## NUCLEAR REGULATORY COMMISSION

### Licensing Support System Advisory Review Panel

**AGENCY:** U.S. Nuclear Regulatory Commission.

**ACTION:** Notice of renewal and amendment of the charter of the Licensing Support Network Advisory Review Panel (LSNARP).

**SUMMARY:** The Licensing Support System Advisory Review Panel was established by the U.S. Nuclear Regulatory Commission as a Federal Advisory Committee in 1989. Its purpose was to provide advice to (1) the Department of Energy (DOE) on the fundamental issues of design and development of an electronic information management system to be used to store and retrieve documents relating to the licensing of a geologic repository for the disposal of high-level radioactive waste, and (2) the Nuclear Regulatory Commission on the operation and maintenance of the system. This electronic information management system was known as the Licensing Support System (LSS). On November 24, 1998 the Commission approved amendments to 10 CFR Part 2 (SECY-98-237) to provide for a Network based electronic information management system. These amendments will be published shortly. The changes to 10 CFR Part 2 require that the Licensing Support System Advisory Review Panel be renamed as the Licensing Support Network Advisory Review Panel and that the Charter be amended to reflect other changes made to the rule.

Membership on the Panel continues to be drawn from those interests that will be affected by the use of the LSN, including the Department of Energy, the NRC, the State of Nevada, the National Congress of American Indians, affected units of local governments in Nevada, the Nevada Nuclear Waste Task Force, and a coalition of nuclear industry groups. Federal agencies with expertise and experience in electronic information management systems may also participate on the Panel.

The Nuclear Regulatory Commission has determined that renewal of the charter for the LSNARP until December 19, 2000 is in the public interest in connection with duties imposed on the Commission by law. This action is being taken in accordance with the Federal Advisory Committee Act after consultation with the Committee Management Secretariat, General Services Administration.
