June 10, 1998.

Take notice that on June 3, 1998, Texas Eastern Transmission Corporation (Texas Eastern), 5400 Westheimer Court, P.O. Box 1642, Houston, Texas 77251-1642, filed in Docket No. CP98-590-000 a request pursuant to Sections 157.205, and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.211) for authorization to install, own, maintain and operate a new point of delivery, which will consist of a 2-inch side valve and 2-inch insulating flange (tap) on its existing 24-inch Line No. 1 in Stoddard County, Missouri, to make deliveries to Noranda Aluminum, Inc. (Noranda), and industrial end-user, under the blanket certificate issued in Docket No. CP82-535-000, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Noranda will install, or cause to be installed, a single 3-inch meter run plus associated piping (meter station), approximately 50 feet of 2-inch pipe that will extend from the meter station to the tap (connecting pipe), and electronic gas measurement equipment (EGM). Texas Eastern will own the tap and EGM. Noranda will own the connecting pipe and meter station. Texas Eastern will operate the tap, EGM, meter station, and connection pipe. Texas Eastern will maintain the tap and EGM. Noranda will maintain the meter station and connecting pipe.

Texas Eastern estimates the cost for installing the tap, and from reviewing and inspecting the installation of the meter station, connecting pipe, and EGM to be approximately \$6,949, which Noranda has agreed to reimburse Texas Eastern for 100% of the costs and expenses associated with the proposed delivery point. Texas Eastern will deliver up to 4 MMCF/d to Noranda at the proposed delivery point pursuant to its Rate Schedule IT-1.

Texas Eastern states that Noranda is located in the service area of and is currently a customer of Associated Natural Gas Company (Associated). Texas Eastern states that it will provide service to the proposed delivery point by using existing capacity on its system and it will have no effect on its peak day or annual deliveries. Texas Eastern has sufficient capacity to accomplish the deliveries without detriment or disadvantage to its other customers.
