479-000, all as more fully set forth in the request on file with the Commission and open to public inspection.

Williams Gas proposes to abandon by reclaim a positive meter setting (used for peaking) and an orifice meter setting and appurtenant facilities serving the Iola power plant and replace them with a multiple run meter settings and appurtenant facilities at the same location in Section 27, Township 24 South, Range 18 East, Allen County, Kansas. The power plant has installed new power generation equipment which requires that Williams replace the existing meters with meters capable of handling the increased volume.

Williams states that the cost to replace the two settings is estimated to be approximately \$152,455 and the cost to reclaim the old facilities would be approximately \$1,500. Williams reports that the exchange is not prohibited by an existing tariff and that it has sufficient capacity to accomplish the deliveries specified without detriment or disadvantage to its other customers.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the NGA (18 CFR 157.205) a protest to the request.
