BILLING CODE 3410-11-M

DEPARTMENT OF AGRICULTURE**Forest Service****Notice of Intent To Prepare an Environmental Impact Statement for the Threemile Timber Harvest**

SUMMARY: The Department of Agriculture, Forest Service, will prepare an Environmental Impact Statement (EIS) to provide timber for the Tongass National Forest timber sale program. The Record of Decision will disclose how the Forest Service has decided to provide harvest units, roads, and associated timber harvesting facilities. The proposed action is to harvest timber on approximately 2300 acres including both clearcut with reserves and overstory removal harvest methods. This would entail harvest of an estimated 48 million board feet of timber. Approximately 33 miles of new roads would be built, as well as a new log transfer facility at No Name Bay.

A range of alternatives responsive to significant issues will be developed including a no-action alternative. The proposed timber harvest is located in the Tongass National Forest, Petersburg Ranger District, on Kuiu Island, Alaska, within Value Comparison Units 416, 417, 418, 419 and the east side of VCU 420. The *Tongass Land and Resource Management Plan* (1997) provides the overall guidance (land use designations, goals, objectives, management prescriptions, standards and guidelines) to achieve the desired future condition for the area in which this project is proposed. The Forest Plan allocates portions of the project area into four management prescriptions: Timber Production, Modified Landscape, Semi-Remote Recreation, and Old-growth Habitat Land Use Designations.

DATES: For the Forest Service to best use the scoping input, comments should be

received by May 1, 1999; however, scoping comments will be accepted at any time.

ADDRESSES: Please send written comments to Petersburg Ranger District; Tongass National Forest; Attn: Threemile Timber Harvest EIS; P.O. Box 1328, Petersburg, AK, 99833.

FOR FURTHER INFORMATION CONTRACT: Questions about the proposal and EIS should be directed to Everett Kissinger, Interdisciplinary Team Leader, P.O. Box 309, Petersburg, AK, 99833, phone (907) 772-3841.

SUPPLEMENTARY INFORMATION: Public participation will be part of the planning process and will be especially important at several points during the analysis. The first is during the scoping process. The Forest Service will be seeking information, comments, and assistance from federal, state, and local agencies, and from individuals and organizations that may be interested in, or affected by, the proposed activities. The scoping process will include: (1) Identification of potential issues; (2) identification of issues to be analyzed in depth; and, (3) elimination of insignificant issues or those which have been covered by a previous environmental review. Written scoping comments will be solicited through a scoping package sent to a project mailing list. For the Forest Service to best use the scoping input, comments should be received by May 1, 1999; however, scoping comments will be accepted at any time. Tentative issues identified for analysis in the EIS include subsistence, wildlife habitat, road development and access management, and timber sale economics and timber supply. Based on the results of scoping and the resource capabilities within the project area, alternatives including a no-action alternative will be developed for a Draft Environmental Impact Statement (Draft EIS). The Draft EIS is projected to be filed with the Environmental Protection Agency (EPA) in September 1999. Subsistence hearings, as provided for in Title VIII, Section 810 of the Alaska National Interest Lands Conservation Act (ANILCA), are planned during the comment period on the Draft EIS. The Final EIS is anticipated by March, 2000.

The comment period on the Draft EIS will be 45 days from the date the Environmental Protection Agency publishes a notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First,

reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553, (1978). Environmental objections that could have been raised at the draft environmental impact statement stage may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns of the proposed action, comments during scoping and comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific areas with the project areas or specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR parts 215 or 217. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Requesters should be aware that, under FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision
