Eastern Shore Natural Gas Company; Notice of Application

October 6, 1998.

Take notice that on September 25, 1998, Eastern Shore Natural Gas Company (Eastern Shore), Post Office Box 1769, Dover, Delaware 19903-1769, filed in Docket No. CP98-800-000 an application pursuant to Section 7(c) of the Natural Gas Act for authorization to construct and operate additional pipeline and compression facilities in Delaware and Pennsylvania to expand its system by providing added transportation capacity, all as more fully set forth in the application capacity, all as more fully set forth in the application on file with the Commission and open to public inspection.

Eastern Shore proposes to construct and operate 8 miles of 16-inch pipeline looping on its existing system (3.5 miles in Delaware and 4.5 miles in Pennsylvania) and to install 1,085 horsepower of additional capacity at an existing compressor station on Eastern Shore's system in Delaware City, Delaware. It is stated that the proposed construction would enable Eastern Shore to provide 16,540 dt equivalent of additional daily firm service capacity on its system. Eastern Shore estimates the total costs of the proposed facilities at \$6,643,420. It is requested that certificate be issued allowing construction to be completed by November 1, 1999.

Eastern Shore asserts that the facilities would provide system-wide benefits without requiring a rate increase for existing customers. Therefore, Eastern Shore requests a determination that cost of the project be given rolled-in treatment. Eastern Shore convened an open season for the additional capacity in June and July 1998 and secured 10-year firm contracts with Star Enterprise and Delmarva Power & Light Company for the additional capacity.
