

the Preparation and Consumption Module estimate the increase or decrease in the numbers of SE organisms in eggs or egg products during storage, transportation, processing, and preparation. The Public Health Module then calculates the incidences of illness and four clinical outcomes (recovery without treatment, recovery after treatment by a physician, hospitalization, and mortality) and cases of reactive arthritis associated with consuming SE positive eggs.

The baseline model for shell eggs presented in the executive summary simulates an average production of 46.8 billion shell eggs per year, 2.3 million of them contaminated with SE. The model predicts that consumption of these eggs would result in a mean of 661,633 cases of human illnesses per year within a range of 126,374 to 1.7 million cases annually. It is estimated that about 94 percent of these cases recover without medical care, 5 percent consult a physician, 0.5 percent are hospitalized, and 0.05 percent of the cases result in death.

The risk assessment model can be continually refined and updated for use in future risk assessments for shell eggs and egg products. FSIS plans to use the risk assessment data to conduct cost-effectiveness studies and cost-benefit analyses.

Done, at Washington, DC, on July 5, 1998.

Notice of Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Foreign Agricultural Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this

notice announces the Foreign Agricultural Service's (FAS) intention to request an extension for and revision to a currently approved information collection in support of the FAS/Cooperator Market Development Program based on re-estimates.

DATES: Comments on this notice must be received by September 11, 1998 to be assured of consideration.

ADDITIONAL INFORMATION OR COMMENTS:

Contact Kent D. Sisson, Director, Marketing Operations Staff, Foreign Agricultural Service, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Washington, DC 20250-1042, (202) 720-4327.

SUPPLEMENTARY INFORMATION:

Title: FAS/Cooperator Market Development Program.

OMB Number: 0551-0026.

Expiration Date of Approval: December 31, 1998.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: The primary objective of the Foreign Market Development Program is to develop, maintain and expand long-term export markets for U.S. agricultural products. Created over 40 years ago, the program is a cooperative effort between FAS and non-profit agricultural trade organizations (called "Cooperators"). The FAS currently provides cost share assistance for market development to approximately 30 Cooperators working in more than 100 countries.

Prior to initiating program activities, each Cooperator must submit a detailed application to FAS which includes an assessment of overseas market potential; marketing strategy, goals and market development activities; estimated budgets; and performance measurements. Prior years' plans often dictate the content of current year plans because many activities are continuations of previous activities. Each Cooperator is also responsible for submitting: (1) reimbursement claims for eligible costs incurred, (2) an end-of-year contribution report, (3) travel reports, and (4) progress reports/evaluation studies. Cooperators must maintain records on all information submitted to FAS. The information collection is used by FAS to manage, plan, evaluate and account for Government resources. The reports and records are required to ensure the proper and judicious use of public funds.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 20 hours per response.

Respondents: Non-profit trade organizations.

Estimated Number of Respondents: 30.

Estimated Number of Responses per Respondent: 73.

Estimated Total Annual Burden on Respondents: 43,800 hours.

Copies of this information collection can be obtained from Valerie Countiss, the Agency Information Collection Coordinator, at (202) 720-6713.

Requests for Comments: Send comments regarding the accuracy of the burden estimate, ways to minimize the burden, including through the use of automated collection techniques or other forms of information technology, or any other aspect of this collection of information, to: Kent D. Sisson, Director, Marketing Operations Staff, U.S. Department of Agriculture, 1400 Independence Ave., SW., STOP 1042, Washington, DC 20250-1042. Facsimile submissions may be sent to 202-720-9361 and electronic mail submissions should be addressed to mosadmin@fas.usda.gov.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Signed at Washington, D.C. June 29, 1998.

Timothy J. Galvin,

Acting Administrator, Foreign Agricultural Service and Vice President, Commodity Credit Corporation.
