

percentages stated above. The Department will issue appraisal instructions directly to the Customs Service. These final results of review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by this review. For duty-assessment purposes, we calculated an importer-specific assessment rate by aggregating the dumping margins calculated for all U.S. sales to each importer and dividing this amount by the total value of subject merchandise entered during the POR for each importer.

Furthermore, the following deposit requirements will be effective upon publication of this notice of final results of review for all shipments of DRAMs from Korea entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a) of the Act: (1) for the companies named above, the cash deposit rate will be the rate listed above (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in a previous segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published in the most recent final results which covered that manufacturer or exporter; (3) if the exporter is not a firm covered in this review or in any previous segment of this proceeding, but the manufacturer is, the cash deposit rate will be that established for the manufacturer of the merchandise in these final results of review or in the most recent final results which covered that manufacturer; and (4) if neither the exporter nor the manufacturer is a firm covered in this review or in any previous segment of this proceeding, the cash deposit rate will be 3.85 percent, the all others rate established in the LFTV investigation. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR 353.26(b) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as the only reminder to parties subject to APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance

with section 353.34(d) of the Department's regulations. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this in accordance with section 751(i) of the Act.

Dated: September 8, 1998.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.

Fresh and Chilled Atlantic Salmon from Norway; Initiation and Preliminary Results of Changed Circumstances Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of initiation and preliminary results of changed circumstances antidumping duty administrative review.

SUMMARY: The Department of Commerce has received information sufficient to warrant initiation of a changed circumstances administrative review of the antidumping order on fresh and chilled Atlantic salmon from Norway. Based on this information, we preliminarily determine that Kinn Salmon AS is the successor-in-interest to Skaarfisk Group AS for purposes of determining antidumping liability.

Interested parties are invited to comment on these preliminary results.

EFFECTIVE DATE: September 23, 1998.

FOR FURTHER INFORMATION CONTACT: Todd Peterson or Thomas Futtner, Office of AD/CVD Enforcement, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4195.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act)

by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department of Commerce's regulations refer to the regulations, codified at 19 CFR part 351, April 1998.

Background

On April 12, 1991, the Department of Commerce (the Department) published in the **Federal Register** (56 FR 14920) an antidumping duty order on fresh and chilled Atlantic salmon from Norway. On March 2, 1998, Kinn Salmon AS (Kinn) submitted a letter stating that Kinn is the successor-in-interest to Skaarfisk Group AS (Skaarfisk), and that Kinn should receive the same antidumping duty treatment as is accorded Skaarfisk.

Scope of the Review

The merchandise covered by this review is fresh and chilled Atlantic salmon (salmon). It encompasses the species of Atlantic salmon (*Salmo salar*) marketed as specified herein; the subject merchandise excludes all other species of salmon: Danube salmon; Chinook (also called "king" or "quinnat"); Coho ("silver"); Sockeye ("redfish" or "blueback"); Humpback ("pink"); and Chum ("dog"). Atlantic salmon is whole or nearly whole fish, typically (but not necessarily) marketed gutted, bled, and cleaned, with the head on. The subject merchandise is typically packed in fresh water ice (chilled). Excluded from the subject merchandise are fillets, steaks, and other cuts of Atlantic salmon. Also excluded are frozen, canned, smoked or otherwise processed Atlantic salmon. Fresh and chilled Atlantic salmon is currently provided for under Harmonized Tariff Schedule (HTS) subheading 0302.12.00.02.09. The HTS item number is provided for convenience and Customs purposes. The written description remains dispositive.

Initiation and Preliminary Results of Review

In a letter dated March 2, 1998, Kinn advised the Department that on July 1, 1997, the former Skaarfisk reorganized to form two firms, Skaarfisk Pelagisk AS and Kinn Salmon AS. The salmon activities of Skaarfisk including processing, marketing and exporting were transferred to Kinn Salmon AS. Skaarfisk Pelagisk AS oversees the processing, marketing and exporting activities of all other types of fish. Kinn stated that its operations are a direct continuation of the salmon related activities performed by Skaarfisk. While the board of directors has changed, the officers and management of Kinn are

virtually identical to the officers and management of Skaarfish. Kinn stated that the address, telephone numbers and telefax numbers are the same as those of Skaarfish. Furthermore, it operates the same facilities in Floro, Norway that were operated by Skaarfish for the processing of salmon and conducts business operations at the same executive offices used by Skaarfish. It provided documentation showing that the customer list for Kinn and the supplier list to Kinn is the same as the customer and supplier lists for Skaarfish. Kinn submitted a copy of The Certificates of Registration of Skaarfish, Skaarfish Pelagisk AS, and Kinn Salmon AS.

