Area****AGENCY:** Environmental Protection
Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the District of Columbia for the purpose of establishing the District's plan to meet the 15 percent reasonable further progress implementation plan (15% plan) requirements of the Clean Air Act for the District's portion of the Washington, DC ozone nonattainment area. In the Final Rules section of this **Federal Register**, EPA is approving the District's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the technical support document prepared for the direct final rule. If no adverse comments are received in response to the direct final rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
