *specific items* for which they were intended. It is not appropriate to analogize from one type of insulation or carpet to another without first researching the use of recovered materials in the other items. The two items could have different performance requirements necessitating different levels of recovered materials.

Dated: June 1, 1998.

Timothy Fields, Jr.,

Acting Assistant Administrator, Office of Solid Waste and Emergency Response.

Recovered Materials Advisory Notice I Update

Following are updates to EPA's recommendations to procuring agencies for purchasing polyester carpet and building insulation products containing

recovered materials, in compliance with section 6002 of the Resource Conservation and Recovery Act (RCRA). These recommendations are intended to be used in conjunction with RMAN I (60 FR 21386, May 1, 1995). The remainder of the RMAN I recommendations for these items remains unchanged. Refer to RMAN I or the Code of Federal Regulations at 40 CFR part 247 for definitions, general recommendations for affirmative procurement programs, and additional recommendations for purchasing these items containing recovered materials.

Part C.—Construction Products (Revised)

Section C-1. Building Insulation (Revised)

Note: EPA recommended purchasing practices, including recovered materials

content levels, for thermal building insulation products in RMAN I. EPA is revising those recommendations by adding a recovered materials content level for plastic batt building insulation. Procuring agencies should substitute the revised Table C-1 shown below for the recommendations found in section C-1 of the 1995 RMAN I. EPA's revised recommendations are indicated in **Bold** type.

Preference Program: EPA recommends that, based on the recovered materials content levels shown in Table C-1 (Revised), procuring agencies establish minimum content standards for use in purchasing building insulation products.

TABLE C-1. (REVISED)—RECOMMENDED RECOVERED MATERIALS CONTENT LEVELS FOR BUILDING INSULATION

Insulation material	Recovered material	Total recovered materials (%)
Cellulose loose-fill and spray-on	Postconsumer paper	75
Fiberglass	Glass cullet	20-25
Perlite composite board	Postconsumer paper	23
Phenolic rigid foam	Recovered materials	5
Plastic, non-woven batt	Recovered and/or postconsumer plastics	100
Plastic foam-in-place, polyisocyanurate/polyurethane	Recovered materials	5
Plastic rigid foam, polyisocyanurate/polyurethane	Recovered materials	9
Plastic foam, glass fiber reinforced polyisocyanurate/polyurethane.	Recovered materials	6
Rock wool	Slag	75

Note: The recommended recovered materials content levels are based on the weight (not volume) of materials in the insulating core only.

Section C-4. Carpet (Revised)

Note: EPA recommended purchasing practices, including specifications, for polyester carpet in RMAN I. EPA is revising these recommendations to add a reference to the General Services Administration's carpet schedule and the current contract for polyester carpet containing recovered materials. All of EPA's other purchasing recommendations for polyester carpet, found in the 1995 RMAN I, remain unchanged.

Preference Program: EPA recommends that Federal procuring agencies use GSA's contract GS-27F-5069-C under Schedule 72, part I, section A, when purchasing polyester carpet containing recovered materials.

FEDERAL COMMUNICATIONS COMMISSION

[DA 98-1037 and CC Docket No. 90-571]

Notice of Telecommunications Relay Services (TRS) Certification

Released: June 2, 1998.

Notice is hereby given that the applications for certification of state Telecommunication Relay Services (TRS) programs of the states listed below have been granted, subject to the condition described below, pursuant to Title IV of the Americans with Disabilities Act of 1990, 47 U.S.C. 225(f)(2), and section 64.605(b) of the Commission's rules, 47 CFR 64.605(b). The Commission will provide further Public Notice of the certification of the remaining applications for certification once review of those states' applications has been completed. On the basis of the states applications, the Commission has determined that:

(1) The TRS program of the listed states meet or exceed all operational, technical, and functional minimum standards contained in section 64.604 of the Commission's rules, 47 CFR 64.604;

(2) The TRS programs of the listed states make available adequate procedures and remedies for enforcing the requirements of the state program; and,

(3) The TRS programs of the listed states in no way conflict with federal law.

The Commission also has determined that, where applicable, the intrastate funding mechanisms of the listed states are labeled in a manner that promotes national understanding of TRS and does not offend the public, consistent with section 64.605(d) of the Commission's rules, 47 CFR 64.605(d).

On May 14, 1998, the Commission adopted a Notice of Proposed Rulemaking that proposes ways to enhance the quality of existing telecommunications relay services (TRS) and expand those services for better use by individuals with speech disabilities. See Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, CC Docket No. 98-67, FCC 98-90 (rel. May 20, 1998).

Because the Commission may adopt changes to the rules governing relay programs, including state relay programs, the certification granted herein is conditioned on a demonstration of compliance with any new rules ultimately adopted by the Commission. The Commission will provide guidance to the states on demonstrating compliance with such rule changes.

This certification, as conditioned herein, shall remain in effect for a five year period, beginning July 26, 1998, and ending July 25, 2003, pursuant to 47 CFR 64.605(c). One year prior to the expiration of this certification, July 25, 2002, the states may apply for renewal of their TRS program certifications by filing documentation in accordance with the Commission's rules, pursuant to 47 CFR 64.605(a) and (b).

Copies of certification letters are available for public inspection at the Commission's Common Carrier Bureau, Network Services Division, Room 235, 2000 M Street, NW, Washington, DC, Monday through Thursday, 8:30 AM to 3:00 PM (closed 12:30 to 1:30 PM), and the FCC Reference Center, Room 239, 1919 M Street, NW, Washington, DC, daily, from 9:00 AM to 4:30 PM.
