SUPPLEMENTARY INFORMATION:

A. Purpose

Under the Balance of Payments Program, unless specifically exempted by statute or regulation, the Government gives preferences to the acquisition of domestic end products or services, provided that the cost of the domestic items is reasonable. The Balance of Payments Program differs from the Buy American Act in that it applies to acquisitions for use outside the United States.

The contracting officer uses the information to identify which end products or services are domestic, and which are of foreign origin. In order to be considered domestic, the cost of its components mined, produced, or manufactured in the United States must exceed 50 percent of the cost of all its components. Services are considered domestic if 25 percent or less of their total cost are attributable to performance occurring outside the United States. The contracting officer determines reasonableness of cost by applying an evaluation factor of 50 percent. If this procedure results in a tie, the domestic offer shall be considered successful.

B. Annual Reporting Burden

Public reporting burden for this collection of information is estimated to average .167 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden is estimated as follows: Respondents, 1,243; responses per respondent, 5; total annual responses, 6,215; preparation

hours per response, .167; and total response burden hours, 1,038.

Eligible applicants for purposes of funding under the program include any authorized agency of the 50 States, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, and any territory or possession of the United States. For convenience, the term State in this notice refers to all eligible State agency applicants. Local governments, State and private universities, private non-profits, private businesses and individuals, who are not eligible as direct applicants, must work with the appropriate State agencies in developing projects and forming participation arrangements. DOE requires these types of cooperative arrangements in support of program goals. The Catalog of Federal Domestic Assistance number assigned to this program is 81.105. Cost sharing is required by all participants. The Federal Government will provide up to 50 percent of the funds for the project. The remaining funds must be provided by the eligible applicants and/or cooperating project participants. Cost sharing, by industry/State partners, beyond the 50 percent required match is desirable. In addition to direct financial contributions, cost sharing can include beneficial services or items, such as manpower, equipment, consultants and computer time that are allowable in accordance with applicable cost principles. The inclusion of industrial partners is required for a proposal to be considered responsive to the solicitation to be eligible for grant consideration. A State agency application signed by an authorized State official is required for a proposal to be responsive.
