

together with a reconciliation for prior period undercollections. It is said that the proposed reconciliation was rejected in an order issued April 1, 1998 on the grounds that the reconciliation procedure appeared to recover reimbursable power costs incurred prior to the date that the PCA became effective on April 1, 1997.

Granite State says that the April 1, 1998 order established a Technical Conference in the proceeding which was held May 19, 1998, during which the Staff made certain recommendations concerning the PCA tracking procedure and particularly the reconciliation methodology for undercollections of the electric power costs. According to Granite State, the revised tariff sheets listed above incorporate Staff suggested revisions in the PCA procedure to establish separate surcharge components for the projected electric power costs in each quarterly filing and a separate surcharge component for the recovery of uncollected costs in prior periods. Granite State further states that the foregoing revised tariff sheets and surcharge calculations also reflect Granite State's understanding of its authorization to collect prior period undercollections through the reconciliation procedure in the PCA.

Granite State also states that during the Technical Conference the Staff disagreed with granite State's interpretation of the authorization to collect prior period undercollections of the electric power costs billed by Portland Pipe Line, particularly such costs incurred prior to April 1, 1997. Granite State has also tendered in this filing the alternate revised tariff sheets listed below for effectiveness on July 1, 1998:

Alternate Fourteenth Revised Sheet No. 21
Alternate Fifteenth Revised Sheet No. 22
Alternate Substitute Revised Sheet Nos. 333 and 334

According to Granite State the foregoing alternate revised tariff sheets reflect in the PCA reconciliation methodology and calculation of the PCA surcharge the Staff's view of Granite State's authorization to recover prior period reimbursable electric power costs.

According to Granite State, copies of its filing have been served on its firm customers, Bay State Gas Company and Northern Utilities, Inc., and on the regulatory agencies of the states of Maine, Massachusetts and New Hampshire.
