

the turn of the century. Submitters are encouraged to provide additional comments as new problems and solutions are found.

We would also like to determine the level of support for Y2K maritime conferences in various cities. In February, 1998, the Coast Guard co-sponsored a Y2K Maritime Issues Conference with the New York Maritime Association Port of NY/NJ. This widely attended information-sharing conference drew representation from a large cross-section of industry. Since the Y2K problem will affect all sectors of industry, future similar conferences may be beneficial to stakeholders. The Coast Guard may be interested in cosponsoring such events in the future.

We would specifically like comments in the following areas:

- (1) Identification of Y2K problems.
- (2) Solutions to and lessons learned about Y2K problems.
- (3) Resources available to address Y2K issues.
- (4) Your interest in attending Y2K maritime conferences in Washington, DC and other cities.

All comments, which will be maintained on the Docket Management System, can be accessed at <http://dms.dot.gov>. Also, the Coast Guard's Marine Safety Y2K Web Site at: <http://www.uscg.mil/hq/g-m/nmc/y2k.htm> can be accessed to obtain information on comments received.

Dated: June 2, 1998.

Director of Standards, Marine Safety and Environmental Protection.
