Notice of Availability of the Draft Environmental Assessment and Land Protection Plan for the Proposed Establishment of Swayze Lake National Wildlife Refuge, St. Landry Parish, LA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of the Draft Environmental Assessment and Land Protection Plan for the Proposed Establishment of Swayze Lake National Wildlife Refuge.

SUMMARY: This notice advises the public that the U.S. Fish and Wildlife Service, Southeast Region, proposes to establish a new national wildlife refuge in the Swayze Lake area in St. Landry Parish, Louisiana. The purpose of the proposed refuge is to protect, enhance, and manage a diversity of fish and wildlife habitats in the Swayze Lake area for the benefit of the area's fishery, resident and migratory waterfowl, shorebirds, wading birds, neotropical migratory birds, the federally listed Louisiana black bear, and other native wildlife. A Draft Environmental Assessment and Land Protection Plan for the establishment of the proposed refuge has been developed by Service biologists in coordination with the Louisiana Department of Wildlife and Fisheries, the Natural Resources Conservation Service, parish officials, and other local entities. The assessment considers the biological, environmental, and socioeconomic effects of establishing the proposed refuge and evaluates three alternative actions and their potential impacts on the environment. Written comments or recommendations concerning the proposal are welcomed and should be sent to the address given below.

DATES: Land acquisition planning for the project is currently underway. The draft environmental assessment and land protection plan will be available to the public for review and comment on July 15, 1998. Written comments must be received no later than August 14, 1998, in order to be considered for the preparation of the final environmental assessment.

ADDRESSES: Comments and requests for copies of the draft environmental assessment and for further information on the project should be addressed to Mr. Charles R. Danner, Team Leader, Planning and Support Team, U.S. Fish and Wildlife Service, 1875 Century Boulevard, Atlanta, Georgia 30345, or by telephone at 800/419-9582.

SUPPLEMENTARY INFORMATION: The proposed refuge area consists primarily of bottomland hardwoods, wooded/shrub swamps, and other wetlands. It covers a total of approximately 20,000 acres and is located within the Atchafalya River Basin, about 5 miles northwest of Krotz Springs in St. Landry Parish, Louisiana. The Service proposes to establish the refuge by purchasing about 9,000 acres in fee title from willing sellers. The remaining 11,000 acres would be sought through conservation easements, cooperative agreements, or fee title purchases, depending on landowner willingness.

The Swayze Lake area is nationally significant because it provides wintering habitat for migratory waterfowl, breeding habitat for wood ducks, migration habitat for shorebirds and neotropical migratory birds, and year-round habitat for wading birds. It is also a feeding area for bald eagles. The bottomland hardwoods also provide important habitat for the federally listed Louisiana black bear. Other resident wildlife include the American alligator, white-tailed deer, swamp rabbit, and furbearers such as raccoon, mink, muskrat, and otter.

The area's freshwater fishery is excellent. Numerous bayous and backwater lakes are interspersed throughout the area and provide outstanding sportfishing opportunities. Freshwater game species are abundant and include largemouth bass, black and white crappie, bluegill, and several species of catfish. Crawfishing is also extremely popular.

Dated: June 22, 1998.

Regional Director.

Hart Mountain National Antelope Refuge, OR; Jurisdictional Land Exchange

AGENCY: Lakeview District, Bureau of Land Management (BLM) and Hart Mountain National Antelope Refuge, U.S. Fish and Wildlife Service (USFWS), DOI.

ACTION: Notice of Availability, Environmental Assessment (EA#OR-010-97-05) and Draft Warner Lakes Management Framework Plan Amendment—Proposed Jurisdictional Land Exchange Between the Hart Mountain National Antelope Refuge and the Lakeview District, BLM.

SUMMARY: The USFWS and BLM have jointly prepared this document in accordance with the Federal Land Policy and Management Act of 1976 and the National Environmental Policy Act of 1969. The USFWS is the lead agency. The transfer has been proposed to improve the management efficiency of federal lands and to improve management of upland and riparian wildlife habitats. The document analyzes the potential environmental impacts of transferring management jurisdiction of about 12,880 acres of BLM-managed lands to the USFWS and about 7,870 acres of USFWS-managed lands to the BLM. In addition, a change of management direction would occur on about 11,020 acres of BLM-managed lands.

This notice announces that the document is, or soon will be available for a 45-day public comment period. It is very important that you participate during this review opportunity, so that

any substantive comments are provided at a time when we can meaningfully consider them.
