

ENVIRONMENTAL PROTECTION AGENCY**40 CFR Part 271**

[FRL-6166-5]

North Carolina; Final Authorization of Revisions to State Hazardous Waste Management Program**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Immediate final rule.

SUMMARY: North Carolina has applied for Final authorization of the revision to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). North Carolina's revision consists of provisions promulgated between July 1, 1994 and June 30 1995. The EPA has reviewed North Carolina's application and determined that its hazardous waste program revision satisfies all of the requirements necessary to qualify for Final authorization. Unless adverse written comments are received during the review and comment period provided, EPA's decision to authorize North Carolina's hazardous waste program revision will take effect as provided below.

DATES: This Final authorization for North Carolina will become effective without further notice on December 22, 1998, if EPA receives no adverse comment on this document.

Should EPA receive such comments EPA will withdraw this rule before its effective date by publishing a withdrawal in the **Federal Register**. Any comments on North Carolina's program revision application must be filed by November 23, 1998.

ADDRESSES: Copies of the North Carolina program revision application and the materials which EPA used in evaluating the revision are available for inspection and copying during normal business hours at the following

addresses: North Carolina Department of Environment, Health and Natural Resources, P.O. Box 27687, Raleigh, North Carolina 29201, (919) 733-2178; and EPA Region 4, Library, U.S. EPA Region 4, The Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW, Atlanta, Georgia 30303; (404) 347-4216. Send written comments to Narindar Kumar, Chief, RCRA Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, The Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW, Atlanta, GA 30303-3104; (404) 562-8440.

FOR FURTHER INFORMATION CONTACT: Narindar Kumar, Chief, RCRA Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, The Sam Nunn Atlanta Federal Center, 61 Forsyth Street, SW Atlanta, GA 30303-3104; (404) 562-8440.

SUPPLEMENTARY INFORMATION:**A. Background**

States with final authorization under Section 3006(b) of the RCRA, 42 U.S.C. 6926(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. As the Federal hazardous waste program changes, the States must revise their programs and apply for authorization of the revisions. Revisions to State hazardous waste programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must revise their programs because of changes to EPA's regulations in 40 Code of Federal Regulations (CFR) Parts 124, 260 through 266, 268, 270, 273 and 279.

B. North Carolina

North Carolina initially received final authorization for its base RCRA program effective on December 31, 1984. North Carolina most recently received

authorization for revisions to its program on June 24, 1996, (61 FR 18284).

On August 7, 1997, North Carolina submitted a final, complete program revision application for RCRA Cluster V, seeking authorization of its program revision in accordance with 40 CFR 271.21. The EPA reviewed North Carolina's application, and now makes an immediate final decision, subject to receipt of adverse written comment, that North Carolina's hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. Consequently, EPA intends to grant Final Authorization for the program modifications contained in North Carolina's program revision application.

The public may submit written comments on EPA's final decision until November 23, 1998. Copies of North Carolina's application for program revision are available for inspection and copying at the locations indicated in the **ADDRESSES** section of this document.

If EPA does not receive adverse written comment pertaining to North Carolina's program revision by the end of the comment period, the authorization of North Carolina's revision will become effective on December 22, 1998. If the Agency does receive adverse written comment, it will publish a document withdrawing this immediate final rule before its effective date. EPA will then address the comments in a later final rule based on the companion document appearing in the Proposed Rules section of today's **Federal Register**. EPA may not provide additional opportunity for comment. Any parties interested in commenting should do so at this time.

North Carolina is today seeking authority to administer the following Federal requirements promulgated between July 1, 1994, through June 30, 1995.

Checklist	Federal requirement	FR promulgation date	HSWA or FR reference	State authority
135	Recovered Oil Exclusion	7/28/94	59 FR 38536	NCGS § 130A-294(c)(1). NCGS § 130A-294(c)(15). NCGS § 150B-21.6. 15A NCAC 13A .0106(a). 15A NCAC 13A .0111(e).
136	Removal of Conditional Exemption	8/24/94	59 FR 43396	NCGS § 130A-294(c)(7). NCGS § 130A-294(c)(15). NCGS § 130A-294(h)(2). NCGS § 150B-21.6. 15A NCAC 13A .0111(a). 15A NCAC 13A .0112(c).

EPA shall administer any RCRA hazardous waste permits, or portions of permits that contain conditions based upon the Federal program provisions for which the State is applying for authorization and which were issued by EPA prior to the effective date of this authorization. EPA will suspend issuance of any further permits under the provisions for which the State is being authorized on the effective date of this authorization.

