

prohibit patentees from trying to correct any errors that occurred with deceptive intent in a reissue patent application that was originally filed to correct, with an oath or declaration that covers only those errors which occurred without any deception. The PTO believes that the supplemental oath or declaration will prohibit the patentee from attempting to "piggyback" corrections of errors that occurred with deceptive intent in a reissue originally filed to correct an error that occurred without deceptive intent. Errors that occurred with deceptive intent cannot be corrected by a reissue patent.

Originally, the PTO did not provide a form for a supplemental oath or declaration because 37 CFR 1.175 required application-specific facts. Now that 37 CFR 1.175(b) has been revised to require only a general statement, the PTO has designed Form PTO/SB/51S, Supplemental Declaration for Reissue Patent Application (37 CFR 1.175). This

form does not replace Form PTO/SB/51, Reissue Application Declaration By The Inventor or Form PTO/SB/52, Reissue Application Declaration By The Assignee, which are used by the patentee or assignee in the originally filed reissue patent application. The additional form, PTO/SB/51S, is used to provide the required statement that "every error in the patent which was corrected in the present reissue application, and which is not covered by the prior oath(s)/declaration(s) submitted in this application, arose without any deceptive intention on the part of the applicant".
