DEPARTMENT OF JUSTICE

Office of Justice Programs

Agency Information Collection Activities: Proposed Collection; Comment Request.

ACTION: Notice of information collection; revision of a currently approved collection; Arrestee Drug Abuse Monitoring (ADAM, formerly Drug Use Forecasting) program.

The Department of Justice, Office of Justice Programs, has submitted the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995. The information collection was previously published in the **Federal Register** on June 2, 1998 at 63 FR 30020-30021, allowing for a 60-

day public comment period. No comments were received by the Office of Justice Programs on this proposed revision of a currently approved collection.

The purpose of this notice is to allow an additional 30 days for public comments. Comments are encouraged and will be accepted until September 3, 1998. This process is conducted in accordance with 5 CFR 1320.10.

Written comments and/or suggestions regarding the items contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention: Dan Chenok, Department of Justice Desk Officer, Room 10235, Washington, DC 20530-395-7316.

Written comments and suggestions from the public and affected agencies concerning the collection of information should address one or more of the following four points:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have any practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:
(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

Title of the Form/Collection: Arrestee Drug Abuse Monitoring (ADAM, formerly Drug Use Forecasting) Program.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* No agency form number. Office Research and Evaluation, National Institute of Justice, Office of Justice Programs.

(4) *Affected public who will be asked to respond, as well as a brief abstract:* Misdemeanor and felony arrestees in city and county jails and detainees in

juvenile detention facilities. The ADAM program monitors the extent and types of drug use among arrestees. By the end of 1998 the program will operate in 35 cities. An additional 15 sites are proposed for 1999, to bring the total to 50 cities, and 25 additional cities in the year 2000, to bring the total number of data collection sites to 75. Data are collected in each site every three months from a new sample of arrestees. Participation is voluntary and anonymous and data collected includes a personal interview and urine specimen.

(5) *An estimate of the total number of respondents and amount of time estimated for an average respondent to respond:* Following is the maximum number of responses expected for the main ADAM questionnaire in Fiscal Years 1999 and 2000. The estimate here is revised from the estimate provided in the previously published 60-day notice which did not specify the relevant data collection period. The estimate assumes that 50 sites are in operation all quarters of FY 1999 and 75 sites are in operation all quarters of FY 2000. In FY 1999, 50,000 adult male arrestees, 20,000 adult female arrestees, 20,000 juvenile male detainees, and 10,000 juvenile female detainees will be interviewed (total=100,000 at 30 minutes a response). In FY 2000, 75,000 adult male arrestees, 30,000 adult female arrestees, 30,000 juvenile male detainees, and 15,000 juvenile female detainees will be interviewed. (total=150,000 at 30 minutes a response). Additionally, "addendum" questionnaires will be administered to the same respondents at some number of sites for some number of quarters over the year. The estimate provided here is the maximum number of responses that will be obtained: it is assumed that all sites will field one addendum questionnaire in 3 out of the 4 quarters of the year. In FY 1999, the maximum number of addendum questionnaires administered across all respondent types will be 75,000 at 10 minutes per response; and in FY 2000 the maximum number of addendum questionnaires administered will be 112,500 at 10 minutes a response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 62,500 hours in FY 1999 and 93,750 hours in FY 2000.

If you have additional comments, suggestions, or need a copy of the proposed information collection instrument with instructions, or additional information, please contact Dr. K. Jack Riley 202-616-9030, Director, Arrestee Drug Abuse
