Summary: The President's Council on Sustainable Development (PCSD), a Presidential Commission with representation from industry, government, environmental, and Native American organizations, will convene its twentieth meeting in Pittsburgh, Pennsylvania on Monday, September 28, 1998.

Under its current charter from the Clinton Administration, the Council is (1) continuing to forge consensus on policy, (2) demonstrating implementation, (3) getting the word out about sustainable development, and (4) evaluating progress. The Council will advise the President in four specific areas: domestic implementation of policy options to reduce greenhouse gas emissions, next steps in building the new environmental management system of the 21st century, promoting multi jurisdictional and community cooperation in metropolitan and rural areas, and policies that foster the United States' leadership role in sustainable development internationally.

At the Council's last meeting in Washington, DC., on June 4th, the members deliberated among themselves and listened to and questioned invited experts on a variety of issues which included:

- *National Town Meeting for a Sustainable America.* Progress on the goals, vision, audiences, anchor events, and overall planning for this seminal event taking place in Detroit and in communities across America on May 2-5, 1999.

- Benefits and opportunities for community-based greenhouse gas emissions reduction strategies.

- Progress of the Pacific Northwest Regional Council and Metropolitan and Rural Strategies Task Force.

- Presentations "The Importance of Incentives for Early Action on Climate Change".

- Priority Climate Technologies and Barriers.

- Environmental Management Task Force's "Proposed Environmental Management Framework."

- Public Comment.

At the Council's meeting in Pittsburgh, PA on September 28-29, 1998, the Council will address a variety of issues.

On Monday, September 28, the Council will:

- Discuss Pittsburgh's initiatives on Sustainable Development.

- Deliberate on Sustainable Communities Recommendations.

- Discuss the National Town Meeting scheduled for May, 1999.

- Public Comment.

On Tuesday, September 29, the Council's discussions will include:

- Deliberate on recommendations for innovative technologies to reduce greenhouse gas emissions.

- Deliberate on principles for early action to reduce greenhouse gas emissions.

- Discuss opportunities to work with the Financial Community on climate change issues.

- Public Comment.

Specifically, the Council is interested in hearing from the public in the following areas:

- What opportunities are available to advance multi-jurisdictional collaboration in the Pittsburgh region?

- What are the local opportunities to increase participation in the National Town Meeting?

- How can the Council improve its proposed sustainable communities recommendations?

- How can the Council do more to engage the public, leaders from all sectors, and the financial community in a discussion of the opportunities and challenges we face in addressing climate change?

The Council's previous recommendations to the President may be found in two reports: Sustainable America: A New Consensus for Prosperity, Opportunity, and a Healthy Environment for the Future (March 1996) and Building on Consensus: A Progress Report on Sustainable America (January 1997).