Thus, in accordance with section 751(b) of the Act, the Department is initiating a changed circumstances review to determine whether Kinn is the successor-in-interest to Skaarfish for purposes of determining antidumping duty liability. In making such a successor-in-interest determination, the Department examines several factors including, but not limited to, changes in: (1) management; (2) production facilities; (3) supplier relationships; and (4) customer base. See, e.g., *Brass of Antidumping Duty Administrative Review*, 57 FR 20460 (May 13, 1992) (Canadian Brass). While no one or several of these factors will necessarily provide a dispositive indication, the Department will generally consider the new company to be the successor to the previous company if its resulting operation is similar to that of its predecessor. See, e.g., *Industrial Phosphoric Acid from Israel: Final Results of Changed Circumstances Review*, 59 FR 6944 (February 14, 1994) and Canadian Brass. This, if the evidence demonstrates that, with respect to the production and sale of the subject merchandise, the new company operates as the same business entity as the former company, the Department will assign the new company the cash deposit rate of its predecessor.

We preliminarily determine that Kinn Salmon AS is the successor-in-interest to Skaarfish Group AS. Skaarfish Group AS has reorganized to form two firms Skaarfish Pelagisk AS and Kinn Salmon AS. Kinn's management is virtually identical to Skaarfish's. Kinn's business operation, with respect to the subject merchandise are identical to the salmon operations of Skaarfish. Kinn's production facilities are unchanged as are its customer and supplier lists. Thus, Kinn Salmon AS should receive the same antidumping duty treatment as the former Skaarfish Group AS, i.e., a 2.30 percent antidumping duty cash deposit rate.

Interested parties are invited to comment on these preliminary results. Any written comments may be submitted no later than 30 days after date of publication of this notice. Rebuttal briefs, limited to arguments raised in case briefs, are due five days after the case brief deadline. Case briefs and rebuttal briefs must be served on interested parties in accordance with 19 CFR 351.309. The Department will publish the final results of the changed circumstances review including the results of any such comments.

This initiation of review, preliminary results of review and notice are in accordance with sections 751(b) and 777(i)(1) of the Act.

Dated: September 15, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.

Iron Construction Castings From Canada: Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review, and Revocation in Part of Antidumping Duty Order: Correction

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Changed Circumstances Antidumping Duty Administrative Review, and Revocation in Part of Antidumping Duty Order: Correction.

EFFECTIVE DATE: September 23, 1998.

FOR FURTHER INFORMATION CONTACT: Alexander Amdur or Wendy Frankel, AD/CVD Enforcement, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-5346/5849, respectively.

Correction

The Department of Commerce (the Department) inadvertently referenced incorrect Harmonized Tariff Schedule (HTS) numbers in the scope of the order and new scope of the order sections in the notice of final results of changed circumstances antidumping duty administrative review, and revocation in part of the antidumping duty order

pertaining to iron construction castings from Canada (63 FR 49687, September 17, 1998). Due to revisions in the HTS, the HTS no longer classifies merchandise covered by the order under item numbers 8306.29.0000 and 8310.00.0000. Furthermore, also due to revisions in the HTS, the HTS now classifies heavy castings (as defined by the scope of the order) under item number 7325.10.0010, and classifies light castings (as defined by the scope of the order) under item number 7325.10.0050.

Pursuant to the Department's regulations at 19 CFR 351.224(e), we correct the scope of the order and new scope of the order sections in the above-referenced notice to read as follows:

Scope of the Order

The merchandise covered by the order consists of certain iron construction castings from Canada, limited to manhole covers, rings, and frames, catch basin grates and frames, cleanout covers and frames used for drainage or access purposes for public utility, water and sanitary systems, classifiable as heavy castings under Harmonized Tariff Schedule (HTS) item number 7325.10.0010; and to valve, service, and meter boxes which are placed below ground to encase water, gas, or other valves, or water and gas meters, classifiable as light castings under HTS item number 7325.10.0050. The HTS item numbers are provided for convenience and Customs purposes only. The written description remains dispositive.

New Scope of the Order

The merchandise covered by the order consists of certain iron construction castings from Canada, limited to manhole covers, rings, and frames, catch basin grates and frames, cleanout covers and frames used for drainage or access purposes for public utility, water and sanitary systems, classifiable as heavy castings under Harmonized Tariff Schedule (HTS) item number 7325.10.0010. The HTS item number is provided for convenience and Customs purposes only.

The written description remains dispositive.

Dated: September 17, 1998.

Robert S. LaRussa,

Assistant Secretary for Import Administration.
