

operations at Maine Yankee Atomic Power Station and that all fuel had been permanently removed from the reactor. In accordance with 10 CFR 50.82(a)(2), the certifications in the letter modified the facility operating license to permanently withdraw MYAPC's authority to operate the reactor and to load fuel in the reactor vessel. In this permanently shutdown condition, the facility poses a reduced risk to public health and safety. Due to this reduced risk, certain requirements of 10 CFR 73.55 are no longer appropriate. An exemption is required from portions of 10 CFR 73.55 to allow the licensee to implement a revised Defueled Security Plan that is appropriate for the permanently shutdown and defueled reactor facility.

Environmental Impact of the Proposed Action

The Commission has completed its evaluation of the proposed action. The Commission concludes that exemption from certain portions of 10 CFR 73.55 are acceptable given the reduced consequences of the threat to a defueled reactor site with respect to public health and safety from an act of sabotage resulting in the release of radioactive material contained in the spent fuel.

The proposed change will not increase the probability or consequences of accidents, no changes are being made in the types of effluents that may be released offsite, and there is no significant increase in the allowable individual or cumulative occupational exposure. Accordingly, the Commission concludes that there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action does involve features located entirely with the restricted area as defined in 10 CFR Part 20. It does not affect non-radiological plant effluents and has no other environmental impact. Therefore, the Commission concludes that there are no significant non-radiological impacts associated with the proposed action.

Alternatives to the Proposed Action

Since the Commission has concluded that there is no measurable environmental impact associated with the proposed action, any alternative with equal or greater environmental impact need not be evaluated. The principal alternative to the action would be to deny the request. Denial of the exemption request would result in no change in current environmental impacts. The environmental impacts of

the proposed action and the alternative action are similar.

Alternative Use of Resources

This action does not involve the use of resources not previously considered in the Final Environmental Statement related to Operation of Maine Yankee Atomic Power Station, (July 1972).

Agencies and Persons Consulted

In accordance with its stated policy, on May 14, 1998, the NRC staff consulted with Mr. Patrick Dostie of the State of Maine, Department of Human Services, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to this action, see the licensee's letter, dated November 25, 1997, which is available for public inspection at the Commission Public Document Room, Gelman Building, 2120 L Street, NW., Washington, DC, and at the Local Public Document Room at the Wiscasset Public Library, High Street, Post Office Box 367, Wiscasset, Maine 04578.

Dated at Rockville, Maryland, this 23rd day of June 1998.

For the Nuclear Regulatory Commission.

Seymour H. Weiss,

Director, Non-Power Reactors and Decommissioning Project Directorate, Division of Reactor Program Management, Office of Nuclear Reactor Regulation.

Procedures for Managing Gaseous Diffusion Plant Backfit Requirements; Notice of Availability

On March 26, 1997, the U.S. Nuclear Regulatory Commission (NRC) published a notice of availability of the Office of Nuclear Material Safety and Safeguards (NMSS) Policy and Procedures Letter 1-53, "GDP Plant Specific and Generic Backfit Management." This policy and procedures letter contains guidance and criteria for implementing the Gaseous

Diffusion Plant backfit requirements of 10 CFR Part 76.76.

NRC received public comments on NMSS Policy and Procedures Letter 1-53, and has issued a revised version. This revised policy and procedures letter is available for inspection at the NRC Public Document Room, 2120 L Street NW (lower level), Washington, DC; the Paducah Public Library, 555 Washington Street, Paducah, Kentucky 42003 (Docket No. 70-7001); and the Portsmouth Public Library, 1220 Gallia Street, Portsmouth, Ohio 45662 (Docket No. 70-7002).

For further information, contact Tom Wenck, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-8088.

Dated at Rockville, Maryland this 15th day of June 1998.

For the Nuclear Regulatory Commission.

Malcolm R. Knapp,

Acting Director, Office of Nuclear Material Safety and Safeguards.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Subcommittee Meeting on Plant License Renewal; Notice of Meeting

The ACRS Subcommittee on Plant License Renewal will hold a meeting on July 16, 1998, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Thursday, July 16, 1998—8:30 a.m. until the conclusion of business

The Subcommittee will discuss the NRC staff's activities associated with license renewal, proposed staff's plans and schedule for reviewing the license renewal application and related safety issues. The Subcommittee will also discuss the ACRS involvement in reviewing the license renewal submittal and related matters. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will

be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, and the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Dr. Medhat El-Zeftawy (telephone 301/415-6889) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes in the proposed agenda, etc., that may have occurred.

Dated: June 23, 1998.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards; Subcommittee Meeting on Reliability and Probabilistic Risk Assessment; Notice of Meeting

The ACRS Subcommittee on Reliability and Probabilistic Risk Assessment will hold a meeting on July 17, 1998, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Friday, July 17, 1998-8:30 a.m. until the conclusion of business

The Subcommittee will discuss issues in the Staff Requirements Memorandum dated April 20, 1998, regarding situation-specific cases where

probabilistic risk assessment (PRA) results and insights have improved the existing regulatory system and specific areas in which PRA, when applied properly, can have a positive impact on the regulatory system. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, and the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Mr. Michael T. Markley (telephone 301/415-6885) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes to the agenda, etc., that may have occurred.

Dated: June 23, 1998.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

POSTAL RATE COMMISSION

Postal Facility Visit

AGENCY: Postal Rate Commission.

ACTION: Notice of visit.

SUMMARY: Arrangements have been made for members of the Commission and certain advisory staff members to visit the Postal Service's facility in Merrifield, Virginia. The purpose is to observe mail processing, including management operating data system (MODS) data collection. Information obtained during the visit will assist Commissioners and staff in the execution of their duties.

DATES: The tour is scheduled for Monday, June 29, 1998.

FOR FURTHER INFORMATION CONTACT: Steven L. Sharfman, General Counsel, (202) 789-6820.

SUPPLEMENTARY INFORMATION: A report of the visit will be filed in the Commission's Docket Room.

Authority: 39 U.S.C. 404(b), 3603, 3622-3624, 3661, 3662.

Dated: June 23, 1998.

Margaret P. Crenshaw,
Secretary.

RAILROAD RETIREMENT BOARD

Agency Forms Submitted for OMB Review

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Railroad Retirement Board (RRB) has submitted the following proposal(s) for the collection of information to the Office of Management and Budget for review and approval.

Summary of Proposal(s)

- (1) *Collection title:* Certification Regarding Rights to Unemployment Benefits.
- (2) *Form(s) submitted:* UI-45.
- (3) *OMB Number:* 3220-0079.
- (4) *Expiration date of current OMB clearance:* 9/30/1998.
- (5) *Type of request:* Revision of a currently approved collection.
- (6) *Respondents:* Individuals or households, business or other for profit.
- (7) *Estimated annual number of respondents:* 1,950.
- (8) *Total annual responses:* 2,900.
- (9) *Total annual reporting hours:* 487.
- (10) *Collection description:* In administering the disqualification for the voluntary leaving of work provision of Section 4 of the Railroad Unemployment Insurance Act, the Railroad Retirement Board investigates an unemployment claim that indicates the claimant left voluntarily. The certification obtains information needed to determine if the leaving was for good cause.
