

Terminal Instrument Approach procedures (TERPS). In developing these SIAPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs and safety in air commerce, I find that notice and public procedure before adopting these SIAPs are impracticable and contrary to the public interest and, where applicable, that good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Revisions to the Export Administration Regulations; Conforming Revisions to the Wassenaar Arrangement List of Dual-Use Items and Revisions to Antiterrorism Controls

AGENCY: Bureau of Export Administration, Commerce.

ACTION: Interim rule with request for comments.

SUMMARY: On January 15, 1998, the Bureau of Export Administration published an interim rule implementing the Wassenaar Arrangement List of Dual-Use Items. Implementation of the Wassenaar List resulted in a number of changes to the Commerce Control List (CCL). The major changes involved the removal of national security controls on certain items, while maintaining controls on these items for antiterrorism reasons. Consistent with this revision, various antiterrorism Export Control Classification Numbers (ECCNs) were enlarged to accommodate the items removed from national security controls. An easy-to-follow pattern was developed to track the movement of these items. Items formerly classified as a XX001 entry, now default into a xx991 entry. In addition, the January 15 rule moved items from one ECCN into another, or merged two or more ECCNs together. This was done to simplify the CCL and place together items that fall within the same general category. For example, ECCN 9A992 (off-highway tractors) was merged with ECCN 9A993 (on-highway tractors) to form part of a new ECCN 9A990 that also includes diesel engines.

This rule amends the Export Administration Regulations (EAR) by making the necessary conforming revisions throughout the text of the EAR, consistent with the January 15 revisions to the CCL.

DATES: Effective Date: This rule is effective August 7, 1998.
COMMENT DATE: Comments on this rule must be received on or before September 8, 1998.
ADDRESSES: Written comments should be sent to Patricia Muldonian, Regulatory Policy Division, Bureau of Export Administration, Department of Commerce, P.O. Box 273, Washington, DC 20044.

SUPPLEMENTARY INFORMATION:

Background

On January 15, 1998, the Bureau of Export Administration (BXA) published an interim rule (63 FR 2452) that made changes to the Commerce Control List (CCL) necessary to implement the Wassenaar Arrangement. All items removed from national security controls

as a result of the Wassenaar List of Dual-Use Goods and Technologies continue to be controlled for antiterrorism reasons. Consistent with this revision, various antiterrorism Export Control Classification Numbers (ECCNs) were enlarged to accommodate the items removed from national security controls. In addition, in an effort to simplify and harmonize the antiterrorism controls on the CCL, the January 15 rule made the following renumbering revisions:

Old ECCN	New ECCN	Description of old ECCN
1A988	1A005	Bullet proof and bullet resistant vests.
1C993	1C990	Fibrous and filamentary material not controlled by 1C010 or 1C210, for use in "composite" structures and with a specific modulus of 3.18×10^6 m or greater and a specific tensile strength of 7.62×10^4 m or greater.
1C994	1C006.d	Fluorocarbon electronic cooling fluids.
1E391	1E351	Technology for the disposal of chemicals or microbiological materials controlled by 1C350, 1C351, 1C352, 1C353, or 1C354.
2B985	0B986	Equipment specially designed for manufacturing shotgun shells.
2B992	2B996	Manual dimensional inspection machines with two or more axes, and measurement uncertainty equal to or less (better) than $(3 + L/300)$ micrometer in any axes (L measured in length in mm).
2B994	2B997	Robots not controlled by 2B007 or 2B207.

Although the Export Administration Act (EAA) expired on August 20, 1994, the President invoked the International Emergency Economic Powers Act and continued in effect the EAR, and, to the extent permitted by law, the provisions of the EAA in Executive Order 12924 of August 19, 1994, as extended by the President's notices of August 15, 1995 (60 FR 42767), August 14, 1996 (61 FR 42527) and August 13, 1997 (62 FR 43629).

Rulemaking Requirements

1. This interim rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act (PRA), unless that collection of information displays a currently valid OMB Control Number. This rule involves a collection of information subject to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) This collection has been approved by the Office of Management and Budget under control number 0694-0088. Send comments regarding these burden estimates or any other aspect of these collections of information, including suggestions for reducing the burden, to OMB Desk Officer, New Executive Office Building, Washington, DC 20503.

