• The Standards Council of Canada (SCC) voted to end its Laboratory Accreditation Program for Substance Abuse (LAPSA) effective May 12, 1998. Laboratories certified through that program were accredited to conduct forensic urine drug testing as required by U.S. Department of Transportation (DOT) regulations. As of that date, the certification of those accredited Canadian laboratories will continue under DOT authority. The responsibility for conducting quarterly performance testing plus periodic on-site inspections of those LAPSA-accredited laboratories was transferred to the U.S. DHHS, with the DHHS' National Laboratory Certification Program (NLCP) contractor continuing to have an active role in the performance testing and laboratory inspection processes. Other Canadian laboratories wishing to be considered for the NLCP may apply directly to the NLCP contractor just as U.S. laboratories do. Upon finding a Canadian laboratory to be qualified, the DHHS will recommend that DOT certify the laboratory (FR, 16 July 1996) as meeting the minimum standards of the "Mandatory Guidelines for Workplace Drug Testing" (59 FR, 9 June 1994, Pages 29908-29931). After receiving the DOT certification, the laboratory will be included in the monthly list of DHHS certified laboratories and participate in the NLCP certification maintenance program.

#### Substance Abuse and Mental Health Services Administration

#### Notice of Listing of Members of the Substance Abuse and Mental Health Services Administration's Senior Executive Service Performance Review Board (PRB)

The Substance Abuse and Mental Health Services Administration (SAMHSA) announces the persons who will serve on the Substance Abuse and Mental Health Services Administration's Performance Review Board. This action is being taken in accordance with Title 5, U.S.C., Section 4314(c)(4), which requires that members of performance review boards be appointed in a manner to ensure consistency, stability, and objectivity in performance appraisals, and requires that notice of the appointment of an individual to serve as a member be published in the **Federal Register**.

The following persons will serve on the SAMHSA Performance Review Board, which oversees the evaluation of performance appraisals of SAMHSA's Senior Executive Service (SES) members: Joseph Autry, M.D., Chairperson; Bernard S. Arons, M.D.; Ruth Sanchez-Way, Ph.D.; and William Robinson, M.D.

For further information about the SAMHSA Performance Review Board, contact the Division of Human Resources Management, Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Room 14 C-24, Rockville, Maryland 20857, telephone (301) 443-5030 (not a toll-free number).

Dated: October 26, 1998.

### Bureau of Land Management

[OR-110-6333-00; GP9-0016]

#### Closure of Public Lands; Oregon

**AGENCY:** Bureau of Land Management, Medford District Office, Ashland Resource Area.

**ACTION:** Emergency Closure of Bureau of Land Management Administered Roads—Jackson County, Oregon.

**SUMMARY:** Notice is hereby given that certain BLM roads in Jackson County,

Oregon are hereby closed to all motorized vehicles including off-road vehicles from October 23, 1998 until notice is rescinded. The closure is made under the authority of 43 CFR 9268.3(d)(1)(ii) and 8364.1(a).

The roads and the conditions of this emergency road closure are identified as follows: Roads 41-2E-3, 41-2E-9, 41-2E-10.0, 41-2E-10.1 and connecting spur roads are hereby seasonally closed. These roads are located in Sections 2, 3, 10, 11, and 12 of T. 41 S., R. 2 E., and Sections 5, 6, and 7 of T. 41 S., R. 3 E., Willamette Meridian, Jackson County, Oregon. In addition, the road located next to Scotch Creek in Section 1, T. 41 S., R. 2 E. (W. M.) is hereby permanently closed under this order.

Any person who fails to comply with the provisions of this closure order may be subject to the penalties provided in 43 CFR 8360.0-7, which include a fine not to exceed \$1,000.00 and/or imprisonment not to exceed 12 months, as well as the penalties provided under Oregon State law.

The roads temporarily closed to motorized use under this order will be posted with signs at barricaded locations.

The purpose of this emergency temporary closure is to prevent excessive erosion, and to protect recent BLM investments in road maintenance work.

This closure is effective from October 23, 1998 until this notice is rescinded.

**FOR FURTHER INFORMATION CONTACT:** Joe Hoppe, Realty Specialist, at (541) 770-2200.

Dated: October 23, 1998.

## DEPARTMENT OF INTERIOR

### Bureau of Land Management

[UT-069-1990-00]

#### San Juan and Grand Resource Management Plans; Notice of Intent

**AGENCY:** Bureau of Land Management, Interior.  
**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of intent to prepare Environmental Impact Statement (EIS) and amend the San Juan Resource Management Plan (SJRMP) and the Grand Resource Management Plan (GRMP). Call for information on potential Areas of Critical Environmental Concern (ACEC) and Wild and Scenic Rivers (W&SR).

**SUMMARY:** The Bureau of Land Management (BLM) is proposing to prepare an Environmental Impact Statement to consider proposed amendments to the SJRMP and the GRMP in the Lockhart Basin Area of San Juan County, Utah.

**DATES:** Public comment opportunities for identification of issues for the proposed plan amendment will commence with the date of publication of this notice. Comments must be submitted on or before December 2, 1998.

