

1. Any foreign steel mill products admitted to the subzone, including plate, angles, shapes, channels, rolled steel stock, bars, pipes and tubes, not incorporated into merchandise otherwise classified, and which is used in manufacturing, shall be subject to Customs duties in accordance with applicable law, unless the Executive Secretary determines that the same item is not then being produced by a domestic steel mill; and,

2. In addition to the annual report, Bollinger Shipyards, Inc., shall advise the Board's Executive Secretary (§ 400.28(a)(3)) as to significant new contracts with appropriate information concerning foreign purchases otherwise dutiable, so that the Board may consider whether any foreign dutiable items are being imported for manufacturing in the subzone primarily because of subzone status and whether the Board should consider requiring Customs duties to be paid on such items.

Richard W. Moreland,

Acting Assistant Secretary of Commerce for Import Administration, Alternate Chairman, Foreign-Trade Zones Board.

SUPPLEMENTARY INFORMATION:

Background

On June 16, 1998, the Department published the final results of administrative review of the antidumping duty order on circular welded non-alloy steel pipe from Korea covering the period November 1, 1995, through October 31, 1996 (see, Circular Welded Non-Alloy Steel Pipe from Korea; Final Results of Antidumping Duty Administrative Review, 63 FR 32833 ("Final Results")). Department's Position: We agree with Hyundai and have altered the concordance program such that the appropriate date of sale, as discussed in our Final Results, is used in both the margin and concordance programs.

Allegation 2: Respondents allege that in the concordance program the Department inadvertently applied its general and administrative expenses (G&A) and interest expense adjustment factor on a compounding basis for each
