BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 70

[FRL-6129-1]

RIN 2060-AF70

Extension of Operating Permits Program Interim Approval Expiration Dates

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This action proposes to amend Appendix A of the operating permits regulations codified in part 70 of chapter I of title 40 of the Code of Federal Regulations. Those regulations were originally promulgated on July 21, 1992. These amendments to Appendix A would extend up to June 1, 2000 all operating permits program interim approvals. This action would allow the program revisions necessary to correct interim approval deficiencies to be combined with program revisions necessary to implement the revisions to part 70 that are anticipated to be promulgated in December 1999.

DATES: Comments. Comments must be received on or before August 26, 1998. For those programs whose interim approval dates would be amended by this action, interim approval would expire on June 1, 2000.

ADDRESSES: Comments. Comments should be submitted (in duplicate, if possible) to: Air and Radiation Docket and Information Center (6102), Attention Docket Number A-93-50 (see docket section below), U.S. Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460. The EPA requests that a separate copy also be sent to the contact person listed below.

Docket. Supporting material used in developing the proposal and final regulatory revisions is contained in Docket Number A-93-50. This docket is available for public inspection and

copying between 8:30 a.m. and 5:30 p.m., Monday through Friday, at the address listed above, or by calling (202) 260-7548. The Docket is located at the above address in Room M-1500, Waterside Mall (ground floor). A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Roger Powell, Mail Drop 12, United States Environmental Protection Agency, Office of Air Quality Planning and Standards, Information Transfer and Program Integration Division, Research Triangle Park, North Carolina 27711 (telephone 919-541-5331, e-mail: powell.roger@epa.gov).

SUPPLEMENTARY INFORMATION: If no relevant, adverse comments are timely received, no further activity is contemplated in relation to this proposal, and the direct final rule in the final rules section of this **Federal Register** will automatically go into effect on the date specified in that final rulemaking. Public comment received will be addressed in a subsequent final rule based on this proposal. Because EPA will not institute a second comment period on this proposal, any parties interested in commenting should do so during this comment period.

For further supplemental information, the detailed rationale, and the rule provisions, see the information provided in the direct final rule in the final rules section of this **Federal Register**.

Administrative Requirements

A. Docket

The docket for this proposed action is A-93-50. The docket is an organized and complete file of all the information submitted to, or otherwise considered by, EPA in the development of this proposed rulemaking. The principal purposes of the docket are: (1) to allow interested parties a means to identify and locate documents so that the parties can effectively participate in the rulemaking process, and (2) to serve as the record in case of judicial review (except for interagency review materials). The docket is available for public inspection at EPA's Air Docket, which is listed under the **ADDRESSES** section of this notice.

B. Executive Order (E.O.) 12866

Under E.O. 12866 (58 FR 51735, October 4, 1993), the Agency must determine whether each regulatory action is "significant," and therefore subject to the Office of Management and Budget (OMB) review and the requirements of the Order. The Order defines "significant" regulatory action

as one that is likely to lead to a rule that may:

1. Have an annual effect on the economy of \$100 million or more, adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities.

2. Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency.

3. Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligation of recipients thereof.

4. Raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in E.O. 12866.

Pursuant to the terms of E.O. 12866, it has been determined that this proposed action is not a "significant" regulatory action because it would not substantially change the existing part 70 requirements for States or sources; requirements which have already undergone OMB review. Rather than impose any new requirements, this action would only extend an existing mechanism. As such, this action is exempted from OMB review.

C. Regulatory Flexibility Act Compliance

Pursuant to section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 605(b), the Administrator certifies that this proposed action would not have a significant economic impact on a substantial number of small entities. In developing the original part 70 regulations, the Agency determined that they would not have a significant economic impact on a substantial number of small entities. Similarly, the same conclusion was reached in an initial regulatory flexibility analysis performed in support of the proposed part 70 revisions. This action would not substantially alter the part 70 regulations as they pertain to small entities and accordingly would not have a significant economic impact on a substantial number of small entities.

D. Paperwork Reduction Act

The OMB has approved the information collection requirements contained in part 70 under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et. seq.* and has assigned OMB control number 2060-0243. The Information Collection Request (ICR) prepared for part 70 would not be affected by the action in this proposed rulemaking action because the part 70 ICR determined burden on a nationwide basis, assuming

all part 70 sources were included without regard to the approval status of individual programs. The action in this proposed rulemaking action, which would simply provide for an extension of the interim approval of certain programs, would not alter the assumptions of the approved part 70 ICR used in determining the burden estimate. Furthermore, this proposed action would not impose any additional requirements which would add to the information collection requirements for sources or permitting authorities.

E. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), P.L. 104-4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. Under section 202 of the UMRA, EPA generally must prepare a written statement, including a cost-benefit analysis, for proposed and final rules with Federal mandates that may result in expenditures to State, local, and tribal governments, in the aggregate, or to the private sector, of \$100 million or more in any 1 year.

The EPA has determined that the action in this proposed rulemaking notice would not contain a Federal mandate that may result in expenditures of \$100 million or more for State, local, and tribal governments, in the aggregate, or the private sector, in any 1 year. Although the part 70 regulations governing State operating permit programs impose significant Federal mandates, this proposed action would not amend the part 70 regulations in a way that would significantly alter the expenditures resulting from these mandates. Therefore, the Agency concludes that it is not required by section 202 of the UMRA of 1995 to provide a written statement to accompany this proposed regulatory action.

F. Applicability of Executive Order 13045

Executive Order 13045 applies to any rule that EPA determines (1) "economically significant" as defined under Executive Order 12866, and (2) the environmental health or safety risk addressed by the rule has a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This proposed rule is not subject to E.O. 13045, entitled "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997), because it is not an economically significant regulatory action as defined by Executive Order 12866, and it does not address an environmental health or safety risk that would have a disproportionate effect on children.

Dated: July 17, 1998.

Carol M. Browner,

Administrator.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 70

[FRL-6128-9]

RIN 2060-AF70

Extension of Operating Permits Program Interim Approval Expiration Dates

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: This action amends Appendix A of the operating permits regulations codified in part 70 of chapter I of title 40 of the Code of Federal Regulations. Those regulations were originally promulgated on July 21, 1992. These amendments to Appendix A extend up to June 1, 2000 all operating permits program interim approvals. This action will allow the program revisions necessary to correct interim approval deficiencies to be combined with program revisions necessary to implement the revisions to part 70 that are anticipated to be promulgated in December 1999.

DATES: The direct final revisions to Appendix A will become effective on September 10, 1998. The direct final revisions will become effective without further notice unless EPA receives relevant adverse comments on or before August 26, 1998. Should the Agency receive such comments, it will publish a timely withdrawal and will inform the public that this rule will not take effect. For those programs whose interim approval dates are amended by this action, interim approval will expire on June 1, 2000.

ADDRESSES: Comments. Comments should be submitted (in duplicate, if possible) to: Air and Radiation Docket and Information Center (6102),

Attention Docket Number A-93-50 (see docket section below), U.S. Environmental Protection Agency, 401 M Street, SW, Washington, DC 20460. The EPA requests that a separate copy also be sent to the contact person listed below.

Docket. Supporting material used in developing the proposal and final regulatory revisions is contained in Docket Number A-93-50. This docket is available for public inspection and copying between 8:30 a.m. and 5:30 p.m., Monday through Friday, at the address listed above, or by calling (202) 260-7548. The Docket is located at the above address in Room M-1500, Waterside Mall (ground floor). A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Roger Powell, Mail Drop 12, United States Environmental Protection Agency, Office of Air Quality Planning and Standards, Information Transfer and Program Integration Division, Research Triangle Park, North Carolina 27711 (telephone 919-541-5331, e-mail: powell.roger@epa.gov).

SUPPLEMENTARY INFORMATION: A companion proposal to this direct final rule is being published in today's **Federal Register**. If relevant adverse comments are timely received by the date specified in this rule, EPA will publish a document informing the public that this rule will not take effect and the comments will be addressed in a subsequent final rule based on the proposed rule. If no relevant adverse comments on this direct final rule are timely filed, then the direct final rule will become effective on September 10, 1998, and no further action will be taken on the companion proposal published today.

I. Background

On August 29, 1994 (59 FR 44460) and August 31, 1995 (60 FR 45530), EPA proposed revisions to the part 70 operating permits regulations. Primarily, the proposals addressed changes to the system for revising permits. A number of other less detailed proposed changes were also included. Altogether, State and local permitting authorities will have a complex package of program revisions to prepare in response to these changes once promulgated. The part 70 revisions are anticipated to take place in December 1999.

Contemporaneous with permitting authorities revising their programs to meet the revised part 70, many programs have been granted interim approval which will require permitting authorities to prepare program revisions
