

After EPA initiated the Special Review of cyanazine, Griffin filed an application to register certain cyanazine pesticide products and subsequently agreed to the same terms and conditions of registration that were proposed by Dupont. In July 1996, EPA accepted Dupont's proposal, and Griffin's agreement, to amend their cyanazine registrations, including voluntary cancellation effective December 31, 1999. EPA subsequently concluded the Special Review of cyanazine (61 FR 39023, July 25, 1996) (FRL-5385-7) because all registrations were being phased out and ultimately canceled, and EPA determined that the risks from additional use during the phase-out period did not outweigh the benefits of use during that time.

Overall production of cyanazine has declined significantly since EPA accepted Dupont's and Griffin's amendments to the terms and conditions of their registrations. In 1994, at the time of the issuance of the PD1, EPA estimated that as much as 34 million pounds of cyanazine active ingredient were produced. In 1995, the year of the voluntary amendments, including the agreement to phase out cyanazine, production decreased to approximately 23 million pounds. Production continued to decrease to 20 million pounds in 1997. There was no production of cyanazine technical in 1998.

On September 23, 1998, Dupont requested a change to the terms and conditions of its cyanazine registration (as established in the cancellation order, 61 FR 39023). The Agency believes Dupont's request for a change in use rate for the 1999 growing season will not disturb the Agency's conclusion in 61 FR 39023 that risks associated with the voluntary phase out and cancellation are outweighed by its benefits. Cyanazine technical production ceased in June 1997; the last batch of formulated product was produced in August 1998. Thus, the amount of existing stocks being used during the phase out remains the same, and the cumulative usage of cyanazine from 1998-2002 also remains the same. According to Dupont, total sales of cyanazine in 1998 were approximately 3 million pounds less than what was initially projected, due to adverse weather conditions. Allowing the increased use rate only for the 1999 growing season is expected to result in use of this surplus cyanazine product, but will not result in any net gains in overall usage allowed during the phase-out period, since the 1998 projected use rates were lower than expected.

Cyanazine is effective only on cotton when applied at the 1.0 lb/acre use rate. At a use rate of 3.0 lb/acre, cyanazine is an effective herbicide control on sweet corn. Allowing the use rate to increase to 3.0 lb/acre for the 1999 growing season will provide sweet corn growers with use of cyanazine for this additional year, and will effectively use these surplus stocks, preventing the need for disposal of excess product. There should be no increase in overall risk, since the amount of existing stock used during the phase-out period remains the same, and since any increased exposure in 1999 is offset by the decreased exposure in 1998.

There will be no extension of the end use date in the year 2002. The use rate will return to 1.0 lb/acre on January 1, 2000, thus adhering to the phase-out schedule described in the original cancellation order. Both Dupont, and thereafter, Griffin, will amend the terms and conditions of their registrations, issue supplemental labels amending the use rate only for 1999, and will ensure that all product users receive such labels.

Accordingly, if the Agency receives no compelling comments objecting to this proposal, EPA proposes to grant the registrants' request to amend the terms and conditions of their cyanazine registration and Cancellation Order. Because the agreement to phase out cyanazine usage was the basis for the Agency's conclusion of the Special Review, the Agency is soliciting public comment pursuant to 40 CFR 154.35 on this proposed decision to grant the registrants' request.

II. Public Docket and Electronic Submissions

The official record for this notice, as well as the public version, has been established for this notice under docket control number OPP-30000/60B. A public version of this record, includes this notice and any other notices associated with the cyanazine Special Review and EPA's decision to terminate the cyanazine Special Review (including any comments and data submitted electronically). The public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The official record is located at the Virginia address in "ADDRESSES" at the beginning of this document.

Electronic comments may be sent directly to EPA at:

opp-docket@epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect 5.1/6.1 or ACSII file format. All comments and data in electronic form must be identified by the docket control number OPP-30000/60B. Electronic comments on this notice may be filed online at many Federal Depository Libraries.

List of Subjects

Environmental protection, Chemicals, Pesticides and pests

Dated: October 14, 1998.

