

limitation of time on December 31, 1997. Therefore, pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), the concessioner is entitled to be given preference in the renewal of the contract and in the award of a new contract, providing that the existing concessioner submits a responsive offer (a timely offer which meets the terms and conditions of the Prospectus). This means that the contract will be awarded to the party submitting the best offer, provided that if the best offer was not submitted by the existing concessioner, then the existing concessioner will be afforded the opportunity to match the best offer. If the existing concessioner agrees to match the best offer, then the contract will be awarded to the existing concessioner.

If the existing concessioner does not submit a responsive offer, the right of preference in renewal shall be considered to have been waived, and the contract will then be awarded to the party that has submitted the best responsive offer.

The Secretary will consider and evaluate all offers received as a result of this notice. Any offer, including that of the existing concessioner, must be received by the Regional Director, Intermountain Region, P.O. Box 25287, Denver, Colorado 80225-0287 (street address: 12795 West Alameda Parkway, Lakewood, Colorado 80228); not later than NINETY (90) days following release of the Prospectus to be considered and evaluated.

Notice of Intention To Issue Concession Contracts and Concession Permits; Southeast Region

SUMMARY: Pursuant to the Act of October 9, 1965, (79 Stat. 969; 16 U.S.C. 20 *et seq.*), notice is hereby given that the National Park Service intends to issue new concession contracts and permits within various areas of the Southeast Region for a period of approximately 2 years. This short contracting term is necessary to allow the continuation of public services during completion of planning activities for the various park areas covered by this notice. The proposed term for the individual authorizations may be lessened should planning issues be resolved, and the renewal processes result in the award of new authorizations. The current concessioners have performed their obligations to the satisfaction of the Secretary of the Interior and retain their right of preference under this administrative action. This preferential right of renewal means that a short term contract or permit will be awarded to the party submitting the best offer, provided that if the best offer was not submitted by the existing concessioner, then the existing concessioner will be afforded the opportunity to match the best offer. If the existing concessioner agrees to match the best offer, then the short-term contract or permit will be awarded to the existing concessioner.

SUPPLEMENTARY INFORMATION: The concession contracts and permits involved in this action would have expired by limitation of time but were extended by the National Park Service to provide time for planning of the concession activities. Until the planning processes are completed, and the future direction for concession services in the park areas is determined, it is not in the best interest of the National Park Service to enter into long term authorizations. For this reason, it is the intention of the National Park Service to issue short term contracts and permits, complete the planning processes, and then conduct public contracting processes for selection of concessioner for a more extended period.

Due to the limited term of the proposed contracts and permits, the requirement for any successor to purchase possessory interest in those concessions which have that right via contract, and the preferential right of renewal under law, the National Park Service is not encouraging the submission of offers by anyone other

than the existing concessioners; however, as required by law, the National Park Service will consider and evaluate any offer received in response to this notice.