The State of North Carolina's Hazardous Waste Management Program is not being authorized to operate in Indian Country.

C. Decision

I conclude that North Carolina's application for program revision authorization meets all of the statutory and regulatory requirements established by RCRA. Accordingly, EPA grants North Carolina Final Authorization to operate its hazardous waste program as revised. North Carolina now has responsibility for permitting treatment, storage, and disposal facilities within its borders (except in Indian country) and for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the HSWA. North Carolina also has primary enforcement

responsibilities, although EPA retains the right to conduct inspections under section 3007 of RCRA, and to take enforcement actions under sections 3008, 3013 and 7003 of RCRA.

Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), P.L. 104-4, establishes requirements for Federal agencies to assess the effects of certain regulatory actions on State, local, and tribal governments and the private sector. Under sections 202 and 205 of the UMRA, EPA generally must prepare a written statement of economic and regulatory alternatives analyses for proposed and final rules with Federal mandates, as defined by the UMRA, that may result in expenditures to State, local, and tribal governments, in the aggregate, or to the private sector, of \$100 million or more in any one year. EPA has determined that section 202 and 205 requirements do not apply to today's action because this rule does not contain a Federal mandate that may result in annual expenditures of \$100 million or more for State, local, and/or tribal governments in the aggregate, or the private sector. Costs to State, local and/or tribal governments already exist under the North Carolina's program, and today's action does not impose any

additional obligations on regulated entities. In fact, EPA's approval of State programs generally may reduce, not increase, compliance costs for the private sector. Further, as it applies to the State, this action does not impose a Federal intergovernmental mandate because UMRA does not include duties arising from participation in a voluntary federal program.

The requirements of section 203 of UMRA also do not apply to today's action. Before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, including tribal governments, section 203 of the UMRA requires EPA to develop a small government agency plan. This rule contains no regulatory requirements that might significantly or uniquely affect small governments. Although small governments may be hazardous waste generators, transporters, or own and/or operate TSDFs, they are already subject to the regulatory requirements under the existing State laws that are being authorized by EPA, and, thus, are not subject to any additional significant or unique requirements by virtue of this program approval.

Certification Under the Regulatory Flexibility Act

Pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996), whenever an agency is required to publish a notice of rulemaking for any proposed or final rule, it must prepare and make available for public comment a regulatory flexibility analysis that describes the effect of the rule on small entities (i.e., small businesses, small organizations, and small governmental jurisdictions). This analysis is unnecessary, however, if the agency's administrator certifies that the rule will not have a significant economic impact on a substantial number of small entities.

The EPA has determined that this authorization will not have a significant economic impact on a substantial number of small entities. Such small entities which are hazardous waste generators, transporters, or which own and/or operate TSDFs are already subject to the regulatory requirements under the existing State laws that are now being authorized by EPA. The EPA's authorization does not impose any significant additional burdens on these small entities. This is because EPA's authorization would simply result in an administrative change, rather than a change in the substantive requirements imposed on these small entities.

Pursuant to the provision at 5 U.S.C. 605(b), the Agency hereby certifies that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization approves regulatory requirements under existing State law to which small entities are already subject. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA submitted a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives and the Comptroller General of the United States prior to publication of the rule in

today's **Federal Register**. This rule is not a "major rule" as defined by 5 U.S.C. 804(2).

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this rule from the requirements of Executive Order 12866.

Compliance With Executive Order 12875

Under Executive Order 12875, EPA may not issue a regulation that is not required by statute and that creates a mandate upon a State, local or tribal government, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by those governments, or EPA consults with those governments. If EPA complies with consulting, Executive Order 12875 requires EPA to provide to the Office of Management and Budget a description of the extent of EPA's prior consultation with representatives of affected State, local and tribal governments, the nature of their concerns, copies of any written communications from the governments, and a statement supporting the need to issue the regulation. In addition, Executive Order 12875 requires EPA to develop an effective process permitting elected officials and other representatives of State, local and tribal governments to provide meaningful and timely input in the development of regulatory proposals containing significant unfunded mandates.

This rule does not create a mandate on State, local or tribal governments. The rule does not impose any enforceable duties on these entities. The State administers its hazardous waste program voluntarily, and any duties on other State, local or tribal governmental entities arise from that program, not from this today's action. Accordingly, the requirements of Executive Order 12875 do not apply to this rule.

Compliance With Executive Order 13045

Executive Order 13045 applies to any rule that the Office of Management and Budget determines is economically significant as defined under Executive Order 12866, and that EPA determines that the environmental health or safety risk addressed by the rule has a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children and explain why the planned regulation is preferable to other potentially effective

and reasonably feasible alternatives considered by the Agency.

