II. Background

In the **Federal Register** of May 13, 1998 (63 FR 26591) (FRL-5786-8), EPA issued for comment a notice announcing the availability of a draft, updated policy for the prioritization and expedited review of applications for significant OP alternative new active ingredients and new uses for conventional, primarily agricultural pesticides. This **Federal Register** notice announces the availability of the final Pesticide Registration (PR). The PR Notice changes how reduced-risk candidates will be treated in the priority system. Specifically, the PR Notice amends EPA's current priority scheme by making OP alternatives that pass the reduced-risk screen the second highest priority (#2) behind methyl bromide alternatives (#1). Also, any submission that is determined to be a significant OP alternative, which is not granted reduced-risk status, but is recommended by the Reduced-Risk Committee for expedited review, may become an Agency priority as well. Furthermore, any submission that passes the reduced-risk screen may become an Agency priority. An Agency priority does not count against a company's limit of five priorities.

Public comments submitted concerning the draft PR Notice and the issues listed in the previous FR Notice of Availability were fully considered before the PR Notice was made final.

ACTION: Notice of availability.

SUMMARY: The Environmental Protection Agency (EPA) is announcing the availability of a hard copy summary report on the Sector Facility Indexing Project (SFIP). The industrial sectors profiled within the SFIP are automobile assembly; petroleum refining; pulp manufacturing; iron and steel; and primary smelting and refining of aluminum, copper, lead, and zinc (nonferrous metals). The summary report is a publication that provides aggregated, pre-formatted information. On May 1, 1998, the EPA released the Internet website containing the SFIP data. (See 63 FR 27281, May 18, 1998). The SFIP website is designed as an interactive tool that allows users to customize the information and delve into greater detail to look at information that is too voluminous to include in the hard copy summary report.

DATES: The hard copy summary report is currently available to the public. As previously announced, the Internet SFIP website was released on May 1, 1998.

SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0767.

Title: Auction Forms and License Transfer Disclosures—Supplement for the Second R & O, Order on Reconsideration, and Fifth NPRM in CC Docket No. 92-297.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities; State, Local or Tribal Government.

Number of Respondents: 44,000 (180,000 annual responses).

Estimated Time Per Response: 0.5-4.0 hours.

Frequency of Response: Recordkeeping; On occasion reporting requirements.

Total Annual Burden: 773,000 hours.

Cost to Respondents: \$47,452,000.

Needs and Uses: The auction rules, among other things, require small business applicants to submit ownership information and gross revenue calculations, and all applicants to submit terms of joint bidding agreements (if any). Furthermore, in case a licensee defaults or loses its license, the Commission retains the discretion to reaucton such licenses. If licenses are reauctoned, the new license winner would be required at the close of the reauction, to comply with the same disclosure requirements. Finally, licensees who transfer licenses within three years will be required to maintain certain information to ensure compliance with Commission rules.

Specifically: (1) Small business license winners (and their successors in interest as licensees) will be required to maintain a file over the license term containing ownership and gross revenues information, necessary to determine their business eligibility as a small business and (2) licensees who transfer licenses within three years are required to maintain a file of all documents and contracts pertaining to the transfer. Applicants that do not obtain the license(s) for which they applied shall maintain such files until the grant of such license(s) is final, or one year from the date of the filing of their short-form, application (FCC Form 175), whichever is earlier.

The Commission also adopted rules to determine the amount of unjust enrichment payments to be assessed upon assignment, transfer, partitioning and disaggregation of licenses. This

rule, applicable to all current and future licensees, is based upon the unjust enrichment of rule currently applicable to broadband PCS licensees.

Additionally, the Commission amended its general anticollusion rules, permitting the holder of a non-controlling attributable interest in an applicant to obtain an ownership interest in or enter into a consortium arrangement with another applicant for a license in the same geographic area provided that the original applicant has withdrawn from the auction, is no longer placing bids, and has no further eligibility. To meet the requirements of the exception, the attributable interest holder will be required to certify to the Commission that it did not communicate with the new applicant prior to the date the original applicant withdrew from the auction, and that it will not convey bidding information, or otherwise serve as a nexus between the previous and the new applicant.

Federal Communications Commission.

Deputy Secretary.
