#### **SUPPLEMENTARY INFORMATION:**

##### **I. Electronic Availability**

Electronic copies of the REDs and RED fact sheets can be downloaded from the Pesticide Reregistration Eligibility Decisions (REDs) home page at <http://www.epa.gov/REDs>.

##### **II. Reregistration Decision**

The Agency has issued Reregistration Eligibility Decision (RED) documents for the pesticidal active ingredients listed in the SUMMARY above. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of each of the chemicals listed above is substantially complete.

The Agency has received a request from the California Department of Food and Agriculture to extend (or reopen) the Rodenticide Cluster RED comment

period due to the extensive nature of this RED, and due to the fact that many registrants, including California, have multiple registrations with multiple active ingredients within the rodenticide cluster. The original comment period closed on November 10, 1998. The Agency believes that an additional 30-day comment period for the Rodenticide Cluster RED is justified, therefore, the Agency is reopening the comment period for an additional 30 days.

The official record for this notice, as well as the public version, has been established for this notice under docket control number "OPP-00551A" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The official record is located at the address in "ADDRESSES" at the beginning of this document.
