

In addition, the Government will evaluate carefully whether to enter into a partnership with an entity that would be deemed a "prohibited source" under the Standards of Ethical Conduct for Employees of the Executive Branch, and may choose to deny a partnership with a "prohibited source." A prohibited source has been defined in 5 CFR 2635.203(d) as any person or entity that (1) is seeking official action by the agency planning the event, (2) does business or seeks to do business with that agency, (3) conducts activities regulated by that agency, (4) has interests that may be substantially affected by the performance or nonperformance of the official duties of an employee of that agency; or (5) is an organization the majority of whose members are described in (1)-(4) above. While partnerships with "prohibited sources" are not necessarily prohibited, the Government must weigh the importance of working with a given "prohibited source" against the appearance of a conflict of interest before that source may be accepted as a partner.

Neither this notice nor actions pursuant thereto create a property right or right of any kind in any natural or artificial person requesting partnership. DHHS has the unilateral right to refuse to enter into a partnership arrangement with any entity, and the exercise of this right is solely within the discretion of DHHS.

Other Information

Prior to the selection of the partners, DHHS staff involved in the Initiative will meet separately with those interested parties who best meet the evaluation criteria. In those situations where the Food and Drug Administration regulates the labeling of products manufactured by the partners, the inclusion of Initiative information on such products will be subject to FDA review and may require agency authorization, depending on how and the context in which the information is to be used. Further, as a general rule, restrictions will apply to the use of Initiative indicia so as to avoid suggestions that DHHS, or any other department or agency of the Federal Government, endorses any of the products involved in the Initiative. Once details of the program have been mutually agreed upon, partners will be required to enter into a partnership agreement with DHHS setting forth the rights and responsibilities of the partner and DHHS.

Dated: September 11, 1998.
Claude Earl Fox,
Administrator.

 BILLING CODE 4160-15-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of Inspector General

Program Exclusions: August 1998

AGENCY: Office of Inspector General, HHS.

ACTION: Notice of program exclusions.

During the month of August 1998, the HHS Office of Inspector General imposed exclusions in the cases set forth below. When an exclusion is imposed, no program payment is made to anyone for any items or services (other than an emergency room) furnished, ordered or prescribed by an excluded party under the Medicare, Medicaid, and all Federal Health Care programs. In addition, no program payment is made to any business or facility, e.g., a hospital, that submits bills for payment for items or services provided by an excluded party. Program beneficiaries remain free to decide for themselves whether they will continue to use the services of an excluded party even though no program payments will be made for items and services provided by that excluded party. The exclusions have national effect and also apply to all Executive Branch procurement and non-procurement programs and activities.

BILLING CODE 4150-04-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

**Information Collections Submitted to
the Office of Management and Budget
for Approval Under the Paperwork
Reduction Act**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of information collection;
request for comments.

SUMMARY: The collection of information described below has been submitted to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act of 1995. Copies of the specific information collection requirements, related forms and explanatory material may be obtained by contacting the Service Information Collection Clearance Officer at the address provided below.

DATES: Consideration will be given to all comments received on or before November 16, 1998. OMB has up to 60 days to approve or disapprove information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by the above referenced date.

ADDRESSES: Comments and suggestions on the requirement should be sent to Rebecca Mullin, Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, ms 860-ARLSQ, 1849 C Street, NW, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection request, explanatory information and related forms, contact Rebecca A. Mullin at 703/358-2287, or electronically to rmullin@fws.gov.

SUPPLEMENTARY INFORMATION:

The OMB regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). On Monday, August 24, 1998, the U.S. Fish and Wildlife Service (Service) was given emergency approval

by OMB for collection of information in order to continue the grants programs conducted under the North American Wetlands Conservation Act (Pub. L. 101-233, as amended; December 13, 1989). The assigned OMB information collection control number is 1018-0100, and temporary approval expires in February 1999. The Service is requesting a three year term of approval for this information collection activity. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the collection of information; (3) ways to enhance the quality, utility and clarity of the information to be collected; and, (4) ways to minimize the burden of the collection of information on respondents.

Title: Information Collection In Support of Grant Programs Authorized by the North American Wetlands Conservation Act of 1989 (NAWCA).

Approval Number: 1018-0100.

Service Form Number(s): N/A.

Description and Use: The North American Waterfowl Management Plan (NAWMP), first signed in 1986, is a tripartite agreement among Canada, Mexico and the United States to enhance, restore and otherwise protect continental wetlands to benefit waterfowl and other wetland associated wildlife through partnerships between and among the private and public sectors. Because the 1986 NAWMP did not carry with it a mechanism to provide for broadly-based and sustained financial support for wetland conservation activities, Congress passed and the President signed into law the NAWCA to fill that funding need. The purpose of NAWCA, as amended, is to promote long-term conservation of North American wetland ecosystems and the waterfowl and other migratory birds, fish and wildlife that depend upon such habitat through partnerships. Principal conservation actions supported by NAWCA are acquisition, enhancement and restoration of wetlands and wetlands-associated habitat.

As well as providing for a continuing and stable funding base, NAWCA establishes an administrative body, made up of a State representative from each of the four Flyways, three representatives from wetlands

conservation organizations, the Secretary of the Board of the National Fish and Wildlife Foundation, and the Director of the Service. This administrative body is chartered, under the Federal Advisory Committee Act, by the U.S. Department of the Interior as the North American Wetlands Conservation Council (Council). As such, the purpose of the Council is to recommend wetlands conservation project proposals to the Migratory Bird Conservation Commission (MBCC) for funding.

Subsection (c) of Section 5 (Council Procedures) Provides that the " * * * Council shall establish practices and procedures for the carrying out of its functions under subsections (a) and (b) of this section * * *," which are consideration of projects and recommendations to the MBCC, respectively. The means by which the Council decides which project proposals are important to recommend to the MBCC is through grants programs that are coordinated through the Council Coordinator's office (NAWCO) within the Service.

Competing for grant funds involves applications from partnerships that describe in substantial detail project locations and other characteristics, to meet the standards established by the Council and the requirements of NAWCA. The Council Coordinator's office publishes and distributes Standard and Small Grants instructional booklets that assist the applicants in formulating project proposals for Council consideration. The instructional booklets and other instruments, e.g., **Federal Register** notices on request for proposals, are the basis for this information collection request for OMB clearance. Information collected under this program is used to respond to such needs as: audits, program planning and management, program evaluation, Government Performance and Results Act reporting, Standard Form 424 (Application For Federal Assistance), grant agreements, budget reports and justifications, public and private requests for information, data provided to other programs for databases on similar programs, Congressional inquiries and reports required by NAWCA, etc.

In summary, information collection under these programs is required to obtain a benefit, i.e., a cash reimbursable grant that is given competitively to some applicants based on eligibility and relative scale of resource values involved in the projects. The information collection is subject to the Paperwork Reduction Act requirements for such activity, which
