

the list will be sent to appropriate industry associations and trade journals, and to the extent practical, to individual manufacturers and distributors of "laboratory supplies." In addition, a current surveillance list will be available on the DEA homepage at <http://www.usdoj.gov/dea/>.

Small Business Impact and Regulatory Flexibility Concerns

The proposed Special Surveillance List applies to all individuals and firms which distribute the listed chemicals and laboratory supplies (chemicals, products, materials, or equipment) on the list. The notice does not impose any recordkeeping or reporting requirements for any of the laboratory supplies which are not listed chemicals. Thus the surveillance list will have a negligible impact on affected parties.

The notice serves two purposes. First, it informs individuals and firms of the potential use of the items on the list for the production of listed chemicals and illicit drugs. Second, it advises individuals and firms that civil penalties may be imposed on them if they distribute a laboratory supply to a person anytime after the two week period following receipt of written notification by the Attorney General that the person has used, attempted to use, or distributed the laboratory supply further for the unlawful production of controlled substances or listed chemicals.

DEA chose to limit the number of chemicals on the proposed Special Surveillance List to those most frequently used in the clandestine production of controlled substances or listed chemicals. Limiting the number of chemicals on the list minimizes the impact on wholesalers and retailers of the chemicals.

The Acting Deputy Administrator hereby certifies that this proposed notice has been drafted in a manner consistent with the principles of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This proposed notice will provide an increased level of law enforcement control to prevent the diversion of laboratory supplies used for the production of listed chemicals and controlled substances. It will not however impose any new regulatory burden on the public. This proposed notice fulfills the requirement imposed by section 205 of the Methamphetamine Control Act (MCA) of 1996 that the Attorney General shall publish a special surveillance list which contains chemicals, products, materials, or equipment used in the manufacture of listed chemicals and controlled substances. A copy of this proposed

notice has been provided to the Chief Counsel for Advocacy at the Small Business Administration.

This proposed notice has been drafted and reviewed in accordance with Executive Order 12866. This proposed notice has not been determined to be a significant action. Therefore, this proposed notice has not been reviewed and approved by the Office of Management and Budget.

This proposed action has been analyzed in accordance with the principles and criteria in Executive Order 12612, and it has been determined that this proposed notice does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

This proposed notice will not result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100,000,000 or more in any one year, and will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

This proposed notice is not a major rule as defined by Section 804 of the Small Business Regulatory Enforcement Fairness Act of 1996. This proposed notice will not result in an annual effect on the economy of \$100,000,000 or more; a major increase in costs or prices; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based companies to compete with foreign-based companies in domestic and export markets.

Dated: July 24, 1998.

Donnie R. Marshall,

Acting Deputy Administrator.
