

Original Sheet No. 309A

CNG states that the purpose of this filing is to address pagination and supersession errors within Volume No. 1 of its tariff. At Sheet Nos. 142A, 153A, 162A and 173A, CNG seeks to establish reservation pages for sheets that were not effectively superseded by CNG's February 13, 1998 compliance filing in Docket No. CP96-492. Original Sheet No. 309A would recapture Sections 11B.4.B, 11B.4.C, and 11B.4.D from the General Terms and Conditions. CNG states that it inadvertently omitted these subsections of its tariff during the repagination of this area as filed in Docket No. RP97-406-005.

CNG states that copies of its letter of transmittal and enclosures are being mailed to CNG's customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.

[Docket No. CP99-14-000]

Columbia Gas Transmission Corporation; Notice of Request Under Blanket Authorization

October 23, 1998.

Take notice that on October 13, 1998, Columbia Gas Transmission Corporation (Columbia), 12801 Fair Lakes Parkway, Fairfax, Virginia 22030-0146, filed in Docket No. CP99-14-000 a request pursuant to Sections 157.205 and 157.211 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205 and 157.211) for

authorization to construct and operate additional points of delivery for firm transportation service to existing customers, under Columbia's blanket certificate issued in Docket No. CP83-76-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request that is on file with the Commission and open to public inspection.

Columbia states that the customers involved are Mountaineer Gas Company (MGC) and Columbia Gas of Ohio, Inc. (COH). The location of the new point of delivery for MGC is in Upshur County, West Virginia and COH's two new points of delivery are in Medina County, Ohio. The estimated quantities of natural gas to be delivered for each of the three new points of delivery is 1.5 Dth/day and 150 Dth/annually. The end use of gas for all three is residential and the estimated costs to establish the three new points of delivery is approximately \$150 each and will be treated as O&M Expenses.

Columbia proposes to construct and operate a new point of delivery to MGC in Upshur County, West Virginia which will involve construction of interconnecting facilities located on Columbia's existing right-of-way. MGC will install a meter within Columbia's existing right-of-way to provide this service. The new point of delivery will allow MGC to serve Steve Carpenter, a residential customer.

Columbia proposes to construct and operate the new points of delivery to COH in Medina County, Ohio which will involve construction of interconnecting facilities located on Columbia's existing right-of-way. COH will install meters within Columbia's existing right-of-way to provide these services. The new points of delivery will allow COH to serve Tim A. Hawkins and Paul Stafinski, both are residential customers.

Columbia states that the new points of delivery will have no effect on peak day and annual deliveries, that its existing tariff does not prohibit the addition of new delivery points and that deliveries will be accomplished without detriment or disadvantage to its other customers and that the total volumes delivered will not exceed total volumes authorized prior to this request.

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to Section 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is

filed within the time allowed therefore, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Linwood A. Watson, Jr.,

Acting Secretary.

Federal Energy Regulatory Commission

[Docket No. CP99-16-000]

Dauphin Island Gathering Partners; Notice of Application

October 23, 1998.

Take notice that on October 13, 1998, Dauphin Island Gathering Partners (DIGP), 370 17th Street, Suite 900, Denver, Colorado, 80202, filed in Docket No. CP99-16-000 an application pursuant to Section 7(c) of the Natural Gas Act for authorization to lease additional capacity created by Texas Eastern Transmission Corporation (Texas Eastern) as a result of the construction of loop line on Texas Eastern's Main Pass System located offshore Louisiana, all as more fully set forth in the application on file with the Commission and open to public inspection.

DIGP requests authorization to lease 100,000 dt equivalent of capacity per day from Texas Eastern, which would be the incremental capacity created by Texas Eastern's proposed construction. It is asserted that DIGP would use the capacity to transport gas for its shippers from Texas Eastern's Main Pass Block 164 to the Venice Gas Processing Plant in Plaquemines Parish, Louisiana. Texas Eastern has filed an application requesting certificate authorization for the construction in Docket No. CP99-18-000.

It is stated that DIGP needs the capacity to transport natural gas reserves from the offshore Main Pass and Viosca Knoll Areas to satisfy increased demand by DIGP's customers. It is asserted that DIGP would levy an incremental charge of between \$0.00 and \$0.10 per dt equivalent on those shippers using the additional capacity. It is explained that this would allow DIGP to recover its monthly lease payment to Texas Eastern from those shippers benefiting from the additional

capacity and that no other customers' rates would be affected. It is stated that the primary term of the capacity lease would be 15 years, commencing January 1, 2000.

Any person desiring to be heard or to make any protest with reference to said application should on or before November 13, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 of 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for DIGP to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP97-609-001]

Northern Natural Gas Company; Notice of Petition To Amend

October 23, 1998.

Take notice that on October 13, 1998, Northern Natural Gas Company

(Northern), 1111 South 103rd Street, Omaha, Nebraska 68124, filed in Docket No. CP97-609-001 a petition to amend the order issued November 3, 1997, in Docket No. CP97-609-000, *et al.*, pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon by sale to Western Gas Resources, Inc. (WGR) unit 6 at the Mitchell compressor station in Pecos County, Texas, rather than by removal, all as more fully set forth in the petition on file with the Commission and open to public inspection.

It is stated that by order issued November 3, 1997, Northern was authorized to abandon by sale to WGR certain compression facilities, with appurtenances, located in Pecos County, Texas, (Mitchell facilities) and the services rendered thereby. It is also stated that the November 3, 1997, order authorized Northern to abandon by removal units 5 and 6 at the Mitchell compressor station. It is further stated that concurrent with the approval of Northern's abandonment, the Commission declared in Docket No. CP96-641-000 that once acquired by WGR, the Mitchell facilities would perform a non-jurisdictional gathering function. Northern states that the sale closed effective December 31, 1997, and the facilities have been utilized in WGR's non-jurisdictional gathering operations since that date.

Northern states that due to enhanced recovery processes, gas supplies upstream of the Mitchell facilities have increased such that unit 6, which was previously thought to be unneeded, is now required for containing efficient operations of the gathering facilities connected to the subject facilities. Therefore Northern requests amendment of the November 3, 1997, order to approve the abandonment of unit 6 by sale to WGR, rather than by removal.

Any person desiring to be heard or to make any protests with reference to said petition to amend should on or before November 13, 1998, file with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (19 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene

in accordance with the Commission's Rules.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP99-19-001]

Panhandle Eastern Pipe Line Company; Notice of Compliance Filing

October 23, 1998.

Take notice that on October 21, 1998, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing as part of its FERC Gas Tariff, First revised volume No. 1, the following tariff sheets to be effective November 2, 1998:

Original Sheet No. 239C

Fourth Revised Sheet No. 265

Panhandle states that the purpose of this filing is to supplement Panhandle's filing of October 1, 1998 in the subject docket to comply with Order No. 587-H, Final Rule Adopting Standards for Intra-day Nominations and Order Establishing Implementation Date issued on July 15, 1998 in Docket No. RM96-1-008. The tariff sheets listed above revise Sections 8.2(b) and 12.11(h) of the General Terms and Conditions to clarify that bumped interruptible shippers will be notified of such bump through the LINK System, the Web Site and by telephone and facsimile communication, and that the daily scheduling charge will not apply for the day of the bump.

Panhandle states copies of this filing are being served on all affected customers, applicable state regulatory agencies and all parties to this proceeding.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules and Regulations. All such protests must be filed as provided in Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public
