j. *Comment Date:* See attached paragraph D10.

k. *Status of Environmental Analysis:* This application has been accepted, and, pursuant to § 4.30(b)(25), is ready for environmental analysis at this time—see attached paragraph D10. The Commission acknowledges that information related to water quality studies in the project's bypassed reach has not been filed. However, the study itself has been completed, and is currently being reviewed by various resource agencies. This information, including agency comments, is expected to be filed by November 15, 1998. The results of the water quality study, as well as any other information asked for during the environmental analysis, will be considered during the preparation of the environmental impact statement once it's been filed with the Commission. The application and additional information is substantially complete, and the environmental analysis will proceed on the issues as set forth in Scoping Document 2 and in the application materials.

l. *Description of Project:* The proposed run-of-river project would consist of the following features: (1) an approximately 1,000-foot-long masonry dam to elevation 97.47 feet National Geodetic Vertical datum, topped with a 3.1-foot-high rubber dam; (2) upstream and downstream fish passage facilities; (3) a 2,290-acre reservoir that extends approximately 25 miles upstream; (4) a three-level canal system adjacent to the river with headgates at the dam; (5) six separate hydroelectric facilities, named Hadley Falls Station, Riverside Station, Boatlick Station, Beebe-Holbrook Units, Skinner Unit and Chemical Units, and except for the Hadley Falls Station which has its intake structure adjacent

to the canal headgate structure, the facilities withdraw water from the canal system; (6) a total nameplate capacity of 43,756 kilowatts; (7) transmission line connections; and (8) appurtenant facilities. The estimated average annual generation is about 223,389 megawatt-hours.

m. *Purpose of Project:* The power generated by the project is used for station service on site and sold to industrial customers in Holyoke, with the remainder transmitted to other utilities for resale outside of Holyoke.

n. *This notice also consists of the following standard paragraphs:* D10.

o. *Available Locations of Application:* A copy of the application, as supplemented, is available for inspection and reproduction at the Commission's Public Reference and Files and Maintenance Branch, located at 888 First Street, N.E., Room 2A-1, Washington, D.C. 20426, or by calling (202) 208-2326.
