SUPPLEMENTARY INFORMATION:

Background.

On March 15, 1977, the Department of the Treasury issued a countervailing duty order on imports of cotton yarn from Brazil (42 FR 14089). There was no Commission determination of material injury by reason of subsidized imports prior to issuance of the order because imports from Brazil were not eligible for an injury test unless they were duty free. However, pursuant to section 104 of the Trade Agreements Act of 1979, the Commission made a determination in May 1984 that the domestic industry producing 100 percent cotton carded yarn would be materially injured by reason of subsidized imports of such yarn from Brazil if the portion of the countervailing duty order covering such imports were to be revoked, but that domestic producers of 100 percent cotton combed yarn, blended combed yarn, and blended carded yarn would not be materially injured or threatened with material injury by reason of subsidized imports from Brazil if the part of the order covering such imports were to be revoked. In light of the Commission's 1984 determination, the countervailing duty order was revoked except as it pertained to 100 percent cotton carded yarn. The Commission is now conducting a review to determine whether revocation of the portion of the order that remains effective would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time.

Definitions.—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is Brazil.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. In its 1984 determination, the Commission defined the Domestic Like Product on which it made an affirmative determination as 100 percent cotton carded yarn.

(4) The *Domestic Industry* is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. In its 1984 determination, the Commission defined the pertinent Domestic Industry as producers of 100 percent cotton carded yarn.

(5) The *Order Date* is the date that the countervailing duty order under review became effective. In this review, the Order Date is March 15, 1977.

(6) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the review and public service list.—Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. § 1677(9), who are parties to the review. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification.—Pursuant to section 207.3 of the Commission's rules, any

person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

Written submissions.—Pursuant to section 207.61 of the Commission's rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is October 21, 1998. Pursuant to section 207.62(b) of the Commission's rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning whether the Commission should conduct an expedited review. The deadline for filing such comments is November 13, 1998. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission's rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means. Also, in accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the review you do not need to serve your response).

Inability to provide requested information.—Pursuant to section 207.61(c) of the Commission's rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse

inference against the party pursuant to section 776(b) of the Act in making its determination in the review.
