The federally owned minerals area described aggregates 15,757.14 acres in Washoe County, Nevada.

In addition, if any of the non-Federal lands in Washoe County within the area described below are acquired by the United States in the future by exchange, donation, or purchase, those lands will be included in this application and would be closed to surface entry and mining if acquired during the 2-year segregative period:

T. 21 N., R. 18 E., (on north and east side of U.S. Highway 395).  
 T. 22 N., R. 18 E.,  
 T. 23 N., R. 18 E., excepting sec. 1–5, inclusive, and the  $N\frac{1}{2}N\frac{1}{2}$  of sec. 9–12, inclusive.  
 T. 20 N., R. 19 E., (on north and east side of U.S. Highway 395).  
 T. 21 N., R. 19 E.,  
 T. 22 N., R. 19 E.,

 T. 21 N., R. 21 E.,  
 T. 22 N., R. 21 E.,  
 T. 23 N., R. 21 E., (outside the boundaries of the Pyramid Lake Indian Reservation).  
 T. 20 N., R. 22 E.,  
 T. 21 N., R. 22 E.,  
 T. 22 N., R. 22 E.,  
 T. 23 N., R. 22 E., (outside the boundaries of the Pyramid Lake Indian Reservation).  
 T. 20 N., R. 23 E., sec. 5, 7, 17, 19 and 20.  
 T. 21 N., R. 23 E., sec. 28–32, inclusive.

The purpose of the withdrawal is to protect resource values in the open and mountainous terrain in the southern Washoe County urban, suburban and rural residential area. Washoe County has recently developed an Open Space System that identifies a large acreage of public lands as having open space values. Much of this acreage is identified in BLM's resource management plan for disposal for community expansion. The joint land use plan amendment will address future management of these lands and the need for a protective withdrawal.

The withdrawal application will be processed in accordance with the regulations set forth in 43 CFR Part 2300. Notice is hereby given that a public meeting in connection with the proposed withdrawal will be held at a later date. A notice of the time and place

will be published in the **Federal Register** 30 days before the scheduled date of the meeting.

The public is invited to participate in the identification of issues related to the management of public lands within the Washoe County Urban Interface Plan Area located generally in southern Washoe County. Anticipated issues for the plan amendment are:

- Identification of public lands to be retained as open space
- Identification of public lands available to state or local agencies for recreation and public purposes
- Identification of public lands available for exchange
- Identification of lands with potential for future acquisition
- Developments and facilities consistent with open space
- Public workshops for the plan amendment will be announced in mailings and local newspapers.

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal or plan amendment may present their views in writing to either the State Director or Field Office Manager.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the lands will be segregated as specified above unless the application is denied or cancelled or the withdrawal is approved prior to that date. Rights-of-way, leases, permits and other discretionary temporary land uses will be considered by the authorized officer during this segregative period.

Planning documents and other pertinent materials may be examined at the Bureau of Land Management office in Carson City, 5665 Morgan Mill Road, between 7:30 a.m. and 5:00 p.m. Monday through Friday.

Dated: June 30, 1998.

**William K. Stowers,**  
*Lands Team Lead.*

## DEPARTMENT OF THE INTERIOR

### Minerals Management Service

#### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice of revision of a currently approved information collection (OMB Control Number 1010–0058).

**SUMMARY:** As part of its continuing effort to reduce paperwork and respondent burden, MMS invites the public and other Federal agencies to comment on a proposal to extend and revise the currently approved collection of information discussed below. The Paperwork Reduction Act of 1995 (PRA) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number.

**DATE:** Submit written comments by September 8, 1998.

**ADDRESSES:** Mail or hand carry comments to the Department of the Interior; Minerals Management Service; attention: Rules Processing Team; Mail Stop 4024; 381 Elden Street; Herndon, Virginia 20170-4817.

**FOR FURTHER INFORMATION CONTACT:** Alexis London, Rules Processing Team, telephone (703) 787-1600. You may also contact Alexis London to obtain a copy of the collection of information at no cost.

**SUPPLEMENTARY INFORMATION:**

*Title:* 30 CFR 250, Subpart I, Platforms and Structures, (1010-0058).

