SUPPLEMENTARY INFORMATION:

Electronic Availability: Electronic copies of this document and the Fact Sheet are available from the EPA home page at the **Federal Register**-Environmental Documents entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgstr/>).

EPA issued a notice, published in the **Federal Register** of November 2, 1994 (59 FR 54903) (FRL-4917-5), which announced that W. R. Grace and Company, 7379 Route 32, Columbia, MD 21044, had submitted applications to register the pesticide products PFR-MUP and PFR-97™ WDG (EPA File Symbols 11688-RL and 11688-RA), containing the new active ingredient *Paecilomyces fumosoroseus* Apopka Strain 97 at 7 and 12.5 percent respectively, an active ingredient not included in any previously registered products.

These applications were subsequently transferred to Thermo Trilogy Corporation, 9145 Guilford Road, Suite 100, Columbia, MD 21046. The applications were approved on April 22, 1998, with new assigned registration numbers for the products PFR-MUP for manufacturing use only in the formulation of insecticides (EPA Registration Number 70051-17) and PFR-97™ 20% WDG for use on whiteflies, aphids, thrips, spider mites, ornamentals, nonfood crops in greenhouses, and interiorscapes (EPA Registration Number 70051-19). (S.Bacchus)

EPA also published a notice in the **Federal Register** of February 20, 1997 (62 FR 7776) (FRL-5588-2), which announced that W. Neudorff GmbH KG Postfach 1209, an der Muhle 3, D-31860 Emmerthal, Germany, had submitted an application to register the pesticide product NEU 1160 Vegetable Oil Spray (EPA File Symbol 67702-U) containing the ingredient canola oil at 96 percent, an active ingredient not included in any previously registered product.

The application was approved on April 28, 1998, as NEU 1160 Vegetable Oil Insecticide (EPA Registration

Number 67702-4), for use to control adelgids, aphids, cankerworms, caterpillars, fungus gnats, mites, and a variety of other insects on growing crops. (S. Cerrelli)

The Agency has considered all required data on risks associated with the proposed use of *Paecilomyces fumosoroseus* Apopka Strain 97 and canola oil, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the microbial or biochemical pesticide and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health safety determinations which show that use of *Paecilomyces fumosoroseus* Apopka Strain 97 and canola oil when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

More detailed information on these registrations is contained in an EPA Pesticide Fact Sheet on *Paecilomyces fumosoroseus* Apopka Strain 97 and canola oil.

A copy of these fact sheets, which provide a summary description of the pesticides, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label, the list of data references, the data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 119, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of

Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.
