### Increasing Transparency For the Tolerance Reassessment Process; Availability of Preliminary Risk Assessments for Four Organophosphates

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces the availability of documents that were developed as part of the Environmental Protection Agency's process for making reregistration eligibility decisions for the organophosphate pesticides and for tolerance reassessments consistent with the Federal Food, Drug, and Cosmetic

Act (FFDCA) as amended by the Food Quality Protection Act of 1996 (FQPA). These documents are the preliminary ecological risk assessments and related documents for ethoprop, methyl parathion, temephos, and terbufos and the preliminary human health assessment for the methyl parathion. This notice also starts a 60-day public comment period for the preliminary risk assessments. Comments are to be limited to issues directly associated with the four organophosphates that have risk assessments placed in the docket and should be limited to issues raised in those documents. By allowing access and opportunity for comment on the preliminary risk assessments, EPA is seeking to strengthen stakeholder involvement and help ensure our decisions under FQPA are transparent and based on the best available information. The tolerance reassessment process will ensure that the United States continues to have the safest and most abundant food supply. The Agency cautions that these risk assessments are preliminary assessments only and that further refinements of the risk assessments will be appropriate for some, if not all, of these four pesticides. These documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/or additional analyses are performed, the conclusions they contain may change.

**DATES:** Written comments on these assessments must be submitted on or before February 16, 1999.

**ADDRESSES:** By mail, submit written comments in triplicate to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, deliver comments to: Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as Confidential Business Information (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential will be included in the public docket without prior notice.

To request a copy of any of the preliminary risk assessments and related documents listed in this notice,

contact or visit the OPP Pesticide Docket at the addresses given in this unit, or call (703) 305-5805. The Docket staff will inform callers as to which of the documents can be sent directly from the docket and which need to be requested from the Freedom of Information Act Office due to their bulk. The public docket is available for public inspection in Rm. 119 at the Virginia address given in this unit from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

Comments and data may also be submitted electronically to: opp-docket@epa.gov. Follow the instructions under Unit II. of this document. No CBI should be submitted through e-mail. Copies of the preliminary risk assessments for the four organophosphate pesticides may also be accessed at: <http://www.epa.gov/oppsrrd1/op>.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

EPA is making available preliminary risk assessments that have been developed as part of EPA's process for making reregistration eligibility decisions for the organophosphate pesticides and for tolerance reassessments consistent with the FFDCA as amended by the FQPA. The Agency's preliminary ecological effects risk assessments for the following four organophosphate pesticides are available in the individual pesticide dockets: Ethoprop, temephos, and terbufos. The Agency's preliminary human health and ecological effects risk assessments for methyl parathion are also available in the docket.

Included in the individual pesticide dockets are the Agency's preliminary risk assessments. As additional comments, reviews, and risk assessment modifications become available, these will also be docketed for the four organophosphate pesticides listed in this notice. The Agency cautions that these risk assessments are preliminary assessments only and that further refinements of the risk assessments will be appropriate for some, if not all, of these four pesticides. These documents reflect only the work and analysis conducted as of the time they were produced and it is appropriate that, as new information becomes available and/
