DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Docket 52-98]

Foreign-Trade Zone 15—Kansas City, MO, Expansion of Facilities and Manufacturing Authority—Subzone 15D, Bayer Corporation Plant (Pharmaceuticals), Kansas City, Missouri

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Greater Kansas City Foreign-Trade Zone, Inc., grantee of FTZ 15, requesting on behalf of the Bayer Corporation (Bayer), to expand the scope of manufacturing authority under zone procedures and to add two sites within Subzone 15D, at the Bayer plant in Kansas City, Missouri. It was formally filed on November 16, 1998.

Subzone 15D was approved by the Board in 1988 at a single site (59 bldgs./750,000 sq. ft. on 112 acres) located at 8400 Hawthorn Road in Kansas City, Missouri, with authority granted for the manufacture of agricultural and specialty chemicals for the control of insects, weeds and plant diseases (Board Order 440, 54 FR 38413, September 18, 1989).

Bayer is now proposing to add two sites (300 employees) and expand the scope of authority for manufacturing activity conducted under FTZ procedures at Subzone 15D to include animal and human pharmaceutical products. Proposed *Site 2* (10 bldgs./720,000 sq. ft. on 55 acres after

completion of current expansion) is the main production site of Bayer's Animal Health Division, located at 12707 Shawnee Mission Parkway, Shawnee, Kansas, some 15 miles southwest of existing *Site 1*. (Approximately, one-third of the land is leased from the City of Shawnee.) The company may also produce human health pharmaceutical products at the Shawnee plant in the future. Proposed *Site 3* (1 bldg./164,000 sq. ft. on 3.76 acres) is a leased warehouse located at 5101 Speaker Road, Kansas City, Kansas, some 10 miles west of *Site 1*.

At the outset, the company is expecting to manufacture Co-Ral®, Lysoff®, Spotton® and Tiguvon® animal health products (all HTSUS 3808.10.2500, duty rate .4¢/kg. + 7.1%) under zone procedures. Foreign-sourced materials, including coumafos (HTSUS 2932.29.10, duty rate 10.1%) and fenthion (HTSUS 2920.10.4000, duty rate 10.1%), will account for, on average, 30 percent of material value. The company may also purchase from abroad other ingredients and materials related to pharmaceutical manufacturing activity in the following general categories: Gums, starches, waxes, vegetable extracts, mineral oils, sugars, empty capsules, protein concentrates, prepared animal feed, mineral products, inorganic acids, chlorides, chlorates, sulfites, sulfates, phosphates, cyanides, silicates, radioactive chemicals, rare-earth metal compounds, hydroxides, hydrazine and hydroxylamine, chlorides, phosphates, carbonates, hydrocarbons, alcohols, phenols, ethers, epoxides, acetals, aldehydes, ketone function compounds, mono- and polycarboxylic acids, phosphoric esters, amine-, carboxymide, nitrile- and oxygen-function compounds, heterocyclic compounds, sulfonamides, insecticides, rodenticides, fungicides and herbicides, fertilizers, vitamins, hormones, antibiotics, gelatins, enzymes, pharmaceutical glaze, essential oils, albumins, gelatins, activated carbon, residual lyes, acrylic polymers, silicones, color lakes, soaps and detergents, various packaging and printing materials, medicaments, pharmaceutical products, and instruments and appliances used in medical sciences.

FTZ procedures would exempt Bayer from Customs duty payments on the foreign components used in export activity (about 5% of shipments). On its domestic sales, the company would be able to elect the duty rate that applies to finished products (duty-free to 1.4¢/kg. + 13.9%) for the foreign components noted above (duty rates ranging from

duty-free to 16.3%). The application indicates that the savings from FTZ procedures will help improve Bayer's international competitiveness.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is January 22, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to February 2, 1999).

A copy of the application will be available for public inspection at the following locations:

U.S. Department of Commerce, Export Assistance Center, 601 East 12th St., Room 635, Kansas City, Missouri 64106

Office of the Executive Secretary, Foreign-Trade Zones Board, Room 3716, U.S. Department of Commerce, 14th Street & Pennsylvania Avenue, NW, Washington, DC 20230

Dated: November 16, 1998.

Dennis Puccinelli,

Acting Executive Secretary.

International Trade Administration

October 1998 Sunset Reviews: Final Results and Revocations

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of Sunset Reviews and revocation of antidumping orders and finding and termination of suspended investigation: Television Receivers from Japan (A-588-015); Color Television Receivers from Korea (South) (A-580-088); Color Television Receivers from Taiwan (A-583-099); Small Electric Motors from Japan (A-588-090); High Power Microwave Amplifiers from Japan (A-588-005); Barium Carbonate from Germany (A-428-061).

