6. MidAmerican Energy Company

[Docket No. ER98-1473-000]

Take notice that on January 20, 1998, MidAmerican Energy Company (MidAmerican), P.O. Box 657, 666 Grand Avenue, Des Moines, Iowa 50303 tendered for filing changes to its Open Access Transmission Tariff (OATT). MidAmerican states that the purpose of the filing is to create a form of service agreement for firm point-to-point transmission service for less than one year, update the index of point-to-point transmission service customers and update the table of contents.

MidAmerican states that the current form of its OATT service agreement for firm point-to-point transmission service includes language incorporating the written specifications for the service. MidAmerican further states that it believes it is necessary to include this provision in agreements for long-term transactions to clarify that the service will be provided in accordance with the specifications agreed to by the parties but that this form of service agreement cannot be used as an umbrella agreement for short-term transactions without repeated filings with the Commission because the specifications vary from transaction to transaction. Therefore MidAmerican states that it is proposing an umbrella form of service agreement for short-term firm transactions which incorporates the short-term transaction specifications as posted on the OASIS.

MidAmerican proposes an effective date of January 23, 1998, for the tariff changes and requests a waiver of the 60-day notice requirement. MidAmerican states that good cause exists to grant the waiver because the changes to index and table of contents are ministerial and informational in nature and the changes to the form of agreement do not alter the substantive rights or obligations of MidAmerican, any existing customer or any future customer.

Copies of the filing were served upon representatives of customers having
