

exceptions for the subsistence harvest of migratory birds by indigenous inhabitants of identified subsistence zones in Alaska.

The intent of the amendments is to enable effective actions to be taken to improve migratory bird conservation, and to cause no significant increases in the take of species of migratory birds relative to their continental population sizes. Paragraph 4(b)(ii) of Article II states:

Indigenous inhabitants of the State of Alaska shall be afforded an effective and meaningful role in the conservation of

migratory birds including the development and implementation of regulations affecting the non-wasteful taking of migratory birds and the collection of their eggs, by participating on relevant management bodies.

This notice initiates action to establish management bodies required by the treaty amendments. The options document being prepared will identify, among other things, the number of management bodies needed for effective and efficient management, how the management bodies will be organized, and their roles and responsibilities. The options document will be prepared for

review and public comment by the Native Migratory Bird Working Group, the Alaska Department of Fish and Game, and the U.S. Fish and Wildlife Service. Availability of a draft document for review and a list of public meetings to gather public comment will be announced in the **Federal Register**.

The PA will be prepared in concert with an environmental assessment (EA).

This notice is issued pursuant to Title 40 Code of Federal Regulations (CFR) 1501.7 and Title 43 CFR 1610.2(c). The planning effort will follow the procedures set forth in 43 CFR Part 1600.

The public is invited to participate in this planning process, beginning with the identification of planning issues and criteria.

DATES: Comments relating to the identification of planning issues and criteria will be accepted through October 16, 1998.

SUPPLEMENTARY INFORMATION: The BLM has responsibility to consider a waiver request for no occupancy stipulation for an already leased mineral estate for oil and gas exploration and development. Preliminary issues, subject to change as a result of public input, are (1) potential impacts of oil and gas exploration and development on the surface resources and (2) consideration of restrictions on lease rights to protect surface resources.

Since two leased tracts are in close proximity, one PA/EA will be prepared to cover both the tracts. Tract locations, along with acreages, are listed below.

Alabama, Tuscaloosa County, Huntsville Meridian,

T 18 S, R 8 W, Section 3, 40 acres more or less;

T 18 S, R 8 W, Section 11, 40 acres more or less.
