will be prepared for a proposed highway project in the Towns of Derry and Londonderry, in Rockingham County, New Hampshire.

FOR FURTHER INFORMATION CONTACT: Mr. William F. O'Donnell, P.E., Environmental Program Manager, Federal Highway Administration, 279 Pleasant Street, Suite 204, Concord, New Hampshire 03301–2509, Telephone: (603) 225–1608. George H. SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the Towns of Derry and Londonderry, will prepare an EIS for a proposed highway project to improve access to and from Interstate 93 (I–93) and the Towns served by NH Route 102, especially Derry and Londonderry. The project shall study alternative access routes to the Interstate system for through traffic along NH Route 102, including the possibility of a new interchange in the vicinity of Exit 4 and the necessary road networks to connect the new interchange to the highway system east and/or west of I–93. Consideration of upgrading existing roadways within the study area, as alternative means of meeting the area's transportation requirements, will also be addressed. Other potential alternative solutions to be studied include: taking no action, applying transportation systems management (TSM) improvements to selected locations on existing roads, transportation demand management (TDM), including mass transit, and combinations of these alternatives. Various designs of grade, alignment, geometry and access will be evaluated.

Citizens Advisory Task Force (CATF) consisting of local officials and citizens, NHDOT and FHWA will be established to explore and evaluate transportation alternatives and to evaluate project input as this study progresses.

Letters describing the proposed action and soliciting scoping comments will be sent to appropriate Federal, state and local agencies, and to private organizations who have an interest in this proposal. They will also be invited to a formal scoping meeting. Public information, community and CATF meetings will be held in the study area as the project progresses to consider public input in the planning process. A public hearing will be held following distribution of the Draft Environmental

Impact Statement (DEIS). Public notice will be given regarding the time and location of this hearing. The DEIS will be available for review and comment by the public and interested agencies.

The formal scoping meeting will be held at the West Running Brook Middle School in Derry, New Hampshire on July 30, 1998 in separate sessions, the first beginning at 2:00 p.m., and the second beginning at 7:00 to: (1) confirm the limits of the project study area, (2) help establish the study framework and the impacts to be analyzed, and (3) help to define a reasonable range of alternatives to be considered. Study area resources to be analyzed include the natural environment (such as farmland, wetlands, water resources and wildlife habitat), the social environment (such as land use, economic and residential development, noise and community facilities), the cultural environment (historic and archaeological resources), secondary impacts and the transportation network. Agencies to be invited to be cooperating agencies are the U.S. Environmental Protection Agency (EPA), the U.S. Army Corps of Engineers (ACOE), the New Hampshire Department of Transportation (NHDOT), the New Hampshire Division of Historic Resources (NHDHR), and the New Hampshire Department of Environmental Services (NHDES).

Comments and suggestions are invited from all interested parties to ensure that the full range of issues related to this proposed action is addressed and all significant issues are identified. Comments or questions concerning this proposed action should be addressed to the FHWA, the Town of Derry or the Town of Londonderry at the addresses provided above.
