SUPPLEMENTARY INFORMATION:

OMB Approval Number: 3060-0170.
Title: Section 73.1030, Notification Concerning Interference to Radio Astronomy, Research, and Receiving Installations.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Businesses or other for-profit entities.

Number of Respondents: 57.

Estimated Time per Response: 0.5 hours.

Frequency of Response: On occasion reporting requirements; Third party disclosure.

Total Annual Burden: 29 hours.

Total Annual Costs: \$8,550.

Needs and Uses: Section 73.1030 requires licensees to provide simultaneous written notification to the Interference Office at Green Bank, WV when an application is filed with the FCC proposing to operate a short-term broadcast auxiliary station; an applicant seeks authority to construct a new broadcast station; or an applicant seeks authority to make changes in the frequency, power, antenna height, or antenna directivity of an existing station within the geographical coordinates of the National Radio Astronomy Observatory site in Green Bank, WV, or the Naval Radio Research Observatory site at Sugar Grove, WV.

On September 26, 1997, the Commission adopted a Report and Order in ET Docket No. 96-2 which established a coordination zone that covers the islands of Puerto Rico, Desecho, Mona, Vieques, and Culebra within the Commonwealth of Puerto Rico. The coordination zone requires applicants for new and modified radio facilities in various communications

services within the coordination zone to provide notification of the technical parameters of proposed operations to the Arecibo Radio Astronomy Observatory at the time their applications are submitted to the Commission. Statutory authority for this collection of information is contained in Section 154(i) of the Communications Act of 1934, as amended.

The data are used by the Interference Office to enable them to file comments or objections with the FCC in response to the notification in order to minimize potential harmful interference to the National Radio Astronomy Observatory site located in Green Bank, WV and the Naval Radio Research Observatory in Sugar Grove, WV. The notification to the Arecibo Radio Astronomy Observatory in Puerto Rico will enable the Observatory to receive information needed to assess whether an application's proposed operations will cause harmful interference to the Observatory's operations and will promote efficient resolution of problems through coordination between applicants and the Observatory.

Federal Communications Commission.

Secretary.