The Agency has determined that the final rule is not a covered regulatory action as defined in the Executive Order because it is not economically significant and does not address environmental health and safety risks. As such, the final rule is not subject to the requirements of Executive Order 13045.

Compliance With Executive Order 13084

Under Executive Order 13084, EPA may not issue a regulation that is not required by statute, that significantly or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments, or EPA consults with those governments. If EPA complies with consulting, Executive Order 13084 requires EPA to provide to the Office of Management and Budget, in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected officials and other representatives of Indian tribal governments "to provide meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities."

This rule is not subject to E.O. 13084 because it does not significantly or uniquely affect the communities of Indian tribal governments. North Carolina is not authorized to implement the RCRA hazardous waste program in Indian country. This action has no effect on the hazardous waste program that EPA implements in the Indian country within the State.

Paperwork Reduction Act

Under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, Federal agencies must consider the paperwork burden imposed by any information request contained in a proposed rule or a final rule. This rule will not impose any information requirements upon the regulated community.

National Technology Transfer and Advancement Act

Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law No. 104-113, § 12(d) (15 U.S.C. 272 note) directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards.

This action does not involve technical standards. Therefore, EPA did not consider the use of any voluntary consensus standards.

Environmental protection, Administrative practice and procedure, Confidential business information, Hazardous waste, Hazardous waste transportation, Incorporation by reference, Indian lands, Intergovernmental relations, Penalties, Reporting and record keeping requirements, Water pollution control, Water supply.

Authority: This notice is issued under the authority of Sections 2002(a), 3006 and 7004(b) of the Solid Waste Disposal Act as amended 42 U.S.C. 6912(a), 6926, 6974(b).

Dated: August 27, 1998.

Michael V. Peyton,

Acting Regional Administrator, Region 4.

[FR Doc. 98-28490 Filed 10-22-98; 8:45 am]

BILLING CODE 6560-50-P

GENERAL SERVICES ADMINISTRATION

41 CFR Part 105-60

RIN 3090-AG78

Public Availability of Agency Records and Informational Materials

AGENCY: Office of Management and Workplace Programs, GSA.

ACTION: Final rule.

SUMMARY: The General Services Administration (GSA) is revising its regulations which implement the Freedom of Information Act (FOIA), to incorporate the requirements of the Electronic Freedom of Information Act

Amendments of 1996, 5 U.S.C. 552, as amended by Pub. L. 104-231.

DATES: This rule is effective October 23, 1998.

FOR FURTHER INFORMATION CONTACT: Mary Cunningham, GSA Freedom of Information Act (FOIA) Officer (202-501-3415); or Helen C. Maus, Office of General Counsel (202-501-1460).

SUPPLEMENTARY INFORMATION: A proposal to revise GSA's regulations that implement FOIA was published in the **Federal Register** on June 17, 1998, 63 FR 33023. This rule was not submitted to the Office of Management and Budget pursuant to Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, because it is not a significant regulatory action as defined in Executive Order 12866. The Paperwork Reduction Act does not apply because the rule does not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.

This rule will not result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100,000,000 or more in any one year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

This rule is not a major rule as defined by section 804 of the Small Business Regulatory Enforcement Fairness Act of 1996. This rule will not result in an annual effect on the economy of \$100,000,000 or more; major increase in costs or prices; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based companies to compete with foreign-based companies in domestic and export markets.

The principles of Executive Order 12988 of February 5, 1996, Civil Justice Reform, have been incorporated where applicable.

The Administrator certifies that this regulatory amendment will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612. Pursuant to 5 U.S.C. 605(b), this rule is therefore exempt from the initial and final regulatory flexibility analyses requirements of sections 603 and 604.

Interested persons have been afforded an opportunity to participate in the making of this rule. No comments are received.

Comprehensive Summary

I. Implementation of the FOIA. These regulations implement the FOIA which codified Pub. L. 89-487 and amended section 3 of the Administrative Procedure Act, formerly 5 U.S.C. 1002 (1964 ed.). These regulations also implement Pub. L. 93-502, popularly known as the Freedom of Information Act Amendments of 1974, as amended by Pub. L. 99-570, the Freedom of Information Reform Act of 1986; the Electronic Freedom of Information Act Amendments of 1996, 5 U.S.C. 552, as amended by Pub. L. 104-231; and Executive Order 12600, Predisclosure Notification Procedures for Confidential Commercial Information, of June 23, 1987.

The revisions also update organizational references.
