DEPARTMENT OF TRANSPORTATION

Office of the Secretary

Notice of Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits Filed Under Subpart Q During the Week Ending October 30, 1998

The following Applications for Certificates of Public Convenience and Necessity and Foreign Air Carrier Permits were filed under Subpart Q of the Department of Transportation's Procedural Regulations (See 14 CFR 302.1701 *et. seq.*). The due date for Answers, Conforming Applications, or Motions to Modify Scope are set forth below for each application. Following the Answer period DOT may process the application by expedited procedures. Such procedures may consist of the adoption of a show-cause order, a tentative order, or in appropriate cases a final order without further proceedings.

Docket Number: OST-98-4660.

Date Filed: October 28, 1998.

Due Date for Answers, Conforming Applications, or Motions to Modify Scope: November 25, 1998.

Description: Application of Continental Micronesia Inc., pursuant to 49 U.S.C. 41102 and Subpart Q, applies for renewal of Segment 7 of its Route 171 authority for at least a five-year period.

Dorothy W. Walker,

Federal Register Liaison.

Federal Aviation Administration

Advisory Circular; Manufacturing Process of Premium Quality Titanium Alloy Rotating Engine Components

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of issuance of Advisory Circular (AC).

SUMMARY: This notice announces the issuance of Advisory Circular (AC), No. 33.15-1, Manufacturing Process of Premium Quality Titanium Alloy Rotating Engine Components. This AC provides guidance and information for compliance pertaining to the materials suitability and durability requirements, § 33.15, as applicable to the manufacture of titanium alloy high energy rotating parts of aircraft engines. Like all AC material, this AC is not, in itself, mandatory and does not constitute a regulation. It is issued to provide an acceptable means, but not the only means, of compliance with § 33.15. While these guidelines are not mandatory, they are derived from extensive Federal Aviation Administration (FAA) and industry experience in determining compliance with the pertinent regulations.

DATES: Advisory Circular No. 33.15-1, was issued by the New England Aircraft Certification Service, Engine and Propeller Directorate on September 22, 1998.

FOR FURTHER INFORMATION CONTACT: Tim Mouzakis, Engine and Propeller Standards Staff, ANE-110, 12 New England Executive Park, Burlington, MA, 01803, telephone (781) 238-7114, fax (781) 238-7199.

SUPPLEMENTARY INFORMATION:

Background

Advisory Circulars 21-1B, 21-6A, 21-9A, 21-27, and 21.303-1A, provide a means to obtain and maintain production approvals; however, these

documents do not fully cover the manufacturing processes used in the manufacture of premium quality titanium alloy forged rotating components for type certificated turbine engines. This AC, therefore, provides supplemental guidance for the establishment of manufacturing processes, in process material and component inspections, and finished component inspections, for manufacture of premium quality titanium alloy forged rotating components, such as disks, spacers, hubs, shafts, spools and impellers, but not blades.

Interested parties were given the opportunity to review and comment on the draft AC during the proposal and development phases. Notice was published in the **Federal Register** on July 17, 1997 (62 FR 38338), to announce the availability of, and comment to the draft AC.

This advisory circular, published under the authority granted to the Administrator by 49 U.S.C. 106(g), 4113, 44701-44702, 44704, provides guidance for these requirements.

Issued in Burlington, Massachusetts, on September 22, 1998.

Jay J. Pardee,

Manager, Engine and Propeller Directorate, Aircraft Certification Service.

Federal Aviation Administration

Advisory Circular 23.1419-2A, Certification of Part 23 Airplanes for Flight in Icing Conditions

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of issuance of advisory circular.

SUMMARY: This notice announces the issuance of Advisory Circular (AC) 23.1419-2A, Certification of Part 23 Airplanes for Flight in Icing Conditions. This AC sets forth an acceptable means, but not the only means of demonstrating compliance with the ice protection requirements in Title 14 of the Code of Federal Regulations (14 CFR) Part 23. The Federal Aviation Administration (FAA) will consider other methods of demonstrating compliance that an applicant may elect to present.

DATES: Advisory Circular 23.1419-2A was issued by Acting Manager, Small Airplane Directorate, Aircraft Certification Service, ACE-100, on August 19, 1998.

How to obtain copies: A copy may be obtained by writing the U.S. Department of Transportation, Subsequent Distribution Office, DOT Warehouse SVC-121.23, Ardmore East Business Center, 3341 Q 75th Avenue, Landover, MD 20785, or by faxing your request to that office at 301-386-5394.

Issued in Kansas City, Missouri, on October 29, 1998.

Michael Gallagher,

Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

Environmental Impact Statement: Douglas County, CO

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement/4(f) evaluation will be prepared for transportation improvements in Douglas County, Colorado.

