**AGENCY:** National Park Service; Interior.

**ACTION:** Record of decision.

**SUMMARY:** This action announces a decision on a proposed exchange of federally-owned lands for privately owned lands near Cloud Bank Road, Township of Philipstown, Putnam County, New York.

The National Park Service's Appalachian National Scenic Trail will continue with negotiations to exchange federally-owned lands for privately-owned lands near Cloud Bank Road in the Garrison, New York area. The federally-owned lands include the Colt Estate Dam. The authority for this exchange is Section 5(b) of the Land and Water Conservation Fund Act Amendments in Public Law 90-401 approved July 15, 1968 and Section 7(f) of the National Trails System Act, Public Law 90-543, as amended.

The proposal to exchange lands has generated a significant amount of public interest. On June 28, 1997, the National Park Service (NPS) published a Notice of Realty Action describing the lands to be exchanged. The National Park Service subsequently conducted a public meeting concerning the proposed exchange in Garrison, New York on December 16, 1997.

Written comments both in favor of and in opposition to the proposed exchange were received from concerned citizens and local, state and federal officials. Comments from the public at the Garrison meeting also were recorded for review and evaluation.

The comments expressed can be characterized as fitting into four main themes: (1) Concern over transferring lands protected by the NPS to private citizens, (2) Concern over development over the exchanged lands, (3) Concern with the condition of the Colt Estate Dam, and (4) Concern with land valuation.

In response to the concerns expressed by the public, the Appalachian Trail Park Manager has directed the Appalachian Trail Land Acquisition Office to continue with negotiations to exchange the federally-owned lands for privately-owned lands. The conditions of the exchange now will include conservation restrictions to be held by a third party, non-profit entity on the property to be exchanged, and deed provisions whereby the owners, his heirs and assigns agree to maintain liability insurance with assurances that

dam repairs and maintenance are performed to the satisfaction of New York State dam safety officials.

## DEPARTMENT OF LABOR

### Employment Standards Administration; Wage and Hour Division

### Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study

of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related