Jack E. Housenger,

Acting Director, Special Review and Reregistration Division, Office of Pesticide Programs.

[FR Doc. 98-28236 Filed 10-20-98; 8:45 am]

BILLING CODE 6560-50-F

ENVIRONMENTAL PROTECTION AGENCY

[OPPTS-51916; FRL-6039-3]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical to notify EPA and comply with the statutory provisions pertaining to the manufacture or import of substances not on the TSCA Inventory. Section 5 of TSCA also requires EPA to publish receipt and status information in the **Federal Register** each month reporting premanufacture notices (PMN) and test marketing exemption (TME) application requests received, both pending and expired. The information in this document contains notices received from August 1, to August 31, 1998.

ADDRESSES: Written comments, identified by the document control number "[OPPTS-51916]" and the specific PMN number, if appropriate, should be sent to: Document Control Office (7407), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Rm. ETG-099 Washington, DC 20460.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to:

oppt.ncic@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1/6.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPPTS-51916]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found under "SUPPLEMENTARY INFORMATION" of this document.

FOR FURTHER INFORMATION CONTACT:

Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-531, 401 M St., SW., Washington, DC, 20460, (202) 554-1404, TDD (202) 554-0551; e-mail: TSCA-Hotline@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Under the provisions of TSCA, EPA is required to publish notice of receipt and status reports of chemicals subject to section 5 reporting requirements. The notice requirements are provided in TSCA sections 5(d)(2) and 5(d)(3). Specifically, EPA is required to provide notice of receipt of PMNs and TME application requests received. EPA also is required to identify those chemical submissions for which data has been received, the uses or intended uses of such chemicals, and the nature of any test data which may have been developed. Lastly, EPA is required to provide periodic status reports of all chemical substances undergoing review and receipt of notices of commencement.

A record has been established for this notice under docket number "[OPPTS-51916]" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI,

is available for inspection from 12 noon to 3 p.m., Monday through Friday, excluding legal holidays. The public record is located in the TSCA Nonconfidential Information Center (NCIC), Rm. NEM-B607, 401 M St., SW., Washington, DC 20460.

Electronic comments can be sent directly to EPA at:

oppt.ncic@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

In the past, EPA has published individual notices reflecting the status of section 5 filings received, pending or expired, as well as notices reflecting receipt of notices of commencement. In an effort to become more responsive to the regulated community, the users of this information and the general public, to comply with the requirements of TSCA, to conserve EPA resources, and to streamline the process and make it more timely, EPA is consolidating these separate notices into one comprehensive notice that will be issued at regular intervals.

In this notice, EPA shall provide a consolidated report in the **Federal Register** reflecting the dates PMN requests were received, the projected notice end date, the manufacturer or importer identity, to the extent that such information is not claimed as confidential and chemical identity, either specific or generic depending on whether chemical identity has been claimed confidential. Additionally, in

this same report, EPA shall provide a listing of receipt of new notices of commencement.

EPA believes the new format of the notice will be easier to understand by the interested public, and provides the information that is of greatest interest to the public users. Certain information provided in the earlier notices will not be provided under the new format. The status reports of substances under review, potential production volume, and summaries of health and safety data will not be provided in the new notices.

EPA is not providing production volume information in the consolidated notice since such information is generally claimed as confidential. For this reason, there is no substantive loss to the public in not publishing the data. Health and safety data are not summarized in the notice since it is recognized as impossible, given the format of this notice, as well as the previous style of notices, to provide meaningful information on the subject. In those submissions where health and safety data were received by the Agency, a footnote is included by the Manufacturer/Importer identity to indicate its existence. As stated below, interested persons may contact EPA directly to secure information on such studies.

For persons who are interested in data not included in this notice, access can be secured at EPA Headquarters in the NCIC at the address provided above. Additionally, interested parties may telephone the Document Control Office at (202) 260-1532, TDD (202) 554-0551, for generic use information, health and safety data not claimed as confidential or status reports on section 5 filings.

Send all comments to the address listed above. All comments received will be reviewed and appropriate amendments will be made as deemed necessary.