3. This rule does not contain policies with Federalism implications sufficient to warrant preparation of a Federalism assessment under Executive Order 12612.

4. The provisions of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, the opportunity for public participation, and a delay in effective date, are inapplicable because this regulation involves a military and foreign affairs function of the United States (Sec. 5 U.S.C. 553(a)(1)). Further, no other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this interim rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule under 5 U.S.C. or by any other law, the analytical requirements of the

Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

However, because of the importance of the issues raised by these regulations, this rule is issued in interim form and comments will be considered in the development of final regulations. Accordingly, the Department encourages interested persons who wish to comment to do so at the earliest possible time to permit the fullest consideration of their views.

The period for submission of comments will close September 8, 1998. The Department will consider all comments received before the close of the comment period in developing final regulations. Comments received after the end of the comment period will be considered if possible, but their consideration cannot be assured. The Department will not accept public comments accompanied by a request that a part or all of the material be treated confidentially because of its business proprietary nature or for any other reason. The Department will return such comments and materials to the person submitting the comments and will not consider them in the development of final regulations. All public comments on these regulations will be a matter of public record and will be available for public inspection and copying. In the interest of accuracy and completeness, the Department requires comments in written form.

Oral comments must be followed by written memoranda, which will also be a matter of public record and will be available for public review and copying. Communications from agencies of the United States Government or foreign governments will not be made available for public inspection.

The public record concerning these regulations will be maintained in the Bureau of Export Administration Freedom of Information Records Inspection Facility, Room 4525, Department of Commerce, 14th Street and Pennsylvania Avenue, N.W., Washington, D.C. 20230. Records in this facility, including written public comments and memoranda summarizing the substance of oral communications, may be inspected and copied in accordance with regulations published in Part 4 of Title 15 of the Code of Federal Regulations. Information about the inspection and copying of records at the facility may be obtained from Margaret Cornejo, Bureau

of Export Administration Freedom of Information Officer, at the above address or by calling (202) 482-5653.

Year 2000 Readiness Reports To Be Made by Certain Transfer Agents Correction

AGENCY: Securities and Exchange Commission.

ACTION: Correction to final regulation.

SUMMARY: This document contains a correction to final regulation (Rule 17Ad-18), which was published Monday, July 13, 1998 (63 FR 37688). Rule 17Ad-18 requires certain transfer agents to file with the Commission two reports regarding their Year 2000 preparations.

EFFECTIVE DATE: The correction becomes effective August 7, 1998.

FOR FURTHER INFORMATION CONTACT: Jeffrey Mooney, Special Counsel, 202/942-4174, Division of Market Regulation, Securities and Exchange Commission, 450 Fifth Street, NW, Mail Stop 10-1, Washington, DC 20549.

SUPPLEMENTARY INFORMATION:

Background

New Rule 17Ad-18 requires certain transfer agents to file two reports regarding their Year 2000 preparations with the Commission on new Form TA-Y2K. The reports will increase transfer agent awareness of the specific steps they should be taking to prepare for the Year 2000; help coordinate industry testing and contingency planning; supplement the Commission's examination module for Year 2000 issues and identify potential Year 2000 compliance problems; and provide information regarding the securities industry's preparedness for the Year 2000.

Need for Correction

As published, Rule 17Ad-18 contains an error that may prove to be misleading and that needs to be corrected.

Correction of Publication

Accordingly, the publication on July 13, 1998, of Rule 17Ad-18, which was the subject of FR Doc. 98-18296, is corrected as follows:

Appendix A—(Corrected)

Appendix A. On page 37697, the first sentence of the first paragraph under the heading Part II is corrected by inserting the word "not" between the words "are" and "eligible."

Dated: August 3, 1998.

Jonathan G. Katz,
Secretary.

Medical Devices; Reports of Corrections and Removals

AGENCY: Food and Drug Administration, HHS.

ACTION: Direct final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations that govern reports of corrections and removals of medical devices to eliminate the requirement for distributors to make such reports. The amendments are being made to implement provisions of the Federal Food, Drug, and Cosmetic Act (the act),
