### Foreign Agricultural Service

#### Special Provision for Frozen Concentrated Orange Juice Under the North American Free Trade Agreement Implementation Act

**AGENCY:** Foreign Agricultural Service.

**ACTION:** Notice of Determination of Existence of Price Conditions Necessary for Imposition of Temporary Duty on Frozen Concentrated Orange Juice from Mexico.

**SUMMARY:** Pursuant to Section 309(a) of the North American Free Trade Agreement Implementation Act of 1993 ("NAFTA Implementation Act"), this is a notification that for 5 consecutive business days the daily price for frozen concentrated orange juice was lower than the trigger price.

**FOR FURTHER INFORMATION CONTACT:** Joseph Somers, Horticultural and Tropical Products Division, Foreign Agricultural Service, U.S. Department of Agriculture, Washington, DC 20250-1000 or telephone at (202) 720-2974.

**SUPPLEMENTARY INFORMATION:** The NAFTA Implementation Act authorizes the imposition of a temporary duty (snapback) for Mexican frozen concentrated orange juice when certain conditions exist. Mexican articles falling under subheading 2009.11.00 of the Harmonized Tariff Schedule of the United States (HTS) are subject to the snapback duty provision.

Under Section 309(a) of the NAFTA Implementation Act, certain price conditions must exist before the United States can apply a snapback duty on imports of Mexican frozen concentrated orange juice. In addition, such imports must exceed specified amounts before the snapback duty can be applied. The price conditions exist when for each period of 5 consecutive business days the daily price for frozen concentrated orange juice is less than the trigger price.

For the purpose of this provision, the term *daily price* means the daily closing price of the New York Cotton Exchange, or any successor as determined by the Secretary of Agriculture (the "Exchange"), for the closest month in which contracts for frozen concentrated orange juice are being traded on the Exchange. The term "business day" means a day in which contracts for frozen concentrated orange juice are being traded on the Exchange.

The term *trigger price* means the average daily closing price of the Exchange for the corresponding month during the previous 5-year period, excluding the year with the highest average price for the corresponding month and the year with the lowest average price for the corresponding month.

Price conditions no longer exist when the Secretary determines that for a period of 5 consecutive business days the daily price for frozen concentrated orange juice has exceeded the trigger price. Whenever the price conditions are determined to exist or to cease to exist the Secretary is required to immediately notify the Commissioner of Customs of such determination.

Whenever the determination is that the price conditions exist and the quantity of Mexican articles of frozen concentrated orange juice entered exceeds (1) 264,978,000 liter (single strength equivalent) in any of calendar years 1994 through 2002, or (2) 340,560,000 liters (single strength equivalent) in any of calendar years 2003 through 2007, the rate of duty on Mexican articles of frozen concentrated orange juice that are entered after the date on which the applicable quantity limitation is reached and before the date

of publication in the **Federal Register** of the determination that the price conditions have ceased to exist shall be the lower of—(1) the column 1—General rate of duty in effect for such articles on July 1, 1991; or (2) the column 1—General rate of duty in effect on that day. For the purpose of this provision, the term "entered" means entered or withdrawn from warehouse for consumption in the customs territory of the United States.

In accordance with Section 309(a) of the NAFTA Implementation Act, it has been determined that for the period June 2-8, the daily for frozen concentrated orange juice was less than the trigger price.

Issued at Washington, D.C. the 12th day of June, 1998.

### International Trade Administration

#### International Buyer Program; Support for Domestic Trade Shows

**AGENCY:** International Trade Administration, Commerce.

**ACTION:** Notice and Call for Applications for the FY 2000 International Buyer Program (October 1, 1999 through September 30, 2000).

**SUMMARY:** This notice sets forth objectives, procedures and application review criteria associated with the U.S. Department of Commerce's International Buyer Program (IBP), to support domestic trade shows. Selection is for the International Buyer Program for Fiscal Year 2000.

The International Buyer Program was established to bring international buyers together with U.S. firms by promoting leading U.S. trade shows in industries with high export potential. The International Buyer Program emphasizes cooperation between the U.S. Department of Commerce (DOC) and trade show organizers to benefit U.S. firms exhibiting at selected events and provides practical, hands-on assistance such as export counseling and market analysis to U.S. companies interested in exporting. The assistance provided to show organizers includes worldwide overseas promotion of selected shows to potential international buyers, end-users, representatives and distributors. The worldwide promotion is executed through the offices of the United States and Foreign Commercial Service (hereinafter referred to as the Commercial Service) in 70 countries representing America's major trading partners, and also in U.S. Embassies in countries where the Commercial Service does not maintain offices. The Department expects to select approximately 24 shows for FY2000 from among applicants to the program. Shows selected for the International Buyer Program will provide a venue for U.S. companies interested in expanding their sales into international markets. Successful applicants will be required to enter into a Memorandum of Understanding (MOU) that sets forth the specific actions to be performed by the show organizer and the DOC. The MOU constitutes an agreement between the