This notice will identify: (I) PMNs received; (II) TMEs received; and (III) Notices of Commencement to manufacture/import.

I. 88 Premanufacture Notices Received From: 08/01/98 to 08/31/98

Case No.	Received Date	Projected Notice End Date	Manufacturer/Importer	Use	Chemical
P-98-1078	08/03/98	11/01/98	CBI	(G) Curable resin for use in ultraviolet (uv) and electron beam (eb) formulations (open, non-dispersive use)	(G) Multifunctional aliphatic urethane acrylate

P-98-0390	08/04/98	07/08/98	(G) Acrylate resin
P-98-0397	08/04/98	07/08/98	(G) Acrylate resin
P-98-0436	08/10/98	07/30/98	(S) Propanoic acid, 3-hydroxy-2-(hydroxymethyl)-2-methyl-, polymer with (chloromethyl)oxirane polymer with 4,4' - (1-methylethylidene)bis[cyclohexanol] 2-propenoate, hexahydro-1,3-isobenzofurandione polymer with 2,2'-[oxybis(methylene)bis[2-ethyl-1,3-propanediol] ester with alpha-methyl-omega-hydroxypoly (oxy-1,2-ethanediyl) and 1,1'-methylenebis [4-isocyanatocyclohexane], 4-hydroxybutyl acrylate-blocked, compds. with 2-(dimethylamino) ethanol*
P-98-0471	08/05/98	07/06/98	(G) Perfluoroalkylethylacrylate copolymer
P-98-0511	08/17/98	07/17/98	(G) Siloxanes modified polymethacrylate
P-98-0528	08/05/98	07/06/98	(G) Perfluoroalkylethylacrylate copolymer
P-98-0535	08/11/98	07/29/98	(G) Polyoxyalkylated alcohol
P-98-0544	08/18/98	07/30/98	(G) Polyurethane with carboxy functions
P-98-0559	08/27/98	07/28/98	(S) Cellulose 3-(dodecyltrimethylammonio)-2-hydroxypropyl 2-hydroxyethyl ether, chloride*
P-98-0580	08/24/98	07/23/98	(S) Fatty acids, C ₁₈ -unsat'd., dimers, polymers with azelaic acid, ethylenediamine piperazine, acetates*
P-98-0588	08/03/98	07/14/98	(G) Acrylic copolymer
P-98-0591	08/03/98	07/21/98	(S) 1,3-benzenedicarboxylic acid, polymer with 1,3-dihydro-1,3-dioxo-5-isobenzofurancarboxylic acid, 2,2-dimethyl-1,3-propanediol, 2-ethyl-2-(hydroxymethyl)-1,3-propanediol, hexanedioic acid, 4-hydroxybenzoic acid and 2,2'-oxybis[ethanol]*
P-98-0593	08/18/98	08/05/98	(G) Disubstituted cyano-heteropolycyclohexanecarboxylic acid ester
P-98-0601	08/25/98	08/12/98	(G) Polymer ester of mono and dibasic acids
P-98-0616	08/26/98	08/01/98	(G) Polyester resin
P-98-0617	08/03/98	07/20/98	(G) Polymer ester of mono and dibasic acids
P-98-0637	08/31/98	07/31/98	(G) Copolymer of methyl methacrylate
P-98-0647	08/10/98	07/21/98	(S) Siloxanes and silicones, 3-[[2-[(ethenylphenyl)methyl]amino]ethyl]amino]propyl methoxy, methoxy-terminated, acetates*
P-98-0652	08/07/98	07/16/98	(G) Cycloolefin polymer
P-98-0653	08/07/98	07/16/98	(G) Cycloolefin polymer
P-98-0658	08/18/98	07/27/98	(G) Alkylethoxylate chloride
P-98-0678	08/31/98	08/02/98	(G) Alkyl benzenesulfonic acid salt

