BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP99-7-000]

ANR Pipeline Company; Notice of Application

October 15, 1998.

Take notice that on October 6, 1998, ANR Pipeline Company (ANR) 500 Renaissance Center, Detroit, Michigan 48243, filed in Docket No. CP99-7-000 an application pursuant to Section 7(c) of the Natural Gas Act for authorization to utilize temporary work spaces associated with a pipeline replacement project located in Washington County, Wisconsin, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

ANR proposes to replace 0.55 mile of 20-inch pipeline with heavier wall pipe in order to continue to meet the safety requirements of the U.S. Department of Transportation (DOT) regulations. ANR states that the required replacement has been triggered by an increase in population density in Washington County, Wisconsin. ANR states that in this area, ANR's main line consists of two parallel pipelines: A 14-inch O.D. main line and a 20-inch O.D. loop line. ANR states that the 14-inch O.D. main line is currently in compliance with DOT regulations.

ANR states that the pipeline replacement project consists of removing and replacing in the same trench a 0.55 mile segment of the 20-inch O.D. loop line between mile posts 124.00 and 124.55, except for a 79-foot section located beneath Sherman Road, which is in compliance with DOT's safety regulations.

ANR states that the pipeline replacement will be made within ANR's existing permanent right-of-way and will be placed in the same trench as the pipe being removed. ANR states that the pipeline replacement will not alter the capacity of ANR's main line and no compression or aboveground facilities are associated with the project. It is stated that during the period that the pipeline replacement is taking place, service will continue to be provided to customers through the main line segment.

ANR states that in order to make the replacement, it will have to utilize work areas which may not have been included in the scope of the original authorization, 13 FPC 380, to construct the facilities. ANR requests the temporary use of work space in order to make the replacement. ANR states that

the construction will be done under Section 2.55(b) of the Commission's Regulations and has an estimated cost of \$769,000.

Any person desiring to participate in the hearing process or to make any protest with reference to said application should on or before November 5, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. The Commission's rules require that protestors provide copies of their protests to the party or parties directly involved. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person obtaining intervenor status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by every one of the intervenors. An intervenor can file for rehearing of any Commission order and can petition for court review of any such order. However, an intervenor must submit copies of comments or any other filing it makes with the Commission to every other intervenor in the proceeding, as well as 14 copies with the Commission.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek rehearing or appeal the Commission's final order to a federal court.

The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.