**FOR FURTHER INFORMATION CONTACT:** Kent Walter, Monticello Field Office Manager, Bureau of Land Management, 435 North Main Street, P.O. Box 7, Monticello, Utah 84535, telephone (801) 587-1500. Comments on issues to be addressed in the proposed plan amendment should be sent to the above address.

**SUPPLEMENTARY INFORMATION:** On December 10, 1997, the San Juan Resource Area (SJRA) of the Moab District published in the **Federal Register**, a Notice of Intent to prepare an Environmental Assessment (EA) level plan amendment for the SJRMP. This EA level amendment was originally proposed in order to provide additional recreational guidance for portions of the SJRMP in the Indian Creek Area and Canyon Basins Special Recreation Area, citing that since the completion of the SJRMP in March 1991, significant increases in recreation use has led to degradation of sensitive resources including riparian areas, cultural sites, visual resources etc. Upon publication of the **Federal Register** Notice, a public scoping effort was initiated.

Additionally, on January 13, 1998, the Moab and Monticello Field Offices, published in the **Federal Register**, a second Notice of Intent to prepare an EA level plan amendment for the Lockhart Basin area. The preliminary issues for this amendment involved visual resources, wildlife relative to current oil and gas categorization and resulting conflicts with other sensitive resource values.

It is the determination of the Bureau of Land Management that the public scoping efforts for both of these proposed amendments have identified significant concerns that should be addressed in an EIS amendment format and should include cross jurisdictional issues between the two BLM Field Offices. Issues that have been identified to be addressed in the new EIS level amendment are as follows:

(a) Livestock re-classification and forage reallocation for bighorn sheep to

enhance bighorn sheep management and reduce interspecies conflict.

(b) Potential reclassification of current oil and gas categories to enhance wildlife habitat protection and visual resource management,

(c) The implication of increased recreation use on BLM administered public lands in relation to Canyonlands National Park,

(d) The potential designation of Areas of Critical Environmental Concern, and inventory/classification of Wild and Scenic Rivers,

(e) Potential Off Highway Vehicle (OHV) closures in areas known to cause degradation of sensitive resources,

(f) Review and possible incorporation of Utah Rangeland Health Standards as appropriate,

(g) Re-evaluation of Visual Resource Management (VRM) Classes.

(h) Consideration of the need for mineral withdrawal in certain portions of the area.

(i) Special management considerations in support of long term research and monitoring.

A separate activity level (site specific) camping facilities plan for the Indian Creek area is still under preparation and will continue. This plan is considered in conformance with the current SJRMP and will be incorporated by reference into the proposed SJRMP Amendment.

This notice provides an opportunity for the public to participate in the revised EIS level plan amendment. Additional comment opportunities on the revised scope of this project will be available as the planning/NEPA process continues.

No additional planning criteria are proposed for this effort beyond those previously identified in the SJRMP or GRMP.

This notice is also to advise the public that the BLM is seeking additional public input regarding potential areas that could be considered for either ACEC designation and or W&SR study and evaluation, as well as to seek additional public input on those areas that have already been nominated within the Lockhart Basin area. The Bureau of Land Management will determine what areas, if any, should be designated as Areas of Critical Environmental Concern (ACEC). To be considered as a potential ACEC, and analyzed in a management plan alternative, an area must meet the criteria of "relevance and importance" as established and defined in 43 CFR 1610. An area meets the "relevance" criteria if it contains one of more of the following: (1) Significant historic, cultural, or scenic values, (2) fish and wildlife resource (including sensitive

species, or it's relative habitat or habitat essential for maintaining species diversity), (3) natural processes or systems (including rare, endemic, relic plants or communities and riparian areas), and (4) natural hazards such as severe avalanche, flooding, seismic activity, etc.

The "importance" criteria is used to insure that a specific resource or value, process or hazard has substantial significance and values. Importance can be characterized as follows: (1) Being more than locally significant, having special worth, (2) having qualities or circumstances that make it fragile, sensitive, rare, irreplaceable, unique, endangered or threatened, meaningful or distinctive, (3) has been recognized as warranting protection in order to satisfy national priorities or to carry out the mandates of FLPMA, and (4) has qualities which warrant concern to satisfy public or management concerns regarding public welfare and safety.

All ACEC nominations will receive a preliminary evaluation by an interdisciplinary team to determine if the area meets the "relevance" and "importance" criteria. Nominations should include descriptive materials, detailed maps and evidence supporting the relevance and importance of the resource. Additionally, public nominations are also being sought for those river segments which may be eligible for inclusion into the National Wild & Scenic River System.

In order to be considered, the body of water must be free flowing. A river segment can be determined free flowing if it is a flowing body of water, estuary, or section, portion, or tributary thereof including, rivers, streams, creeks, runs, kills, rills, and small lakes. River segments can be any size and must be existing or flowing in natural conditions without major modification. All nominations should be accompanied by detailed maps and descriptions.

Dated: October 27, 1998.