SUMMARY: On October 1, 1998, the Department of Commerce ("the Department") initiated sunset reviews of the antidumping duty orders on color television receivers from South Korea and Taiwan, high power microwave amplifiers from Japan, and barium carbonate from Germany as well as the antidumping finding on television receivers from Japan. The Department also initiated a sunset review of the

suspended investigation on small electric motors from Japan. Because no domestic interested party responded to the sunset review notice of initiation by the applicable deadline, the Department is revoking these orders and finding and terminating the suspended investigation.

EFFECTIVE DATE: January 1, 2000.

FOR FURTHER INFORMATION CONTACT:

Martha V. Douthit, Scott E. Smith, or Melissa G. Skinner, Import Administration, International Trade Administration, U.S. Department of Commerce, Pennsylvania Avenue and 14th Street, N.W., Washington, D.C. 20230; telephone: (202) 482-3207, (202) 482-6397, or (202) 482-1560 respectively.

SUPPLEMENTARY INFORMATION:

Background

The Treasury Department issued an antidumping finding on television receivers from Japan (36 FR 4597, March 10, 1971). In addition, the Department issued antidumping duty orders on color television receivers from South Korea and Taiwan (49 FR 7620, March 1, 1984), high power microwave amplifiers from Japan (47 FR 31413, July 20, 1982) and barium carbonate from Germany (46 FR 32864, June 25, 1981). The Department also suspended an investigation of small electric motors from Japan (45 FR 73723, July 20, 1980). Pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"), the Department initiated sunset reviews of these orders, finding and suspended investigation by publishing notice of the initiation in the **Federal Register** (63 FR 52683, October 1, 1998). In addition, as a courtesy to interested parties, the Department sent letters, via certified and registered mail, to each party listed on the Department's most current service list for these proceedings to inform them of the automatic initiation of a sunset review on these orders and finding as well as the suspended investigation.

No domestic interested parties in any of the sunset reviews of these orders, finding and suspended investigation responded to the notice of initiation by the October 16, 1998, deadline (see section 351.218(d)(1)(i) of *Procedures for Conducting Five-year ("Sunset") Reviews of Antidumping and Countervailing Duty Orders*, 63 FR 13520 (March 20, 1998) ("Sunset Regulations")).

Determination to Revoke

Pursuant to section 751(c)(3)(A) of the Act and section 351.218(d)(1)(iii)(B)(3) of the *Sunset Regulations*, if no

interested party responds to the notice of initiation, the Department shall issue a final determination, within 90 days after the initiation of the review, revoking the finding or order or terminating the suspended investigation. Because no domestic interested party responded to the notice of initiation by the applicable deadline, October 16, 1998 (see section 351.218(d)(1)(i) of the *Sunset Regulations*), we are revoking these antidumping orders and finding and terminating the suspended investigation.

Effective Date of Revocation and Termination

Pursuant to section 751(c)(6)(A)(iv) of the Act, the Department will instruct the United States Customs Service to terminate the suspension of liquidation of the merchandise subject to these orders and finding entered, or withdrawn from warehouse, on or after January 1, 2000. Entries of subject merchandise prior to the effective date of revocation will continue to be subject to suspension of liquidation and duty deposit requirements. The suspension agreement on small electric motors from Japan will remain in effect until January 1, 2000. The Department will complete any pending administrative reviews of these orders, finding and suspended investigation and will conduct administrative reviews of all entries prior to the effective date of revocation in response to appropriately filed requests for review.

Dated: November 17, 1998.

Robert S. LaRossa,

Assistant Secretary for Import Administration.

Availability of U.S. Patents for Non-Exclusive, Exclusive, or Partially-Exclusive Licensing

AGENCY: U.S. Army Research Laboratory, Adelphi, Maryland.

ACTION: Notice.

SUMMARY: In accordance with 37 CFR 404.6, announcement is made of the availability of the following U.S. patents for non-exclusive, partially exclusive or exclusive licensing. All of the listed patents have been assigned to the United States of America as represented by the Secretary of the Army, Washington, D.C.

These patents cover a wide variety of technical arts including: A device to eliminate the "dead-zone" in digital phase detectors, and a method and system for forming images by back projection.

Under the authority of Section 11(a)(2) of the Federal Technology Transfer Act of 1986 (Pub. L. 99-502) and Section 207 of Title 35, United States Code, the Department of the Army as represented by the U.S. Army Research Laboratory wish to license the U.S. patents listed below in a non-exclusive, exclusive, or partially exclusive manner to any party interested in manufacturing, using, and/or selling devices or processes covered by these patents.

Title: Method and System for Forming Image by Backprojection.
