Form 409 is required by 47 CFR Part 22. The applicant may be subject to requirements in addition to those specified on the form.

The form has been redesigned to remove the fee filing data. FCC Form 159, Fee Remittance Advice, is required to be submitted with any payment to the FCC. When a licensee provides conflicting information regarding the construction or operational status of radio facilities authorized to it, the Commission requires clarification/validation/explanation to substantiate the facilities' status so that it may enforce its regulatory responsibilities.

Such responsibilities include the allocation and assignment of radio frequency spectrum and determining the viability of the underlying radio license authorizations which provide for use of that spectrum.

The data requested in this collection are being revised to include requesting purchase order/invoices for the base station, transmitter(s) and antenna; Work order/invoices demonstrating completion of station construction; Name, address and phone number of individual(s) performing the station construction; model and serial numbers of mobiles in operation; and a list of users and phone numbers on this system at the time of construction.

The Commission's requirement that systems be permanently constructed and placed in operation is contained in 47 CFR, Rule Section 90.155, 90.313, 90.631, 90.633, 90.651, 90.725 and 90.737.

## FEDERAL COMMUNICATIONS COMMISSION

[DA 98-1194]

### Notice of Telecommunication Relay Services (TRS) Certification; CC Docket No. 90-571

Released: June 19, 1998.

Notice is hereby given that the applications for certification of state Telecommunication Relay Services (TRS) programs of the states listed below have been granted, subject to the condition described below, pursuant to Title IV of the Americans with Disabilities Act of 1990, 47 U.S.C. 225(f)(2), and section 64.605(b) of the Commission's rules, 47 CFR 64.605(b). The Commission will provide further Public Notice of the certification of the remaining applications for certification once review of those states' applications has been completed. On the basis of the states applications, the Commission has determined that:

(1) The TRS program of the listed states meet or exceed all operational, technical, and functional minimum standards contained in section 64.604 of the Commission's rules, 47 CFR 64.604;

(2) The TRS programs of the listed states make available adequate procedures and remedies for enforcing the requirements of the state program; and,

(3) The TRS programs of the listed states in no way conflict with federal law.

The Commission also has determined that, where applicable, the intrastate funding mechanisms of the listed states are labeled in a manner that promotes national understanding of TRS and does not offend the public, consistent with

section 64.605(d) of the Commission's rules, 47 CFR 64.605(d).

On May 14, 1998, the Commission adopted a Notice of Proposed Rulemaking that proposes ways to enhance the quality of existing telecommunications relay services (TRS) and expand those services for better use by individuals with speech disabilities. See Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities, CC Docket No. 98-67, FCC 98-90 (rel. May 20, 1998). Because the Commission may adopt changes to the rules governing relay programs, including state relay programs, the certification granted herein is conditioned on a demonstration of compliance with any new rules ultimately adopted by the Commission. The Commission will provide guidance to the states on demonstrating compliance with such rule changes.

This certification, as conditioned herein, shall remain in effect for a five year period, beginning July 26, 1998, and ending July 25, 2003, pursuant to 47 CFR 64.605(c). One year prior to the expiration of this certification, July 25, 2002, the states may apply for renewal of their TRS program certifications by filing documentation in accordance with the Commission's rules, pursuant to 47 CFR 64.605(a) and (b).

Copies of certification letters are available for public inspection at the Commission's Common Carrier Bureau, Network Services Division, Room 235, 2000 M Street, NW, Washington, DC, Monday through Thursday, 8:30 AM to 3:00 PM (closed 12:30 to 1:30 PM) and the FCC Reference Center, Room 239, 1919 M Street, NW, Washington, DC, daily, from 9:00 AM to 4:30 PM.