*Abstract:* The Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1331 *et seq.*, gives the Secretary of the Interior (Secretary) the responsibility to preserve, protect, and develop oil and gas resources in the OCS in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resource development with protection of human, marine, and coastal environments; ensure the public a fair and equitable return on offshore resources in the OCS; and preserve and maintain free enterprise competition. Specifically, the OCS Lands Act (43 U.S.C. 1356) requires the issuance of " \* \* \* regulations which require that any vessel, rig, platform, or other vehicle or structure \* \* \* (2) which is used for activities pursuant to this subchapter, comply, \* \* \* with such minimum standards of design, construction, alteration, and repair as the Secretary \* \* \* establishes; \* \* \* " The OCS Lands Act (43 U.S.C. 1332(6)) also states, "operations in the outer Continental Shelf should be conducted in a safe manner \* \* \* to prevent or minimize the likelihood of \* \* \* physical obstruction to other users of the water or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health."

To carry out these responsibilities, the Minerals Management Service (MMS) has issued rules governing structural safety of platforms and structures used in the OCS and their subsequent abandonment and site clearance. These rules and the associated information collection requirements are contained in 30 CFR part 250, subpart I, Platforms and Structures. In addition, MMS issues Notices to Lessees and Operators (NTLs) that clarify, explain, or interpret regulations and standards.

The MMS OCS Regions use the information submitted under subpart I to determine the structural integrity of all offshore structures and ensure that such integrity will be maintained throughout the useful life of these structures. The MMS uses the information to ascertain, on a case-by-case basis, that the platforms and structures are structurally sound and safe for their intended use to ensure safety of personnel and pollution prevention. The information is also necessary to assure that abandonment and site clearance are properly performed. More specifically, MMS uses the information to:

- a. Review information concerning damage to a platform to assess the adequacy of proposed repairs.
- b. Review plans for platform construction (construction is divided into three phases—design, fabrication, and installation) to ensure the structural integrity of the platform.
- c. Review verification plans and reports for unique platforms to ensure that all nonstandard situations are given proper consideration during the design, fabrication, and installation phases of platform construction.
- d. Review platform design, fabrication, and installation records to ensure that the platform is constructed according to approved plans.
- e. Review inspection reports to ensure that platform integrity is maintained for the life of the platform.
- f. Ensure that any object (wellheads, platforms, etc.) installed on the OCS is properly removed and the site cleared so as not to conflict with or harm other users of the OCS.

The currently approved information collection for Subpart I includes the burden for a proposed rule to add a § 250.145, Seismic Reassessment of California OCS Platforms. After considering the comments received on the proposed rule, MMS has decided to take no further action this proposed rule. We will formally announce this decision in the next publication of the Unified Agenda.

The MMS will protect proprietary information submitted with the plans in

accordance with the Freedom of Information Act; 30 CFR 250.18, Data and information to be made available to the public; and 30 CFR Part 252, OCS Oil and Gas Information Program. No items of a sensitive nature are collected. Responses are mandatory.

*Estimated Number and Description of Respondents:* Approximately 130 Federal OCS sulphur or oil and gas lessees.

*Frequency:* The frequency of reporting is on occasion and varies by subpart I regulatory section.

*Estimated Annual Reporting and Recordkeeping Hour Burden:* 24,743 reporting burden hours; 7,150 recordkeeping burden hours. The estimated average annual burden per respondent is approximately 245 hours. This estimate: (a) reflects the elimination of the proposed burden for § 250.145, (b) updates the average number of annual responses, and (c) includes previously omitted burden estimates for current subpart I requirements.

*Estimated Annual Reporting and Recordkeeping Cost Burden:* In the previous request to OMB to approve this collection of information, we included a reporting cost burden associated with adding proposed § 250.145. The decision is take no further action on that proposed rule eliminates the estimated cost burden. We have identified no other information collection cost burdens for this collection of information.

*Comments:* The MMS will summarize written responses to this notice and address them in its submission for OMB approval. All comments will become a matter of public record. As a result of comments we receive and our consultations with a representative sample of respondents, we will make any necessary adjustments to the burden in our submission to OMB. In calculating the burden, MMS assumed that respondents perform many of the requirements and maintain records in the normal course of their activities. The MMS considers these to be usual and customary and took that into account in estimating the burden.

(1) The MMS specifically solicits comments on the following questions:

(a) Is the proposed collection of information necessary for MMS to properly perform its functions, and will it be useful?

(b) Are the estimates of the burden hours of the proposed collection reasonable?

(c) Do you have any suggestions that would enhance the quality, clarity, or usefulness of the information to be collected?