II. 51 Notices of Commencement Received From: 08/01/98 to 08/31/98—Continued

Case No.	Received Date	Commencement/Import Date	Chemical
P-98-0682	08/03/98	07/15/98	(G) Unsaturated alkyl grignard reagent
P-98-0683	08/17/98	07/29/98	(G) Polyester resin
P-98-0685	09/01/98	08/14/98	(G) Siloxanes and silicones, alkyl arylalkyl
P-98-0695	08/18/98	08/02/98	(G) Hydroxy functional oligomer
P-98-0725	08/13/98	08/06/98	(S) Amides, tall oil fatty, <i>n</i> -(2-(2-hydroxyethyl)amino)ethyl), reaction products with sulfur dioxide; fatty acids, tall oil, reaction products with 1-piperazineethanamine and sulfur dioxide; fatty acids, tall-oil reaction products with sulfur dioxide and triethylenetetramine*
P-98-0780	08/31/98	08/21/98	(S) Hexanoic acid, 6-[(1-oxoisooctyl)amino]-, compd. with 2,2'2''-nitritoltris[ethanol](1:1)*
P-98-0787	08/11/98	08/05/98	(G) Sulfited fatty amine
P-98-0799	08/31/98	08/21/98	(G) Polyamic acid, ethyl ester, acrylate ester

List of Subjects

Environmental protection,
Premanufacture notices.

Dated: October 13, 1998.

Oscar Morales,

*Acting Director, Information Management
Division, Office of Pollution Prevention and
Toxics.*

[FR Doc. 98-28234 Filed 10-20-98; 8:45 am]

BILLING CODE 6560-50-F

**ENVIRONMENTAL PROTECTION
AGENCY**

[OPPTS-51914; FRL-6023-1]

**Certain Chemicals; Premanufacture
Notices**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5 of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical to notify EPA and comply with the statutory provisions pertaining to the manufacture or import of substances not on the TSCA Inventory. Section 5 of TSCA also requires EPA to publish receipt and status information in the **Federal Register** each month reporting premanufacture notices (PMN) and test marketing exemption (TME) application requests received, both pending and expired. The information in this document contains notices received from July 15, to July 31, 1998.

ADDRESSES: Written comments, identified by the document control number "[OPPTS-51914]" and the specific PMN number, if appropriate, should be sent to: Document Control Office (7407), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 401 M St., SW., Rm. ETG-099 Washington, DC 20460.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: oppt.ncic@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1/6.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPPTS-51914]. No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found under "SUPPLEMENTARY INFORMATION" of this document.

FOR FURTHER INFORMATION CONTACT: Susan B. Hazen, Director, Environmental Assistance Division (7408), Office of Pollution Prevention and Toxics, Environmental Protection Agency, Rm. E-531, 401 M St., SW., Washington, DC, 20460, (202) 554-1404, TDD (202) 554-0551; e-mail: TSCA-Hotline@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: Under the provisions of TSCA, EPA is required to publish notice of receipt and status reports of chemicals subject to section 5 reporting requirements. The notice requirements are provided in TSCA sections 5(d)(2) and 5(d)(3). Specifically, EPA is required to provide notice of receipt of PMNs and TME application requests received. EPA also is required to identify those chemical submissions for which data has been received, the uses or intended uses of such chemicals, and the nature of any test data which may have been developed. Lastly, EPA is required to provide periodic status reports of all chemical substances undergoing review and receipt of notices of commencement.

A record has been established for this notice under docket number "[OPPTS-

51914]" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 12 noon to 3 p.m., Monday through Friday, excluding legal holidays. The public record is located in the TSCA Nonconfidential Information Center (NCIC), Rm. NEM-B607, 401 M St., SW., Washington, DC 20460.

Electronic comments can be sent directly to EPA at:
oppt.ncic@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

In the past, EPA has published individual notices reflecting the status of section 5 filings received, pending or expired, as well as notices reflecting receipt of notices of commencement. In an effort to become more responsive to the regulated community, the users of this information and the general public, to comply with the requirements of TSCA, to conserve EPA resources, and to streamline the process and make it more timely, EPA is consolidating these separate notices into one comprehensive notice that will be issued at regular intervals.

In this notice, EPA shall provide a consolidated report in the **Federal Register** reflecting the dates PMN