FOR FURTHER INFORMATION CONTACT: Mr. Joe Duran, FHWA, Colorado Division, 555 Zang Street, Room 250, Lakewood, CO, 80228, Telephone: (303) 969-6730 extension 385, or Ms. Theresa Tiehen, Colorado Department of Transportation, Region 1, 18500 East Colfax Avenue, Aurora, CO 80011, Telephone: (303) 757-9285.

SUPPLEMENTARY INFORMATION: The FHWA in cooperation with the Colorado Department of Transportation (CDOT) will prepare an environmental impact statement (EIS)/Section 4(f) evaluation for transportation improvements on Interstate 25 (I-25) between the I-25/Lincoln Avenue interchange (I-25 Milepost 193) and south of Castle Rock (I-25 Milepost 178) a distance of approximately 15 miles and on Colorado State Highway 85 (SH 85) as an alternative route between the Colorado 470 (C-470) (SH 85 Milepost 200) and the SH 85/I-25 interchange in Castle Rock (SH 85 Milepost 184) a distance of approximately 16 miles. The EIS will be conducted in conjunction with a major investment study (MIS) for the I-25 and SH 85 north-south corridor between Castle Rock and Denver. The proposed improvements will be identified in the MIS and the EIS/Section 4(f) evaluation.

The MIS and EIS/Section 4(f) evaluation will evaluate improvement

alternatives to compare to the No-Build Alternative. These alternatives include additional general purpose lanes on I-25 and SH 85, toll facility lanes on I-25, exclusive bus/carpool lanes on I-25, rail alternatives along I-25 and SH 85, transportation management options (such as transportation systems management, transportation demand management and intelligent transportation systems), new or improved interchanges on I-25, and combinations of the various alternatives. The EIS will satisfy the requirements of the 1990 Clean Air Act Amendments.

Letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies. Project scoping will be accomplished through coordination with affected parties, organizations, federal, state, and local agencies and through public meetings in the project corridor. Information on the time and place of the public scoping meetings will be provided in the local newspapers. To be placed on the public mailing list to receive additional project information, contact Theresa Tiehen at the address previously provided. The MIS and draft EIS/Section 4(f) evaluation will be available for public and agency review and comment prior to the public hearing.

To ensure that a full range of issues related to the proposed action are addressed and all significant issues identified, comments, and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS/Section 4(f) evaluation should be directed to Theresa Tiehen at the CDOT address previously provided.

(Catalog of Federal Domestic Assistance Program Number 20.205, Highway Planning and Construction. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program)

Issued on: October 20, 1998.

Ronald A. Speral,

Environmental/ROW Program Manager, Colorado Division, Federal Highway Administration, Lakewood, Colorado.

BILLING CODE 4910-22-M

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 33666]

Belt Line Division of Tacoma Public Utilities—Operation Exemption—in Pierce, Thurston and Lewis Counties, WA

Belt Line Division of Tacoma Public Utilities (Belt Line), an existing Class III carrier,¹ has filed a verified notice of exemption under 49 CFR 1150.41 to operate approximately 131.5 miles of the City of Tacoma, WA (City), rail line (the line) in Pierce, Thurston, and Lewis Counties, WA: (1) between milepost 2192.0, at Tacoma, and milepost 17.7, at Chehalis; and (2) between milepost 2192.0, at Tacoma, and milepost 64.2, at Morton. The lines have been operated previously by Tacoma Eastern Railway Company (TE).²

Pursuant to 49 CFR 1150.42(e), Belt Line certified on October 23, 1998, that its annual revenues exceed \$5 million and that it has, as of September 23, 1998, served the national offices of the labor unions with a copy of a notice of its intent to undertake this transaction and posted such notice at the workplace of the employees on the affected lines on September 23, 1998.

The transaction was expected to be consummated on or after October 30, 1998.³

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance

¹ Applicant represents that the Charter of the City divides its operations into Public Utilities and General Government. The General Government portion of the City evidently owns the lines discussed in this notice and is negotiating with the Public Utilities portion of the City, which is evidently responsible for operations. Belt Line currently operates a shortline railroad in support of the Port of Tacoma.

² The Board recently granted the City's application under 49 U.S.C. 10903 permitting the discontinuance of operations by TE over the line. See *Tacoma Eastern Railway Company—Adverse Discontinuance of Operations Application—a Line of City of Tacoma, in Pierce, Thurston and Lewis Counties, WA*, STB Docket No. AB-548 (STB served Oct. 16, 1998).

³ The date of consummation under normal circumstances would be December 22, 1998 (60 days after Belt Line's certification to the Board that it had complied with the Board's rule at 49 CFR 1150.42(e)). In a decision in this proceeding served on October 30, 1998, the Board found that sufficient notice to rail employees and their representatives had been given under the circumstances of this case and, at the request of Belt Line, waived, in part, the 60-day period to allow consummation on October 30, 1998.