(d) Is there a way to minimize the information collection burden on respondents, including through the use of appropriate automated electronic, mechanical, or other forms of information technology?

(2) In addition, the PRA requires agencies to estimate the total annual reporting and recordkeeping cost burden to respondents or recordkeepers resulting from the collection of information. We need to know if you have any. Your response should split the cost estimate into two components: (a) total capital and startup cost component; and (b) annual operation, maintenance, and purchase of service components. Your estimates should consider the costs to generate, maintain, and disclose or provide the information. You should describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, drilling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

*MMS Information Collection Clearance Officer:* Jo Ann Lauterbach, (202) 208-7744.

Dated: June 29, 1998.

**William S. Cook,**

*Acting Chief, Engineering and Operations Division.*

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### Submission of Package to Office of Management and Budget; Review Opportunity for Public Comment

**AGENCY:** Department of the Interior, National Park Service; Special Park Uses.

**ACTION:** Notice and request for comments.

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 (Pub.

L. 104-14, 44 U.S.C. 3507) and 5 CFR, Part 1320, Reporting and Recordkeeping Requirements, the NPS invites public comments on: (1) The need for the information including whether the information has practical utility; (2) the accuracy of the reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

This notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget for review and comment. The ICR describes the nature of the information collection and its expected cost and burden. It includes the actual information collection instruments. Copies of the ICR may be obtained from the NPS by calling Chip Davis at 202-208-5760.

There were no public comments received as a result of publishing in the **Federal Register** a 60 day notice of intention to request clearance of information.

**DATES:** Public comments will be accepted on or before August 7, 1998.

**SEND COMMENTS TO:** Office of Information and Regulatory Affairs of OMB, Attention Desk Officer for the Interior Department, Office of Management and Budget, Washington, DC 20530; and also to Chip Davis, Department of the Interior, National Park Service, phone 202/208-5760.

The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days.

**FOR FURTHER INFORMATION CONTACT:** Chip Davis, Ranger Activities Division, National Park Service, 18th & C Streets, NW., Washington, DC 20240. Telephone 202/208-5760.

**SUPPLEMENTARY INFORMATION:** These information collections are associated with permits implementing provisions of agency regulations pertaining to the use of public lands (OMB control number 1024-0026). NPS form 10-114 (Special Use Permit) is the primary form used to apply for, consider, permit, and limit, uses of public lands. The uses considered under this information collection generally include those which make short term commercial use of park resources or which regulate activities not generally available to the public. Permitted activities include use of commercial vehicles in park areas

and grazing in parks where permitted by law.

*Title:* Special Park Uses.

*Estimated annual reporting burden:* 27,050.

*Estimated average burden hours per response:* 1 hour.

*Estimated average number of respondents:* 28,250.

**Diane M. Cooke,**

*Information Collection Clearance Officer, National Park Service.*

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### Notice of Meeting

**AGENCY:** Department of the Interior, National Park Service.

**ACTION:** Notice of meeting.

**SUMMARY:** Fourth public meeting of the Advisory Council to the Partnership of the Boston Harbor Islands National Recreation Area to be held July 7, 1998, 4:00 p.m.-6:00 p.m. in the Piemonte Room, 5th Floor, Boston City Hall.

#### FOR FURTHER INFORMATION CONTACT:

Mr. George Price, Project Manager, Boston Harbor Islands National Recreation Area, at 617-223-8666. Written comments can be addressed to George Price, Project Manager, Boston Harbor Islands National Recreation Area, 408 Atlantic Ave., Suite 228, Boston, MA 02110-3316.

#### SUPPLEMENTARY INFORMATION:

The agenda for the meeting includes: Chairman's report; approval of the minutes of the July 16 and June 4 meetings; reports by the Advisory Council representatives to the Boston Harbor Islands Partnership; report on the Partnership Management Plan; reports from the National Park Service and the Island Alliance; other committee reports; public comment; old business; new business; and future meeting dates.

Public garages are located next to Quincy Market, or at the Government Center Garage. Nearby MBTA stations are Government Center, Haymarket, and State Street. Street-level handicapped access to City Hall is located at the entrance on Congress Street.

The 28 Advisory Council members were appointed by the Director of the National Park Service and represent: business, educational, cultural, and environmental entities; municipalities surrounding the harbor; and Native American interests. The Advisory Council was formed to advise and make
