Notice of Proposed Administrative De Minimis Settlement Pursuant to Section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act and Notice of Public Meeting and Proposed Settlement Pursuant to Section 7003(d) of the Resource Conservation and Recovery Act; In Re: Lenz Oil Services, Inc., Site, Lemont, IL

AGENCY: Environmental Protection Agency.

ACTION: Notice; request for public comment.

SUMMARY: In accordance with section 122(l)(1) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), and section 7003(d) of the Resource Conservation and Recovery Act, as amended ("RCRA"), notice is hereby given of a proposed administrative *de minimis* settlement under section 122(h)(1) of CERCLA and section 7003 of RCRA concerning the Lenz Oil Services, Inc., site ("Site") in Lemont, Illinois. Subject to review and comment by the public pursuant to this Notice, the agreement has been approved by the United States Department of Justice. Pursuant to RCRA section 7003(d), upon public request EPA will provide for a public meeting in the vicinity of the Site to discuss this settlement.

The settlement resolves an Environmental Protection Agency (EPA) claim under section 107(a) of CERCLA and section 7003 of RCRA, and a State of Illinois claim under section 22.2a of the Illinois Environmental Protection Act, against 618 parties who have executed binding certifications of their consent to the settlement, as listed below in the **SUPPLEMENTARY INFORMATION** section. However, the settlement is being modified as specified in an errata sheet to correct certain errors in the settlement documents and to supplement settlement terms relating to federal Agency settlors. Consequently, following the public comment period, each party who has executed a certification of its consent to the settlement will be provided with an

opportunity to ratify the errata changes, or to withdraw from the settlement without penalty.

The settlement requires the settling parties to pay a total of \$4,029,002.91 to the Hazardous Substances Superfund, Lenz Oil Services, Inc., Special Account. In addition, the settlement requires the settling parties to pay to reimburse the State of Illinois a total of \$1,240,446.20 for costs incurred relating to past response actions relating to the Site. The total of these payments by the settling parties is \$5,269,449.11. Each settling party is required to pay an amount specified for that party in the settlement based upon the volume of waste that party contributed to the Site; except as to twelve parties, who are paying a lesser amount which is based upon an analysis of their ability to pay the settlement. Payments received shall be applied, retained or used to finance the response actions taken or to be taken at or in connection with the Site, including payments for past response costs, future oversight costs and/or other future costs of conducting the response.

For thirty (30) days following the date of publication of this notice, and at the public meeting identified above, the Agency will receive written comments relating to the settlement. The Agency will consider all comments received and may modify or withdraw its consent to the settlement if comments received disclose facts or considerations which indicate that the settlement is inappropriate, improper, or inadequate. The Agency's response to any comments received will be available for public inspection at the Lemont Town Hall, 418 Main Street, Lemont, Illinois and at the EPA, Region 5, 7th Floor File Room, 77 West Jackson Boulevard, Chicago, Illinois.

DATES: Comments must be submitted on or before November 27, 1998.

ADDRESSES: The proposed settlement, including the errata sheet, and additional background information relating to the settlement are available for public inspection at the Lemont Town Hall, 418 Main Street, Lemont, Illinois, and at the EPA, Region 5, 7th Floor File Room, 77 West Jackson Boulevard, Chicago, Illinois. In addition, a copy of the proposed settlement also may be obtained from Stuart P. Hersh, Associate Regional Counsel (C-14J), Region V, 77 West Jackson Boulevard, Chicago, Illinois, 60604-3590, or by calling (312) 353-9484. Comments should reference the Lenz Oil Services Inc., Superfund Site, Lemont, Illinois and EPA Docket No. V-W-98-C-440 and should be addressed to Stuart P. Hersh, Associate Regional

Counsel (C-14J), Region V, 77 West Jackson Boulevard, Chicago, Illinois, 60604.

SUPPLEMENTARY INFORMATION: The parties listed below have executed binding certifications of their consent to participate in the settlement.

Lead-Based Paint Activities in Target Housing and Child-Occupied Facilities; State of Utah's Authorization Application

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for comments and opportunity for public hearing.

SUMMARY: On August 31, 1998, the State of Utah submitted an application for EPA approval to administer and enforce training and certification requirements, training program accreditation requirements, and work practice standards for lead-based paint activities in target housing and child-occupied facilities under section 402 of the Toxic Substances Control Act (TSCA). This notice announces the receipt of Utah's application, provides a 45-day public comment period and an opportunity to request a public hearing on the application. Utah has provided a certification that this program meets the requirements for approval of a State program under section 404 of TSCA. Therefore, pursuant to section 404, the program is deemed authorized as of the date of submission. If EPA finds that the program does not meet the requirements for approval of a State program, EPA will disapprove the program, at which time a notice will be issued in the **Federal Register** and the Federal program will be established.

DATES: Comments on the authorization application must be received on or before December 14, 1998.

ADDRESSES: Submit all written comments and/or requests for a public hearing identified by docket control number PB-402404-UT (in duplicate) to: Bruce Cooper, Environmental Protection Agency, Region VIII, 8P3-T, 999 18th St., Suite 500, Denver, CO 80202-2466. Comments, data, and requests for a public hearing may also be submitted electronically to: cooper.bruce@epa.gov. Follow the instructions under Unit IV. of this document. No information claimed to be Confidential Business Information (CBI) should be submitted through e-mail.

FOR FURTHER INFORMATION CONTACT:

Dave Combs, Regional Toxics Team Leader, 999 18th St., Suite 500, 8P3-T, Denver, CO 80202-2466; telephone: 303-312-6021; e-mail address: combs.dave@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On October 28, 1992, the Housing and Community Development Act of 1992, Pub. L. 102-550, became law. Title X of that statute was the Residential Lead-Based Paint Hazard Reduction Act of 1992. That Act amended TSCA (15 U.S.C. 2601 *et seq.*) by adding Title IV (15 U.S.C. 2681-92), entitled "Lead Exposure Reduction."

Section 402 of TSCA authorizes and directs EPA to promulgate final regulations governing lead-based paint activities in target housing, public and commercial buildings, bridges and other structures. Those regulations are to ensure that individuals engaged in such activities are properly trained, that training programs are accredited, and that individuals engaged in these activities are certified and follow documented work practice standards. Under section 404, a State may seek authorization from EPA to administer and enforce its own lead-based paint activities program.

On August 29, 1996 (61 FR 45777) (FRL-5389-9), EPA promulgated final TSCA section 402/404 regulations governing lead-based paint activities in target housing and child-occupied facilities (a subset of public buildings). Those regulations are codified at 40 CFR part 745, and allow both States and Indian Tribes to apply for program authorization. Pursuant to section 404(h) of TSCA, EPA is to establish the Federal program in any State or Tribal Nation without its own authorized program in place by August 31, 1998.

States and Tribes that choose to apply for program authorization must submit a complete application to the appropriate Regional EPA Office for review. Those applications will be reviewed by EPA within 180 days of receipt of the complete application. To receive EPA authorization, a State or Tribe must demonstrate that its program is at least as protective of human health and the environment as the Federal program, and provides for adequate enforcement (section 404(b) of TSCA, 15 U.S.C. 2684(b)). EPA's regulations (40 CFR part 745, subpart Q) provide the detailed requirements a State or Tribal program must meet in order to obtain EPA authorization.

A State may choose to certify that its lead-based paint activities program meets the requirements for EPA
