SUPPLEMENTARY INFORMATION:

I. Abstract

This submission under the Paperwork Reduction Act represents a request for a new collection by NIST. The NIST WebMetrics Tool Suite contains rapid, remote, and automated tools to help in producing usable web sites. The NIST WebMetrics Tool Suite consists of three tools: the Static Analyzer Tool (WebSAT), the Category Analysis Tool (WebCAT), and the Visual Instrumenter Tool (WebVIP).

WebSAT checks the Hypertext Markup Language (HTML) of a web page against numerous usability guidelines. The output from WebSAT consists of identification of potential usability problems which should be investigated further through user testing.

WebCAT lets the usability engineer quickly construct and conduct a simple category analysis across the web.

WebVIP lets the usability engineer rapidly instrument a web site for local or remote testing by employing visual instrumenting as well as automated techniques.

Users of the NIST WebMetrics tools may provide NIST with comments on

the tools through the use of the automated feedback forms, "Feedback Forms for NIST WebMetrics", which are accessible from the NIST WebMetrics web site. The feedback forms allow users to comment on any problems they had with using the tools, the helpfulness of the tools, and suggestions for the functionality of the tools. Users are not obligated to provide comments in order to access and use the tools. Comments are strictly voluntary.

II. Method of Collection

Applicants will submit information to NIST via the NIST WebMetrics web site.

BILLING CODE 3510-13-P

National Oceanic and Atmospheric Administration

Coastal Zone Management: Federal Consistency Appeal by Rick Bellew From an Objection by the State of Alabama

AGENCY: National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of appeal and request for comments.

By letter dated November 17, 1997, Mr. Rick Bellew (Appellant), filed with the Secretary of Commerce (Secretary) a notice of appeal pursuant to section 307(c)(3)(A) of the Coastal Zone Management Act of 1972 (CZMA), as amended, 16 U.S.C. 1451 *et seq.*, and the Department of Commerce's implementing regulations, 15 C.F.R. Part 930, Subpart H. The appeal is taken from an objection by the State of Alabama (State) to the Appellant's consistency certification for a permit to dredge a ten-foot wide by 420-foot long channel to a three-foot depth. According to a survey submitted by Appellant, approximately 185 linear feet of the proposed channel is vegetated by shoalgrass.

The CZMA provides that a timely objection by a state precludes any federal agency from issuing licenses or permits for the activity unless the Secretary finds that the activity is either "consistent with the objectives" of the CZMA (Ground I) or "necessary in the interest of national security" (Ground II). Section 307(c)(3)(A). To make such a determination, the Secretary must find that the proposed project satisfies the requirements of 15 CFR 930.121 or 930.122.

The Appellant requests that the Secretary override the State's consistency objections based on Ground I. To make the determination that the proposed activity is "consistent with the objectives" of the CZMA, the Secretary must find that: (1) the proposed activity furthers one or more of the national objectives or purposes contained in §§ 302 or 303 of the CZMA, (2) the adverse effects of the proposed activity do not outweigh its contribution to the national interest, (3) the proposed activity will not violate the Clean Air Act or the Federal Water Pollution Control Act, and (4) no reasonable alternative is available that would permit the activity to be conducted in a manner consistent with the State's coastal management program. 15 CFR 930.121.

Public comments are invited on the findings that the Secretary must make as set forth in the regulations at 15 CFR 930.121. Comments are due within 30 days of the publication of this notice and should be sent to Ms. Pamela Lawrence, Attorney-Adviser, Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910. Copies of comments will also be forwarded to the Appellant and the State.

All nonconfidential documents submitted in this appeal are available for public inspection during business hours at the offices of the State and the Office of the Assistant General Counsel for Ocean Services.
