[Program Announcement 99023]

#### Notice of Availability of Funds; Cooperative Agreement for National Programs To Prevent HIV Infection and Other Important Health Problems Among Youth Strengthen Coordinated School Health Programs

##### I. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1999 funds for cooperative agreements that establish national programs to prevent behaviors that place elementary through college-aged young people at risk for human immunodeficiency virus (HIV) infection, other sexually transmitted diseases (STDs), unintended pregnancy, and other important health problems. CDC expects to award cooperative agreements to national organizations that can become an integral part of a broad national strategy to prevent and reduce (1) sexual behaviors that result in HIV infection, STDs, and unintended pregnancy; (2) alcohol and other drug use; (3) tobacco use; (4) dietary patterns that result in disease; (5) intentional and unintentional injury; and (6) sedentary lifestyles among young people. Applicants may apply for one of the three following priority areas:

*Priority 1:* Strengthen the capacity of national, state, and/or local agencies to help schools prevent behaviors that place all young people at risk and particularly those from communities of color for human immunodeficiency virus (HIV) infection, other sexually transmitted diseases (STDs), unintended pregnancy, and other important health problems.

##### Special Emphasis Area

Additional funding is available to expand activities to enable the nations' schools to develop programs to prevent teenage pregnancies. National organizations that receive funds to support activities in this special emphasis area must represent state and local education and health policymakers, administrators, or school personnel who develop teenage pregnancy prevention programs. Recipients of awards for teenage pregnancy prevention funds also must apply for and receive an award for Priority Area 1.

*Priority 2:* Strengthen the capacity of postsecondary institutions to work with

national, state, and/or local agencies to prevent behaviors that place all young people at risk particularly those from communities of color for HIV infection, other STDs, unintended pregnancy, and other important health problems.

*Priority 3:* Strengthen the capacity of organizations that serve young people in high-risk situations and young people within communities of color, to work with national, state, and/or local agencies to prevent behaviors that place these young people at risk for HIV infection, other STDs, unintended pregnancy, and other important health problems. A list of young people considered to be in high-risk situations is included as Attachment C in this program announcement.

This program addresses the Healthy People 2000 with a particular focus on the education and community-based programs priority area. CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," an activity to reduce morbidity and mortality and improve the quality of life.

##### II. Eligible Applicants

Eligible applicants are national health, education, and social service organizations including national parent and minority organizations that are private, nonprofit, professional, or voluntary. A parent organization represents parents whose purpose is to promote the health and well-being of school-aged children.

Eligible organizations must have affiliate offices or local, state, or regional membership constituencies in a minimum of 10 states and territories. Affiliate offices and local, state, or regional membership constituencies may not apply in lieu of, or on behalf of, their national office. For profit agencies are not eligible to apply. Colleges and universities are not eligible to apply.

To be considered a national minority organization, eligible applicants must meet the following criteria:

1. At least 51 percent of persons on the governing board must be members of racial or ethnic minority populations.

2. The organization must possess a documented history of serving racial or ethnic minority populations through its offices, affiliates, or participating organizations at the national level for at least 12 months before the submission of the application.
