SUPPLEMENTARY INFORMATION:

Background

On March 1, 1985, the Department of Commerce issued an antidumping duty order on imports of brass fire protection products from Italy (50 F.R. 8354). The Commission is conducting a review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time.

Definitions

The following definitions apply to this review:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The Subject Country in this review is Italy.

(3) The Domestic Like Product is the domestically produced product or

products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. For purposes of this notice, there are two Domestic Like Products, brass siamese connections and brass pressure-restricting valves for use in fire protection systems. In its original determination concerning brass fire protection products, the Commission defined seven Domestic Like Products (brass siamese connections, brass pressure-restricting valves, brass fog/straight stream nozzles, brass wedge disc gate valves, brass angle-type hose valves, brass pressure-regulating valves, and brass fire hose couplings); however, the Commission made affirmative findings only with respect to brass siamese connections and brass pressure-restricting valves.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the product. For purposes of this notice, there are two Domestic Industries, producers of brass siamese connections and producers of brass pressure-restricting valves for use in fire protection systems. In its original determination concerning brass fire protection products, the Commission defined seven Domestic Industries; however, the Commission made affirmative findings only with respect to producers of brass siamese connections and brass pressure-restricting valves.

(5) The Order Date is the date that the antidumping duty order under review became effective. In this review, the Order Date is March 1, 1985.

(6) An Importer is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the Subject Merchandise into the United States from a foreign manufacturer or through its selling agent.

Participation in the Review and Public Service List

Persons, including industrial users of the Subject Merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission's rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Limited Disclosure of Business Proprietary Information (BPI) Under an Administrative Protective Order (APO) and APO Service List

Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the review. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Certification

Pursuant to section 207.3 of the Commission's rules, any person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter's knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

(b) the quantity and value (f.o.b. U.S. port, including antidumping and/or countervailing duties) of U.S. commercial shipments of Subject

Supply conditions to consider include technology; production methods; development efforts; ability to increase production (including the shift of production facilities used for other products and the use, cost, or availability of major inputs into production); and factors related to the ability to shift supply among different national markets (including barriers to importation in foreign markets or changes in market demand abroad). Demand conditions to consider include end uses and applications; the existence and availability of substitute products; and the level of competition among the Domestic Like Product produced in the United States, Subject Merchandise produced in the Subject Country, and such merchandise from other countries.

(11) (OPTIONAL) A statement of whether you agree with the above definitions of the Domestic Like Product and Domestic Industry; if you disagree with either or both of these definitions, please explain why and provide alternative definitions.

SUPPLEMENTARY INFORMATION:

Background

On September 27, 1982, the Department of Commerce suspended a countervailing duty investigation on imports of carbon steel wire rod from Argentina (47 F.R. 42393). On November 23, 1984, the Department of Commerce issued an antidumping duty order on imports of carbon steel wire rod from Argentina (49 F.R. 46180). The Commission is conducting reviews to determine whether termination of the suspended countervailing duty investigation and/or revocation of the antidumping duty order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time.

Definitions

The following definitions apply to these reviews:

(1) Subject Merchandise is the class or kind of merchandise that is within the scope of the five-year reviews, as defined by the Department of Commerce.

(2) The Subject Country in these reviews is Argentina.

(3) The Domestic Like Product is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the Subject Merchandise. For purposes of this notice, the Domestic Like Product is all carbon steel wire rod. In its original determination concerning the antidumping duty investigation, the Commission concluded that low-carbon and high-carbon steel wire rod were separate Domestic Like Products. Because domestic producers were not able to provide separate data for those products, however, the Commission in effect examined a single Domestic Like Product consisting of all carbon steel wire rod. There was no Commission determination concerning the suspended countervailing duty investigation.

(4) The Domestic Industry is the U.S. producers as a whole of the Domestic Like Product, or those producers whose collective output of the Domestic Like Product constitutes a major proportion of the total domestic production of the
