

Harris, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980)). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapter of the draft EIS. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the draft EIS. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR Part 215 or 217. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality; and, where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within 10 days.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 37-98]

Foreign-Trade Zone 202, Los Angeles, CA; Proposed Foreign-Trade Subzone, Tosco Refining Company (Oil Refinery Complex); Los Angeles, CA Area

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Los Angeles Board of Harbor Commissioners, grantee of FTZ 202, requesting special-purpose subzone status for the oil refinery complex of Tosco Refining Company, located in the Los Angeles, California, area. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on July 8, 1998.

The refinery complex (727 acres) is located at 4 sites in the Los Angeles, area (Los Angeles County), California: *Site 1* (118,750 BPD capacity, 425 acres)—main refinery complex, located at 1660 West Anaheim Street, some 25 miles south of downtown Los Angeles; *Site 2* (96 tanks, 3.3 mil. barrel capacity, 235 acres)—storage facility used for crude oil and intermediate feedstocks, located at 1520 East Sepulveda Blvd., 5 miles northeast of the refinery; *Site 3* (26 tanks, 840,000 barrel capacity, 17 acres)—located within FTZ 202, *Site 1*, Los Angeles Harbor Marine Terminal at Berths 148, 149, 150, 151, 1 mile southeast of the refinery; *Site 4* (24 tanks, 2.1 million barrel capacity, 50 acres)—Torrance Tank Farm used for crude oil and finished product storage, located at 2650 West Lomita Blvd., approx. 4 miles northwest of the refinery.

The refinery (575 employees) is used to produce fuels and petrochemical feedstocks. Fuel products include gasoline, jet fuel, distillates, residual fuels, naphthas and motor fuel blendstocks. Petrochemical feedstocks and refinery by-products include methane, ethane, propane, propylene, butane, petroleum coke and sulfur. Some 10 percent of the crude oil (92 percent of inputs) and some motor fuel blendstocks are sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the Customs duty rates that apply to certain petrochemical feedstocks and refinery by-products (duty-free) by admitting incoming foreign crude oil and natural gas condensate in non-privileged foreign status. The duty rates on inputs range from 5.25¢/barrel to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is September 14, 1998.

Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to September 29, 1998.

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

U.S. Department of Commerce, Export Assistance Center, 11000 Wilshire Blvd., Room 9200, Los Angeles, California 90024

Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th & Pennsylvania Avenue, NW, Washington, DC 20230.
